Actionable Research for Educational Equity and Social Justice Wang Chen,Xu Li,Edward P. St. John,Cliona Hannon,2018-06-14 Actionable Research for Educational Equity and Social Justice advances a unique, engaged approach to promoting educational equity and social justice in higher education across China and beyond. Developed as a joint venture of senior and junior scholars in China and the United States, this book documents Chinese, Latin American, U.S., and European examples of engaged scholarship supporting the development of strategies for expanding educational opportunities for low-income families. Drawing from collaborative research, workshops, and field investigations, chapter authors propose and test new methods and practices for reducing educational inequality and provide examples of successful practices that have improved access for low-income students across the globe.

The Transformation of Learning Bert van Oers,Wim Wardekker,Ed Elbers,René van der Veer,2008-03-03 The Transformation of Learning gives an overview of some significant advances of the cultural-historical activity theory, also known as CHAT in the educational domain. Developments are described with respect to both the theoretical framework and research. The book's main focus is on the evolution of the learning concept and school practices under the influence of cultural-historical activity theory. Activity theory has contributed to this transformation of views on learning, both conceptually and practically. It has provided us with a useful approach to the understanding of learning in cultural contexts.

Topics in Cognitive Rehabilitation in the TBI Post-Hospital Phase Renato Anghinah,Wellingson Paiva,Linamara Rizzo Battistella,Robson Amorim,2018-11-22 Traumatic brain injury (TBI) refers to nondegenerative, noncongenital damage to the brain from an external mechanical force, which can lead to permanent or temporary impairment of cognitive, physical, and psychosocial functions, with an associated diminished or altered state of consciousness. Despite this broad definition, it is estimated that more than 1.500.000 people suffer TBI annually in US, with 20% afflicted with moderate or severe forms. Additionally, a high percentage of these patients are unable to return to their daily routine (approximately 50%). In this context, both motor and cognitive rehabilitation are extremely important for these individuals. The aim of cognitive and motor rehabilitation is to recover an individual's ability to process, interpret and respond to environmental inputs, as well as to create strategies and procedures to compensate for lost functions that are necessary in familial, social, educational and occupational settings. The purpose of this book is to review the basic concepts related to TBI, including mechanisms of

injury, acute and post-acute care, severity levels, the most common findings in mild, moderate and severe TBI survivors, and the most frequent cognitive and motor impairments following TBI, as well as to discuss the strategies used to support post-TBI patients. The most important rehabilitation techniques, both from cognitive and motor perspectives, are addressed. Finally, information regarding work and community re-entry and familial and psychological support are discussed in detail. Topics in Cognitive Rehabilitation in the TBI Post-Hospital Phase is intended as a reference guide for all professionals who have contact with or are related to patients suffering from TBI. Any professionals who work with or are related to patients suffering from TBI will find here a broad and comprehensive overview of TBI, addressing all essential issues, from acute care to rehabilitation strategies, follow up and re-socialization.

The Palgrave Biographical Encyclopedia of Psychology in Latin America Ana Maria Jacó-Vilela, Hugo Klappenbach, Rubén Ardila, 2023-05-19 This biographical encyclopedia will provide the first comprehensive reference work on leading scholars and professionals who have contributed to the development and institutionalization of psychology in Latin America. The figures biographed will include scholars who have made a significant theoretical contribution to the discipline, as well as, practitioners and those who have contributed to the institutionalization of psychology, through their work in scientific organisations, professional bodies and publications. All persons included are recognized authorities and either natives of, or long-term residents in the region. It will offer an invaluable reference point, in particular for scholars of the history of psychology, Latin American studies, the history of science, and global psychology; as well as for historians, psychologists and social scientists seeking international perspectives on the development of the discipline.

O Trabalho Como Operador de Saúde Diálogos em Clínica da Atividade Claudia Osorio da Silva, Cristiane Lisbôa da Conceição, Maria Elizabeth Barros de Barros, Marianna Araujo da Silva, 2023-09-18 Entre tradição e desenvolvimento: uma clínica brasileira em diálogo Uma obra coletiva fiel às clínicas de trabalho e à clínica de atividade, mas sobretudo tingida com

uma nota singular, original, tanto em termos da metodologia, como dos meios profissionais em questão e de uma epistemologia fortemente ligada às dimensões políticas abertamente inscritas em intervenções voltadas para a saúde no trabalho. O trabalho clínico, se pode ser considerado como um transofício, como argumentam algumas autoras presentes no livro, é sobretudo um trabalho à beira do leito e voltado para uma transformação. Assim, todo trabalho clínico situa-se em uma realidade econômica, profissional, histórica, cultural, social e psíquica. Este encontro não poderia ser realizado sem efeitos. Este livro tem uma coloração política e cultural que renova nossa leitura da clínica da atividade. Em primeiro lugar, e isso é importante, este encontro nos permite compreender melhor as instituições e práticas que estão no coração das questões de saúde no Brasil (o SUS, o sistema e os dispositivos e as estruturas e programas educacionais em particular), mas também uma realidade social e econômica do trabalho que é visível no campo das clínicas de trabalho (trabalho informal, artesanato...). Isso não é tudo: neste encontro, como resultado, esta clínica é transformada, estilizada e culturalmente colorida. O diálogo engajado no grupo de pesquisa Nutras permite confrontar abordagens da clínica de trabalho, que se têm todo o interesse em discutir, para atingir seu objetivo: desenvolver a saúde no trabalho e desenvolver a saúde dos clínicos envolvidos, de diferentes pertencimentos, pela mediação do diálogo científico, teórico, metodológico e clínico. Oxalá, que este empreendimento coletivo contribua para os diálogos científicos em curso, no Brasil ou em outros lugares, para desenvolver a saúde no trabalho.

