Judith Aron Rubin

Art as Therapy Edith Kramer, 2001-03-15 This collection of papers reflects Edith Kramer's lifetime of work in this field, showing how her thoughts and practice have developed over the years. She considers a wide spectrum of issues, covering art, art therapy, society, ethology and clinical practice and placing art therapy in its social and historical context.

Art Therapy Judith Aron Rubin, 1999 What is art therapy? How do art therapists use art to understand and to help people? What does the future of art therapy look like? This book provides a map of the territory of this rapidly-growing discipline. Surveying the field from both a historical and a current perspective, the book covers a wide variety of practitioners and approaches. The reader will learn how art therapy is used to assess and to treat people of all ages and conditions - in many kinds of settings, including clinics, hospitals, schools, prisons, community centers, and nursing homes. *Art Therapy: An Introduction* brings art therapy to life with over 40 clinical vignettes and almost 200 illustrations of artwork and of art therapy in action. Offering a rich array of sources and resources, the book will be of interest to clinicians and teachers in many fields, such as psychiatry, psychology, social work, counseling, art, and education.

Art, Science and Art Therapy Frances Kaplan, 2000-01-01 This text urges art therapists to be more scientifically-minded in their research and practice. Proposing that study of the findings of other disciplines is crucial to its development and reinforcement, it investigates research from these disciplines.

Studio Art Therapy Catherine Hyland Moon, Mildred Lachman-Chapin, 2001-10-01 This book presents a model of art therapy where the processes of art constitute the core of the model. It addresses how an arts-based approach can inform the therapist in all aspects of practice, from the conception of the work and the attempt to understand client needs to interacting with clients and communicating with others about art therapy.

The Art of Art Therapy Judith Aron Rubin, 1984 This book shows how to think about doing art therapy, rather than how to do art therapy. It presents the general understandings necessary for effective art therapy for any age level, in any setting, and in any modality. An excellent text.

The Changing Shape of Art Therapy Andrea Gilroy, Gerry McNeilly, 2000 Including contributions from some of the leading art therapists in Britain, this important book addresses the key issues in the theory and practice of art therapy. The fundamental significance of the art in art therapy practice permeates the book, close attention being paid by several writers

to the art-making process and the aesthetic responses of therapist and client. Other authors explore the tensions between art and therapy, images and speech, subjectivity and objectivity, arguing that the dynamic interplay between these elements is inherent to the practice of art therapy. The role of containment is another theme that is explored by contributors in a variety of ways to highlight the importance not only of the therapeutic containment of the client by the therapist, but also the containment of the therapist. The physical contexts of the session, within an art room and within the larger working environment, are identified as important arenas where conflict and tension is experienced and must be explored if art therapy is to continue to develop.

Art Therapy and Social Action Frances F. Kaplan, Frances Kaplan, 2007 Art Therapy and Social Action is an exciting exploration of how professionals can incorporate the techniques and approaches of art therapy to address social problems. Leading art therapists and other professionals show how creative methods can be used effectively to resolve conflicts, manage aggression, heal trauma and build communities.

Healing Arts Susan Hogan, 2001 As well as providing an authoritative history of art therapy, it covers such diverse topics as the philosophy of art therapy, the way attitudes to insanity have changed, the role of art therapy in the context of post-war rehabilitation and the treatment of tuberculosis patients, Surrealism, and Britain's first therapeutic community.

The Role of Metaphor in Art Therapy Bruce L. Moon, 2007 The studio-based approach, where artists and art therapists work side-by-side making art, exploring issues of transition, and listening metaphorically, is examined. In addition, the relevance of esthetics and empathy in looking at client artwork without judgment and responding to the client through art making is discussed. This excellent resource describes how to look at, listen to, and respond to the metaphors that artworks divulge.--BOOK JACKET.

The Modern History of Art Therapy in the United States Maxine Borowsky Junge, 2010 Over the years, art therapy pioneers have contributed towards the informal and formal beginnings of this fascinating and innovative profession. The development of the art therapy profession concerns a special breed of person who discovered the profound and unique power of the integration of art and psychology and had the energy and drive to create the new field. Important movements and milestones are highlighted including the dilemmas and crucial events of art therapy's evolution. Unique features include: the early days and influence; the United States at the time of the formation of the art therapy profession; Florence Cane and the Walden School; Margaret Naumberg's theory of psychodynamic art therapy; Edith Kramer's theory of art as therapy; the Menninger Foundation, art therapy in Ohio and the Buckeye Art Therapy Association; Elinor Ulman and the first art therapy journal; Hanna Yaxa Kwiatkowska and the invention of family art therapy; a brief history of art therapy in Great Britain and Canada; the 1960s and their influence on the development of art therapy; Myra Levick and the establishment of the American Art Therapy Association; the pioneer art therapists and their qualities and patterns; the definition and expansion of art

therapy; the development of master's-level art therapy; art therapists of color and influence; the history of humanistic psychology and art therapy; the expressive arts therapy; Jungian art therapy; and the art therapists that began in the 1970s. Finally, the book presents issues essential to the field today such as art therapy registration, certification and licensing, art therapy assessment procedures, research, multiculturalism and art therapy as an international phenomenon. This text will be of primary interest to art therapists and students, to art educators and historians, and to those interested in how mental health disciplines evolve.

Existential Art Therapy Bruce L. Moon, 2009 A classic in art therapy literature since its introduction nearly two decades ago, this book is an expression of the author's desire to link the practice of art psychotherapy to the core issues of life as presented in existentialism. The inclusion of existential in this book's title denotes an interest in human struggle with issues of life in the face of death. The Canvas Mirror is the story of connections--the author's connections with his patients, their connections with each other, and, ultimately, the author's connections with the reader. We are provided in this book with a philosophy of ho.

Spiritual Art Therapy (3rd Ed.) Ellen G. Horovitz, 2017-09-01 In this exceptional new third edition, the author has retained the intent to animate the spiritual dimension that exists within all of us and embrace its resource for growth and change. Tapping into a person's belief system and spiritual dimension provides clinicians with information that can impact both assessment and treatment. By drawing on sources in the literature of religion, psychodynamics, systems theory, sociology, art, and ethics, the author lays a foundation for discovering and measuring clients' spiritual sensibilities and

search for personal meaning of their relationship to God. Chapter 1 discusses the evolution of the book and how the author embarked upon the inclusion of the spiritual dimension in assessment and treatment. Chapter 2 reviews the literature that encircles art therapy, mental health, and spirituality and explores its impact. Chapter 3 examines the Belief Art Therapy Assessment (BATA). Chapter 4 highlights the interviews and use of the BATA with clergy, while Chapter 5 explores its use with a “normal” adult artist population. Chapter 6 looks at spiritual art therapy with emotionally disturbed children and youth in residential treatment. Chapter 7 offers a case vignette of spiritual art therapy with a suicidal anorectic bulimic. Chapter 8 discusses phototherapy applications regarding the issue of mourning and loss. Academic and clinical applications are presented. Chapter 9 explores humankind’s search for inner and outer meaning after the tragedy of September 11. The final chapter offers an extensive discussion on the pathway for life and the body in treatment. The role of yoga and art therapy, including the importance of moving forward into life with greater resiliency and independence, is examined. An excellent resource for increased knowledge and sensitivity, the book is designed for art therapists, mental health workers, social workers, educational therapists, pastoral counselors, psychologists, psychiatrists, and other creative arts therapists.
