La comunicacion a traves de la historia M^a Verónica De Haro De San Mateo, 2014-07-21 Una serie de investigadores punteros de varias universidades mundiales han recibido el encargo de analizar la última vanguardia en comunicación. Así, se han podido recopilar sus investigaciones y reflexiones en torno a los nuevos contenidos (in)formativos a partir de las reformas que ha supuesto el Espacio Europeo de Enseñanza Superior (EEES o Plan Bolonia) como reto innovador en las aulas en tanto en cuanto contenidos y fórmulas. Esta aportación intelectual a las nuevas corrientes docentes se ha plasmado en un trabajo, multidisciplinar y variado, que se presenta en formato de libro, patrocinado por el Fórum Internacional de Comunicación y Relaciones Públicas (Fórum XXI), la Sociedad Española de Estudios de la Comunicación Iberoamericana (SEECI) y el Grupo de Investigación Validado Complutense Concilium. En estas páginas el lector podrá hallar un selecto grupo de trabajos encargados a unos autores comprometidos con las reformas educativas, quienes conforman la vanguardia actual en el campo de la Comunicación, para la confección de un estudio prospectivístico sobre las directrices por las que se encaminan los referentes de la nueva Universidad derivada del EEES. A través de los títulos recogidos en la colección Nuevo Impulso Educativo se pueden atisbar las líneas que marcarán el futuro de la realidad universitaria en los campos docentes e investigadores sobre contenidos y formas durante el próximo lustro

Descripción y análisis del desarrollo infantil y adolescente Alicia Sales Galán, Olga Fernández García, María Dolores Gil Llarío, 2024-09-05 Descripción y análisis del desarrollo infantil y adolescente: a través de casos se presenta como un manual que busca adentrar al lector en el apasionante mundo del desarrollo infantil y adolescente, familiarizándolo con los conceptos básicos, las teorías fundamentales y los principales hitos evolutivos. Los contenidos teóricos se exponen haciendo uso de ejemplos reales, una metodología didáctica que facilita que el lector se implique de forma activa en su aprendizaje y realice un proceso de análisis más exhaustivo de dicha información. Así, aunque es una obra dirigida fundamentalmente a la formación de estudiantes universitarios, por lo que se ajusta a las exigencias de los planes de estudio, también pretende responder a las inquietudes de profesionales y padres. La elaboración del presente manual es fruto de la experiencia que ha permitido a este equipo docente ser consciente de la necesidad de conectar los conceptos teóricos con la realidad de los casos prácticos para conseguir un aprendizaje realmente significativo. Asimismo, cada capítulo cuenta con cuestiones autoevaluativas y nuevos casos a través de los cuales el lector puede poner a prueba sus aprendizajes.

Gender and Contemporary Television in Iberia and Latin America Anja Louis, Abigail Loxham, 2025-08-07 This book provides an inclusive and intersectional look into television from Latin America and the Iberian Peninsula. Each of the essays, written by international scholars across various disciplines, offer close textual analyses of popular series from Mexico, Spain, Brazil and Cuba, these include *La casa de papel* (2017-2021), *Drag Race España* (2021-), *Inés del alma mía* (2020) and *El ministerio del tiempo* (2015). The detailed case studies of seminal local and global hits provide overdue critical attention to Latin American television programming, highlighting on screen representations of gendered identities and the role of online streaming in facilitating social change. The collection goes on to explore recent industrial changes through first hand interviews with prominent practitioners such as Veronica Fernandez and Leticia Dolera. Discussing a broad range of genres including the telenovela, melodrama, historical drama and reality TV, alongside critical theories of media and gender, the collection contextualises and interrogates representational practices in Spanish television programming.

La evolución de la mente A. G. Cairns-Smith, 2000-04-06 La mente humana merece figurar entre las maravillas del mundo natural. Resulta difícil creer que un conjunto ordenado de moléculas pueda generar sentimientos, emociones y sensaciones como lo hace el cerebro humano. ¿Cómo es posible que el cerebro físico origine la mente consciente? La evolución de la mente estudia esta cuestión centrándose principalmente en dos temas: cómo han evolucionado las teorías de la mente en la ciencia y la evolución de la mente en la Naturaleza. Escrito en un lenguaje muy accesible, este libro es entretenido, serio e informativo.

