Barbara Hall

The Silver Kiss Annette Curtis Klause, 1992 Zoe becomes involved with Simon, a vampire seeking revenge for his mother's death.

They Suck, They Bite, They Eat, They Kill Joni Richards Bodart, 2012 Teen readers have always been fascinated by monsters, but lately it seems like every other young adult (YA) book is about vampires, zombies, or werewolves. These works are controversial, since they look at aspects of life and human nature that adults prefer to keep hidden from teenagers. But this is also why they are so important: They provide a literal example of how ignoring life's hazards won't make them go away and demonstrate that ignorance of danger puts one at greater risk. In *They Suck, They Bite, They Eat, They Kill: The Psychological Meaning of Supernatural Monsters in Young Adult Fiction* Joni Bodart examines six different monsters—vampires, shapeshifters, zombies, unicorns, angels, and demons—in YA literature. Bodart first discusses the meaning of these monsters in cultures all over the world. Subsequent chapters explore their history and most important incarnations, comparing the same kind of creatures featured in different titles. This volume also contains interviews with authors who provide additional insight and information, and the bibliography includes a comprehensive list of titles featuring the various monsters. Analyzing the most important and well-written series and titles for teens, *They Suck, They Bite, They Eat, They Kill* will be useful for parents, teachers, and anyone else hoping to understand why teens want to read books in this genre and what some of the benefits of reading them might be.

Fiction, Food, and Fun Kathryn Closter, KAREN L. SIPES, VICKIE THOMAS, 1998-05-15 Featuring fiction, food, and fun, this unique approach motivates young people to read and builds their comprehension skills while extending their learning across the curriculum. Students, teachers, librarians, parents, and community members can participate in these mealtime programs, which include such activities as games, writing or art projects, role-playing, storytelling, interviewing, and guest speakers. Based on the authors' READ 'N' FEED program, the book provides detailed plans for learning events developed from selected young adult novels. For each title, the authors provide a summary of the plot; a booktalk; background information on the author; discussion questions; activities; novel connections; suggestions for food and decorations; and reproducible templates of publicity posters, student invitations, game pieces, and other materials. The authors also give instructions on how to design a program for other books. This method integrates critical-thinking skills, multiple intelligences

The Cambridge Companion to the Modern Gothic Jerrold E. Hogle, 2014-12-04 This Companion explores the many ways in which the Gothic has dispersed in the twentieth and twenty-first centuries, and in particular how it has come to offer a focus for the tensions inherent in modernity. Fourteen essays by world-class experts show how the Gothic in numerous forms - including literature, film, television, and cyberspace - helps audiences both to distance themselves from and to deal with some of the key underlying problems of modern life. Topics discussed include the norms and shifting boundaries of sex and gender, the explosion of different forms of media and technology, the mixture of cultures across the western world, the problem of identity for the modern individual, what people continue to see as evil, and the very nature of modernity. Also including a chronology and guide to further reading, this volume offers a comprehensive account of the importance of Gothic to modern life and thought.

Blood and Chocolate Annette Curtis Klause, 2007-08-14 Vivian Gandillon relishes the change, the sweet, fierce ache that carries her from girl to wolf. At sixteen, she is beautiful and strong, and all the young wolves are on her tail. But Vivian still grieves for her dead father; her pack remains leaderless and in disarray, and she feels lost in the suburbs of Maryland. She longs for a normal life. But what is normal for a werewolf? Then Vivian falls in love with a human, a meat-boy. Aiden is kind and gentle, a welcome relief from the squabbling pack. He's fascinated by magic, and Vivian longs to reveal herself to him. Surely he would understand her and delight in the wonder of her dual nature, not fear her as an ordinary human would. Vivian's divided loyalties are strained further when a brutal murder threatens to expose the pack. Moving between two worlds, she does not seem to belong in either. What is she really--human or beast? Which tastes sweeter--blood or chocolate?
