Collected Writings of Edward Leedskalnin Edward Leedskalnin, 2023-12-30

Collected Writings of Edward Leedskalnin Edward Leedskalnin, 2023-06-09 The *Collected Writings of Edward Leedskalnin* is a compilation of two of Leedskalnin's works, *Magnetic Current* and *A Book in Every Home*. This eccentric sculptor and amateur scientist devoted most of his life to creating a large complex of megalithic stones that he quarried and carved himself. Edward Leedskalnin was born in Latvia in 1887. Although he only received formal education up to the fourth grade, he was very inquisitive and spent a large part of his youth reading. He was said to be a sickly boy and grew into a small man—reportedly measuring just 5 feet tall and weighing 100 lbs. At age 26, he was engaged to marry a 16-year-old girl named Agnes Skuvst, but the wedding was called off. Accounts differ, some claiming the wedding was canceled the day before it was scheduled and others saying that Leedskalnin was jilted at the altar. Regardless, he was heartbroken and shortly after emigrated to America. After reaching New York in 1912, he continued on to Oregon where he worked for an ax-handle manufacturer. By 1923, he had contracted tuberculosis. The illness prompted him to move to a warmer climate for his health. He chose Florida, where he purchased an undeveloped acre of land in Florida City. It was on this modest plot that he began Rock Gate (later renamed Coral Castle). This ambitious project involved extracting enormous pieces of oolite stone from his land, moving them into position, and carving them—entirely alone. The pieces include sculptures and carved stone furniture, as well as a two-story tower that served as his living quarters. The project was devoted to his Sweet Sixteen, the woman who had rejected him many years earlier. Due to the scale of the project, some have dubbed it Florida's Stonehenge. While it's unclear how Leedskalnin was able to complete it, it is all the more impressive considering his small stature and questionable health. When he wasn't hewing or carving stone, Leedskalnin was also conducting experiments and writing. His first published work was a pamphlet titled *A Book in Every Home*, published in 1936. The book is divided into three parts,

with the first section focusing on Leedskalnin's views on relationships and education. In the second section, Leedskalnin offers his opinions on domestic arrangements and the raising of children. And in the third, he shares his views on voting and the role of government, advocating that the weaklings should not be allowed to vote. Leedskalnin also spent two years testing magnets and recording his findings from Rock Gate. These experiments would form the basis of *Magnetic Current*, published in 1945. In the book, Leedskalnin argues that electricity and magnetism are not separate phenomena but are instead two aspects of the same fundamental force, which he calls magnetic current. He also proposes a new model of atomic structure and suggests that the fundamental particles of matter are tiny magnets that are constantly in motion. Leedskalnin presents a variety of experiments throughout the book, many of which involve the manipulation of magnetic fields using simple items like various magnets, car batteries, light bulbs, and coils of wire. He believed that his discoveries could provide insights into the mysteries of the universe, including the relative positions of the celestial bodies. Both works demonstrate Leedskalnin's unique view of the world and his eccentric personality. While some of his ideas may be seen as outdated or controversial, the books offer an intriguing glimpse into the mind of a self-taught philosopher and inventor who had a unique perspective on the world around him.

The Dangerous Man Karen Sawyer, 2012-11-01 A collection of controversial research and alternative worldviews, presenting new and exciting ways of thinking about life as we know it.

The Secret History of the World and How to Get Out Alive Laura Knight-Jadczyk, 2005 Previously published as *Ancient Science*, *Secret History* contains 150 pages of new material. *The Secret History of The World and How To Get Out Alive* is the definitive book of the real answers where Truth is more fantastic than fiction. Laura Knight-Jadczyk, wife of internationally known theoretical physicist, Arkadiusz Jadczyk, an expert in hyperdimensional physics, draws on science and mysticism to pierce the veil of reality. With sparkling humour and wisdom, she picks up where Fulcanelli left off, sharing over thirty years of research to reveal, for the first time, The Great Work and the esoteric Science of the Ancients in terms accessible to scholar and layperson alike. Conspiracies have existed since the time of Cain and Abel. Facts of history have been altered to support the illusion. The question today is whether a sufficient number of people will see through the deceptions, thus creating a counter-force for positive change - the gold of humanity - during the upcoming times of Macro-Cosmic Quantum Shift. Laura argues convincingly, based on the revelations of the deepest of esoteric secrets, that the present is a time of potential transition, an extraordinary opportunity for individual and collective renewal: a quantum shift of awareness and perception which could see the birth of true creativity in the fields of science, art and spirituality. *The Secret History of the World* allows us to redefine our interpretation of the universe, history, and culture and to thereby navigate a path through this darkness. In this way, Laura Knight-Jadczyk shows us how we may extend the possibilities for all our different futures in