Desigualdade, Diferença, Política: Análises Interdisciplinares em Tempos de Pandemias Mériti de Souza., 2021-10-04 O contexto que a humanidade experimenta com o advento da Covid-19 demanda a reunião de todo o conhecimento possível para compreendermos a expansão dessa pandemia no planeta e analisarmos as suas reverberações nas mais distintas realidades, regiões, situações e populações. A coletânea *Desigualdade, diferença, política: análises interdisciplinares em tempos de pandemias* reúne trabalhos de pesquisadores de áreas do conhecimento como Psicologia, História, Educação, Psicanálise e Saúde Pública, o que possibilita a abordagem de variados contextos e situações por profissionais de origem e formação distintas e que recorrem a diferentes matrizes teóricas. Esse recorte interdisciplinar estimula o repensar dos pressupostos que sustentam múltiplas áreas do conhecimento a partir das suas interfaces e conexões com situações e processos associados a pandemias. A desigualdade social é um problema amplo que atravessa a história nacional e global. Em épocas de pandemias e outros desastres sociais, econômicos, ambientais e de saúde, as condições de desigualdade, associadas às referências da diferença e da política, ganham proporções ainda mais alarmantes. Analisar e criticar o amplo e complexo cenário que propaga e sustenta essas condições, nas suas inúmeras modalidades, é um desafio que mobiliza profissionais das mais diversas áreas, em geral preocupados(as) em instituir estratégias que possam atenuar as condições sub-humanas nas quais vivem bilhões de pessoas no mundo e, de forma mais específica, milhões de brasileiros e brasileiras.

Pujol, 2020-08-24 Le travail est source de vie, de développement et de culture, mais également vecteur d'usure, voire de mort prématurée. Source à la fois d'exploitation et d'émancipation, il peut être aussi un puissant opérateur de l'identité et de la santé. Des chercheurs et praticiens de différents pays (Cuba, Brésil, Argentine, Colombie, Chili, Uruguay, France, Québec, Suisse), tous engagés autour d'une visée d'humanisation du travail, se sont réunis lors d'un symposium à La Havane en octobre 2018. Psicología del deporte María Julia Raimundi, 2025-02-01 Una guía imprescindible para evaluar y potenciar el rendimiento y el bienestar en el ámbito deportivo. La psicología del deporte constituye una disciplina en expansión. En las últimas décadas ha registrado un importante desarrollo en la Argentina, pero aún queda mucho camino por recorrer tanto en el área académica como profesional. Es que el rol del psicólogo/a no se limita al trabajo con deportistas: también puede desempeñarse en equipos deportivos o en instituciones (clubes, federaciones, escuelas, fundaciones) así como asesorar a entrenadores/as, árbitros, dirigentes, madres y padres de deportistas jóvenes y grupos en general. Esta obra atiende a dos ejes: la evaluación psicológica y la intervención. En la primera parte se describen diversas herramientas de diagnóstico situacional, desde la entrevista, los cuestionarios y tests, pasando por la observación en el campo y las variables a evaluar, hasta el uso de técnicas informatizadas, la devolución de resultados y cuestiones ligadas a la ética profesional. En cuanto a la intervención, se describen experiencias en distintos contextos, haciéndose hincapié en las intervenciones con deportistas adolescentes. Dado que hay escasa bibliografía en castellano, el libro aspira a ser una suerte de manual en la materia, que promueva la especialización y la formación académica. El profesional de la psicología tiene mucho que ofrecer en el ámbito deportivo en cualquier nivel, desde la iniciación hasta el deporte profesional, incluyendo el ejercicio y la actividad física. Y ello porque hay una amplia zona de incumbencia psi: por un lado, las habilidades psicológicas necesarias para el rendimiento (motivación, liderazgo, autoconfianza, entre otras), y por otro, aquellas habilidades ligadas al bienestar psicológico y al desarrollo personal.

Práticas cotidianas e a naturalização da desigualdade Mary Jane P. Spink,2006 Partindo do pressuposto de que a compreensão da naturalização das desigualdades é a chave para qualquer projeto que busca intervir na construção de uma sociedade mais justa, os autores e autoras desta obra focalizam as dimensões psicossociais desse processo a partir dos eventos, acontecimentos e comentários presentes em jornais diários. Cada membri do grupo seguiu por caminhos específicos, dependendo das conexões teóricas feitas. Mas esta diversidade, como as peças de um quebra-cabeça, gera a unidade pelo compartilhamento da proposta, assim como pelo compromisso ético-político que a sustenta. Esses diferentes olhares sobre um mesmo tema e sobre um mesmo veículo de comunicação - o jornal diário - faz esta coletânea ser de interesse potencial ded um público bastante amplo: professores, pesquisadores, alunos de graduação e pós-graduação de áreas variadas e profissionais que tenham em comum o interesse pelos estudos de mídia e, sobretudo, a vontade de lutar pela transformação social em busca de formas de sociabilidade menos pautadas pela desigualdade.