Historia y cine Mónica Bolufer Peruga, Juan Gomis, Telesforo-Marcial Hernández, 2015 En un tiempo en que la ficción televisiva de carácter histórico goza de creciente popularidad, al tiempo que la disciplina histórica, metodológicamente renovada, se interroga sobre sus formas de producción de conocimiento y escritura, este volumen plantea un diálogo inusual entre historiadores y profesionales del cine y la televisión para superar la desconfianza mutua que con frecuencia preside esta relación. Desde una perspectiva interdisciplinar, nos interesamos por las múltiples y fructíferas dimensiones del vínculo entre Historia y cine, analizando las virtualidades del cine como fuente para abordar problemas históricos; como un instrumento pedagógico de primer orden; como un relato con sus propios códigos, limitaciones y libertades creativas. Relato histórico y ficción cinematográfica aparecen así como formas distintas pero complementarias de aproximarse al pasado y de recrearlo, en palabras o en imágenes. A través de esta reflexión abierta, esperamos contribuir a un debate que tiene implicaciones cruciales para la escritura y enseñanza de la Historia y para el papel que esta disciplina aspira a ejercer en la sociedad actual y en los próximos tiempos. La Configuración de la Televisión Interactiva: de Las Plataformas Digitales a la TDT María José Arrojo Baliña, 2008-07 El

nacimiento de las plataformas digitales de televisión en España y la posterior llegada de la Televisión Digital Terrestre y de otro tipo de Tecnologías, han variado sustancialmente la labor del programador televisivo, y el propio significado del término “programación”. El trabajo que aquí se presenta es fruto de una reflexión científica acerca de un quehacer profesional, el del programador, que trata de identificar los nuevos agentes televisivos y los nuevos procesos comunicativos que surgen con la televisión digital: qué tienen de nuevo y qué heredan de la televisión convencional. La televisión digital interactiva parte de un diseño complejo que atañe, tanto a los contenidos, como a los ámbitos de la programación, la producción, la comercialización, la difusión, etc. Por otra parte, están los objetivos de unos usuarios que han de optar ante una multivariedad de canales y de contenidos. La creciente complejidad de estos fenómenos comunicativos pone de relieve la necesidad de un marco interpretativo que, además de estudiarlos como fenómenos sociales, también atienda a su clara componente artificial, por lo que el presente trabajo se propone configurar a las Ciencias de la Comunicación como Ciencias de lo Artificial. Pretendemos que éste sea un libro de referencia para estudiantes de Periodismo y Comunicación Audiovisual, para los profesionales del sector de la televisión: canales, productoras, distribuidoras y, por supuesto, programadores; así como para todas aquellas personas interesadas por la comunicación y sus procesos.

Telenovelas, televisión y comunicación Francisco Javier Torres Aguilera,1994 Hablar de las telenovelas en México es más que hablar de historias de amor hechas para las amas de casa. Es referirse a todo un fenómeno de la comunicación moderna de que aglutina infinidad de áreas de interés, pero que se reduce a un solo hecho contundente: su indiscutible éxito entre el público televisivo. En esta obra, el autor hace un interesante análisis de la exposición a las telenovelas a partir del rating obtenido por más de trecientos casos considerados desde 1962. El estudio no sólo permite descubrir el comportamiento histórico de la exposición a los melodramas, los mejores horarios y los casos más exitosos, sino además, contribuye a conocer más de cerca un género demolido por la crítica, pero valorado por las Ciencias Sociales.

REVISTA GEOMETRÍA Nº 3 / EXPO SEVILLA 92 - ALMERÍA JOSÉ SEGUÍ PÉREZ y otros,1987-01-01 GEOMETRÍA fue una revista técnica e independiente que, dirigida por el Arquitecto José Seguí, se editó entre los años 1.985 y 2.000 tratando de recuperar el diálogo profesional entre las prácticas de la arquitectura y del urbanismo, desarrollando y entendiendo el proyecto arquitectónico y urbanístico desde la propia estructura urbana que lo soporta y su referencia al proyecto global de la ciudad. Esta conjunción de valores estéticos y prácticos, que podríamos definirlos como el arte de construir ciudades, fue el centro de un debate profesional que construyó la disciplina de la arquitectura y del urbanismo como las dos caras inseparables de una misma moneda. GEOMETRÍA busca así incorporar al debate profesional y a la investigación disciplinar materiales significativos en la experiencia de intervenir en nuestras ciudades, tratando de descubrir, en esta práctica profesional, los elementos de la actual cultura urbanística y arquitectónica. GEOMETRÍA was a technical and

independent magazine which, directed by the architect José Seguí, was published between 1985 and 2000 in an attempt to recover the professional dialogue between the practices of architecture and town planning, developing and understanding the architectural and town planning project from the very urban structure that supports it and its reference to the global project of the city. This conjunction of aesthetic and practical values, which we could define as the art of building cities, was at the centre of a professional debate that constructed the discipline of architecture and urban planning as the two inseparable sides of the same coin. GEOMETRY thus seeks to incorporate into the professional debate and disciplinary research significant materials in the experience of intervening in our cities, trying to discover, in this professional practice, the elements of the current urban and architectural culture.
