Introducción a la técnica de mapas mentales José María Guerrero,2017-04-15 Esta obra pretende introducir al lector a la técnica del mind mapping, aportando el conocimiento necesario para su comprensión y aplicación. Empieza explicando brevemente su historia, para dar cuenta de las ventajas de esta técnica sobre el uso del texto lineal y las páginas web, en la visualización y el trabajo con información compleja en los entornos académico y profesional, a la vez que desenmascara las falsas creencias extendidas sobre el tema. Asimismo, ofrece una breve introducción al software MindManager 16, el estándar del mercado, para describir sus aplicaciones más comunes, analizar los últimos avances de su automatización y explorar las posibilidades futuras de la técnica de una forma sencilla y comprensible. Este libro se puede emplear como complemento al manual de usuario de MindManager 16, como guía para el autoestudio, y como referencia en cursos introductorios y avanzados de mapas mentales y MindManager 16.

La gestión de la creatividad en televisión Javier Bardají Hernando, Santiago Gómez Amigo, 2004 El mercado audiovisual español presenta una expansión sorprendente en la década 1990-2000; el proceso que en Estados Unidos y los principales mercados europeos se vivió en los años setenta y ochenta, en España se concentra en menos de diez años. La aparición de las cadenas privadas posibilita la creación de las productoras independientes, que ayuda al rápido crecimiento del sector. Globo Media es una de las compañías clave en este proceso por dos motivos: el éxito de audiencia de sus programas y series, y los criterios empresariales y de calidad por los que se ha guiado desde su creación. El caso de Globo Media aborda las claves que la han situado como una compañía puntera en el sector audiovisual español y latinoamericano.
