Legal Issues in Social Work Practice and Research Sana Loue,2018-05-17 This highly practical text surveys the myriad legal and ethical issues that social workers encounter both in daily practice and under special circumstances. Its initial section presents concepts in law and ethics that unite practitioners, researchers, and academics in the field, such as confidentiality, informed consent, and the interplay between social work and administrative and judicial systems. A selection of representative cases illustrates legal aspects involved in providing services to families, children, elders, and persons with disabilities. Also included are chapters on advocacy in social work, both in its potential to influence policy and on the global stage as part of the ongoing struggle for human rights and dignity. Among the topics covered: Confidentiality and the social worker-client relationship Liability issues for social workers in the clinical context Legal issues arising in the context of social work research The social worker and forensic social work Social worker involvement in access to school and school services Social work in the context of health care Legal issues working with immigrants, refugees, and asylees The interface between social work and human rights Legal Issues in Social Work Practice and Research is an interdisciplinary text aimed at social work, mental health, and legal professionals. It enhances the power of social work as an integrative system to support clients' rights and agency.

Risk Management in Social Work Frederic G. Reamer,2014-11-25 This new text is based on Frederic G. Reamer's key reference for practitioners, *Social Work Malpractice and Liability: Strategies for Prevention*. Rooted in his own experiences as an expert witness in court and licensing board cases, the volume introduces the concepts of negligence, malpractice, and liability before turning to the subject of risk management. Reflecting on recent legal cases and research, Reamer identifies a variety of problems in the social work field relating to privacy and confidentiality, improper treatment and delivery of services, impaired practitioners, supervision, consultations and referrals, fraud and deception, and termination of service. He also explores the unprecedented ethical challenges created by new digital technologies—such as online counseling, video counseling, and practitioners' use of social networks and social media—and describes current issues relating to HIPAA compliance and access to electronic health records (EHR) and health information exchanges (HIE).He concludes with

practical suggestions for social workers named as defendants in lawsuits and respondents in licensing board complaints.
