Muslim Communities in North America Yvonne Yazbeck Haddad,Jane I. Smith,1994-01-01 This book provides a look at Muslim life and institutions forming in North America. It considers the range of Islamic life in North America with its different racial-ethnic and cultural identities, customs, and religious orientations. Issues of acculturation, ethnicity, orthodoxy, and the changing roles of women are brought into focus. The authors provide insight into the lives of recent immigrants who are asking what is Islamically appropriate in a non-Muslim environment. Contrasts are drawn between Sunni and Shi'i groups, and attention is given to the activities of some Sufi organizations. The growing Islamic community among African-American Muslims is examined, including the followers of Warith Deen Muhammed and the sectarians identified with black power, such as the Nation of Islam, Darul Islam, and the Five Percenters. The authors document the challenges and issues that American Muslims face, such as prejudice and racism; pressure from overseas Muslims; dress and education; the influence of Islamic revivalism on the development of the community in this country; and the maintenance of Muslim identity amidst the pressure for assimilation.

A History of Conversion to Islam in the United States, Volume 2 Patrick D. Bowen,2017-09-11 In *A History of Conversion to Islam in the United States, Volume 2: The African American Islamic Renaissance, 1920-1975* Patrick D. Bowen offers an in-depth account of African American Islam as it developed in the United States during the fifty-five years that followed World War I. Having been shaped by a wide variety of intellectual and social influences, the 'African American Islamic Renaissance' appears here as a movement that was characterized by both great complexity and diversity. Drawing from a wide variety of sources—including dozens of FBI files, rare books and periodicals, little-known archives and interviews, and even folktale collections—Patrick D. Bowen disentangles the myriad social and religious factors that produced this unprecedented period of religious transformation.

The True History of Allah and His 5% The Gods & Earths Who Were There!,2019-03-16 This book is based on the true history of Allah the Father and His great Nation of Gods and Earths known as the Five Percenters. This is the greatest story that was never told by the Gods and the Earths during their younger years with Allah the Father from the early 1960s up

until the time of his assassination on June 13, 1969. This was a time of struggle for the Black Man, Woman, and Child (the Universal Family). This was the time of the Big Five, who were: Allah the Father, who brought about the Nation of Gods and Earths known as the Five Percenters; the Honorable Elijah Muhammad, who was the last and greatest messenger of Allah, also the leader and teacher of the Black Muslims; Malcolm X of the new arrival; Dr. Martin Luther King, Jr., the civil rights leader; and the Black Panther Party on the East and West coasts. These five groups were called the Big Five, because they had the attention of every Black Man, Woman, and Child in the wilderness of North America and other parts of our planet. There was a host of other Black groups as well. This was a time when the Five Percenter's teachings were being taught/spoken so plain and simple that even a child could understand. Black people were on the rise, and it was a time for a change—for Black Man, Woman, and Child to take their place on earth. Peace!

Dance To My Ministry Carl Petter Opsahl, 2016-10-10 Hip-hop is a deeply spiritual culture, a culture that since its beginnings has provided urban youth all over the world with a sense of place, being and direction, with knowledge of self and knowledge of cultural heritage. By examining a number of rap tunes and graffiti walls, Carl Petter Opsahl explores different spiritualities and religious traditions informing hip-hop culture, including, Christianity, Nation of Islam, Nation of Gods and Earths and indigenous spiritualities. By developing a theoretical framework of hybrid spirituality, Opsahl outlines spiritual strategies of survival and resistance in contexts of oppression and struggle. He provides basic introductions to recent research on spirituality, to hip-hop culture and its esthetic practices and to Islam in the USA and the teachings of Nation of Islam and Nation of Gods and Earths. Then follow in-depth analyzes of hip-hop cultural expressions. One chapter is devoted to the study of graffiti murals, exploring artworks by some of New York's finest writers such as TATS CRU, TRACY 168, TOO FLY and QUEEN ANDREA. Then follows a chapter on rap and Christianity, featuring explorations of Lauryn Hill, 2Pac and a number of Christian rappers including G.R.I.T.S. Another chapter explores Islamic influences on rap, with studies on Public Enemy, Wu-Tang Clan, Erykah Badu and Mos Def. Embedded in rhythms, rhymes, colors and shapes, the exploration of hip hop spirituality expands the horizon of studies in spirituality.

Introduction to New and Alternative Religions in America William M. Ashcraft, Eugene V. Gallagher, 2006-10-30

Most new or alternative religions are gravely misunderstood by members of the religious mainstream. Labeled cults or sects, groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large. Despite their efforts at educating the general public, the various anti- and counter-cult activists have in fact promoted much more mis-understanding than accurate understanding of the religious lives of some of their fellow citizens. Consequently, they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so-called mainstream. This set rectifies the situation by presenting accurate, comprehensive, authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society, and it addresses ways of understanding new and alternative religions within a broader context. Determining what actually constitutes a new or alternative religion is a subject of constant debate. Questions arise as to a new faith's legitimacy, beliefs, methods of conversion, and other facets of a religious movement's viability and place in a given culture. How a religion gains recognition by the mainstream, which often labels such new movements as cults, is fraught with difficulty, tension, and fear. Here, experts delineate the boundaries and examine the various groups, beliefs, movements, and other issues related to new faiths and alternative beliefs. Readers will come away with a fuller understanding of the religious landscape in America today. Volume 1: History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them. This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved. Volume 2: Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths. Groups such as the Shakers, the People's Temple, the Branch Davidians, Jehovah's Witnesses and others are examined. Volume 3: Metaphysical, New Age, and Neopagan Movements looks at Shamanism, Spiritualism, Wicca, and Paganism, among other movements, as they have developed and grown in the U.S. These faiths have found new and devoted followers yet are often misunderstood. Volume 4: Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions. From Baha'i to Soka Gakkai, from Adidam to the Vedanta Society, contributors look at a full range of groups practicing and worshipping in the U.S. today. Volume 5: African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as Rastafarianism, Santeria, and the Nation of Islam, alongside traditions that are truly American incarnations like Scientology, UFO religions, and Heaven's Gate. Some of the new and alternative religions covered in these pages include: ; Shamanism ; Wicca ; Black Israelites ; Santeria ; Scientology ; Elan Vital ; Hare Krishna ; Soka Gakkai ; and many more
