*Encyclopedia of Body Language* Alan Elangovan, 2020-10-06 Embarking on the need to have an encyclopedia of body language was a task nursed for years and stirred fear in me for many reasons. First, it was pictured to be a novel project which would surpass the yearnings of people in the field. And also, the structure which it was to take was another daunting issue. However, all these issues only spurred me into bringing out quality work, one that would stand the test of time and cause a turning point in the life of every reader. This book adopts a unique structure of research; its perfect combination of raw knowledge and scholarly findings from across the world makes it stand out from other texts. The book reels out how to relate with people and understand their behaviors through nonverbal acts. It considers all the attributes of human body parts while communicating with others. However, before you can understand others, there is a need to understand yourself first. This is another aspect that this encyclopedia delves into; it explains ways in which you can maintain a charming and result-oriented posture in order to command respect from others during any given discourse. This is a potential tool you need to apply in order to make others open to you. This book explains ways in which you can fish out someone who is trying to play on your intelligence through their body language. In conclusion, this book gives a practical outline of how to activate the subconscious and conscious brains in working in tandem in order to understand the intents of co-interlocutor.

*Body Language in Hellenistic Art and Society* Jane Masségli, 2015 Why are so many Hellenistic kings shown with one arm in the air? Could posture distinguish the slave from the citizen? Was there a Hellenistic etiquette of sitting down? How did Hellenistic Greeks feel about the bodies of the disabled and the elderly? And what did it mean to Tuck-for-Luck? This richly-illustrated book brings together a wide range of Hellenistic art objects, and reveals how ancient social attitudes were encoded in the body language of their subjects. Incorporating approaches from anthropology and archaeology, it considers a wide range of social groups, from the elite to slaves, and examines the postures, gestures, and body actions which were considered appropriate to each. By examining Hellenistic kings, queens, public intellectuals, citizen men and women, Africans, servants, paidagogoi, fishermen, peasants, old women, dwarfs, and the disabled, this study provides important new insights into what is 'Hellenistic' about Hellenistic Art, and into the anxieties of Hellenistic society. In doing so, it not only reconsiders familiar concepts such as the 'individuality' of the civic elite and the apparent passivity of women, but also reveals Hellenistic attitudes towards issues such as old age, race, and child abuse, and explores power, prejudice, and the

role of art in both reflecting and enforcing social stereotypes.

Winning Body Language for Sales Professionals: Control the Conversation and Connect with Your Customer—without Saying a Word (ENHANCED) Mark Bowden, 2013-06-07 Building on his classic guide *Winning Body Language*, master communications expert Mark Bowden reveals essential nonverbal strategies that help win sales. Whether calling on a potential client for the first time, delivering a presentation, analyzing a client's needs, or making a sale, how the message is delivered matters as much as—or more than—what's being said. *Winning Body Language for Sales Professionals* unlocks the secrets of nonverbal communication to give sales specialists an unbeatable advantage. Mark Bowden has coached hundreds of clients how to communicate more effectively and influentially. In this guide, he delivers step-by-step guidance and demonstrations specifically tailored for sales pros, including how to read situations and cues in prospective clients' body language; knowing when (and how) to sit and stand; and subtle alterations to body language that convey positive energy, persuade and influence, and put customers at ease! Mark Bowden is a noted body language expert and creator of TruthPlane(TM), a communication and presentation training program used by Fortune 50 companies and CEOs throughout the world.

51 Tools for Transforming Your Training Kimberley Hare, Larry Reynolds, 2017-03-02 Brain-Friendly Learning is not about techniques and gimmicks. It is far more than just putting on baroque music, or playing fun games. It's a movement rather than just a method; a movement to recover the real joy of learning that combines both sizzle and substance to every part of your training. This resource provides a blueprint for a new generation of accelerated learning methods. At its heart are five key principles: ¢ Keep it real ¢ Facilitate the flow ¢ Honour uniqueness ¢ Make it rich and multi-sensory ¢ State is everything (well almost). There is a clear explanation of the theory behind Brain-Friendly Learning from the inside out; the concepts and learning models you need to underpin your approach, along with a journey through the most complex structure in the universe - your amazing brain. You'll also discover a concise guide to brain-friendly training design along with tools that you can pick and adapt to help you create new training events or make-over existing ones. This resource is packed with activities for the trainer or facilitator. Some are designed to help you understand a particular concept in more detail; others are designed to apply the concept to learning events which you are facilitating. You will have attended or facilitated (some) training sessions that engaged you, motivated you and left you with new insights and new techniques that you were just burning to try. At the time, you may not have been able to define what it was about these events that made them so special. This resource helps you to understand exactly what the mystery ingredient is and shows you how to use the whole encyclopedia of techniques that turn training into Brain-Friendly Learning.

Body Language in the Greek and Roman Worlds Douglas L. Cairns,2005 A distinguished cast of scholars discusses models of gesture and non-verbal communication as they apply to Greek and Roman culture, literature and art. Topics include dress and costume in the Homeric poems; the importance of looking, eye-contact, and face-to-face orientation in Greek society; the construction of facial expression in Greek and Roman epic; the significance of gesture and body language in the visual meaning of ancient sculpture; the evidence for gesture and performance style in the texts of ancient drama; the erotic significance of feet and footprints; and the role of gesture in Roman law. The volume seeks to apply a sense of history as well as of theory in interpreting non-verbal communication. It looks both at the cross-cultural and at the culturally specific in its treatment of this important but long-neglected aspect of Classical Studies.
