John Pym

The Invisible Art of Film Music Laurence E. MacDonald, 1998-01-01 A comprehensive introduction to film music for the general student, the film historian, and the aspiring cinematographer. It is a historically structured account of the evolution of music in films. The book is arranged as a chronological survey and includes biographical sketches on many important film composers in addition to the development of the films themselves.

BBC Proms 2023 BBC Proms Publications, 2023-04-19 The BBC Proms is the world's biggest and longest-running classical music festival and one of the jewels in the crown for the BBC. Held every summer at the Royal Albert Hall in London, it is one of the strongest brand names in the music world and attracts a glittering array of artists and orchestras from the UK and around the world. Whether you're a first-time visitor or an experienced Prommer, watching at home or listening on radio or online, the BBC Proms Guide is an excellent companion to the festival, which you can treasure and return to in years to come. Filled with concert listings and articles by leading writers, the BBC Proms Guide offers an insight into the performers and repertoire, as well as thought-provoking opinion pieces about music, musicians and music-making. The contents for 2023 include a specially commissioned short story by Man Booker Prize-nominated author Madeleine Thien; an exploration of the mysterious art of conducting; and an investigation of the connections between music and the human body and spirit - including a 'mental health' Proms playlist. We celebrate the unashamedly Romantic and nostalgically bittersweet music of Sergey Rachmaninov, 150 years after his death; we throw the spotlight on Samuel Coleridge-Taylor and Dora Pejacevic, Croatia's first major woman composer; and we delve into the sonic space dust of experimental legend György Ligeti, whose music Stanley Kubrick used to other-worldly effect in 2001: A Space Odyssey, The Shining and Eyes Wide Shut. Plus, hear from an array of Proms artists in our series of Spotlight interviews.

On the Track Fred Karlin, Rayburn Wright, 2013-07-04 Offers a comprehensive guide to scoring for film and television. Covering all styles and genres, the authors cover everything from timing, cuing, and recording through balancing the composer's vision with the needs of the film.

Film Music Kenneth Lampl, 2023-10-24 A comprehensive introduction to film music, this book provides a concise and illuminating summary of the process of film scoring, as well as a succinct overview of the rich history of contemporary film music. Written in a non-technical style, this book begins by presenting a brief history of film music from the last 30 years,

covering topics ranging from blockbuster franchises to indie film scores. It explores film music from around the world, including Bollywood and European Avant-garde cinema, and film music in animation, like Disney-Pixar and Japanese anime. It then offers a guide to the language of film music analysis, the creative process behind composing film music, and the use of current technology. The book champions diversity in the industry, with case studies and interviews from a range of active film composers, including: Pinar Toprak (Captain Marvel, 2019), Kris Bowers (Bridgerton, 2020), Natalie Holt (Loki, 2021), and Rachel Portman (Emma, 1996), Complete with a glossary of key terms and further reading, this book is an invaluable resource for all those beginning to study film music, as well as lifelong film music buffs seeking to update their understanding of film music.