literal terms. With over 800 pages of fascinating reading, *The Secret History of The World and How to Get Out Alive* is rapidly being acknowledged as a classic with profound implications for the destiny of the human race. With painstakingly researched facts and figures, the author overturns long-held conventional ideas on religion, philosophy, Grail legends, science, and alchemy, presenting a cohesive narrative pointing to the existence of an ancient techno-spirituality of the Golden Age which included a mastery of space and time: the Holy Grail, the Philosopher's Stone, the True Process of Ascension. Laura provides the evidence for the advanced level of scientific and metaphysical wisdom possessed by the greatest of lost ancient civilizations - a culture so advanced that none of the trappings of civilization as we know it were needed, explaining why there is no 'evidence' of civilization as we know it left to testify to its existence. The author's consummate synthesis reveals the Message in a Bottle reserved for humanity, including the Cosmology and Mysticism of mankind Before the Fall when, as the ancient texts tell us, man walked and talked with the gods. Laura shows us that the upcoming shift is that point in the vast cosmological cycle when mankind - or at least a portion of mankind - has the opportunity to regain his standing as The Child of the King in the Golden Age. If ever there was a book that can answer the questions of those who are seeking Truth in the spiritual wilderness of this world, then surely *The Secret History of the World and How to Get Out Alive* is it.

Manifestations of Masculine Magnificence Teresa N. Washington, 2014-02-25 *Manifestations of Masculine Magnificence: Divinity in Africana Life, Lyrics, and Literature* is a remarkable study and the first of its kind. Teresa N. Washington eschews popular culture's pimp myths and thug sagas and traces the Africana man's power, creativity, and consciousness to his inherent divinity. *Manifestations of Masculine Magnificence* takes the reader to the source of power with an analysis of African Divinities and divine technologies. Washington explores the permanence and proliferation of African Gods from oppressive plantations to the empowering proclamations of such leaders as W. D. Fard, Marcus Garvey, Father Divine, and Allah, the Father. Washington analyzes the summonses to and from the Gods that resonate in the music of such artists as Erykah Badu, The RZA, Sun Ra, X Clan, and Rakim. Using literary analysis as a prism to display the diversity of Africana divinity, Washington reveals the literature of such writers as August Wilson, Walter Mosley, Toni Morrison, Ngugi wa Thiong'o, and Ishmael Reed to be three-way mirrors that eternally reflect and project the Gods, their myriad powers, and their weighty responsibilities. *Manifestations of Masculine Magnificence* will prove indispensable to independent scholars as well as scholars of Comparative Literature, Hip Hop Studies, Gender Studies, Africana Studies, Literary Criticism, and Religious Studies.

The Apocalypse Revisited Dr. Reginald O. Crosley, 2017-11-13 After two thousand years of history in which we have faithfully expected the Second Coming of Christ, we have met with recurrent disappointments. Why is that? At the beginning of the end of the ages that is the first century of the Christian era, the apostles and the early Christians were living with the expectation of an imminent return of Christ. Jesus himself was expecting a quick return, but the Father had a different planning. At the end of the first century, the Father revealed to John the content of a scroll with Seven Seals. That scroll outlined the main events that will occur in every century of the Christian era. A thorough review of the manifestations of the Seven Seals in every century is exposed in my book. We also call attention to Gods judgments upon the whole creation in the visible and the invisible worlds. The Apocalypse Revisited introduces us to two realms of reality . It is written to make the symbols , the visions, the personalities and the time-table of historic events accessible to the readers. We should no longer establish dates for events that are kept secret by the Creator . Also some events described in the Apocalypse are already occurring in history. The very end of the cosmos and the earth is not around the corner. It is in the future probably after a thousand year following Armageddon.

American Folk Art Kristin G. Congdon, Kara Kelley Hallmark, 2012-03-19 Folk art is as varied as it is indicative of person and place, informed by innovation and grounded in cultural context. The variety and versatility of 300 American folk artists is captured in this collection of informative and thoroughly engaging essays. American Folk Art: A Regional Reference offers a collection of fascinating essays on the life and work of 300 individual artists. Some of the men and women profiled in these two volumes are well known, while others are important practitioners who have yet to receive the notice they merit. Because many of the artists in both categories have a clear identity with their land and culture, the work is organized by geographical region and includes an essay on each region to help make connections visible. There is also an introductory essay on U.S. folk art as a whole. Those writing about folk art to date tend to view each artist as either traditional or innovative. One of the major contributions of this work is that it demonstrates that folk artists more often exhibit both traits; they are grounded in their cultural context and creative in the way they make work their own. Such insights expand the study of folk art even as they readjust readers' understanding of who folk artists are.
