**Current research on naturally transmitted Plasmodium knowlesi** Russell Stothard,David Rollinson,2021-09-28

Plasmodium Knowlesi, Volume 113 in the Advances in Parasitology series, includes medical studies of parasites of major influence, along with reviews of more traditional areas, such as zoology, taxonomy and life history. Chapters in this update include Taking the strain out of onchocerciasis: a reanalysis of blindness and transmission data does not support the existence of a savanna blinding strain of onchocerciasis in West Africa, Enterocytozoon bienersi of animals, Taenia solium taeniasis/cysticercosis, Genomic analysis reveals predominant clonality and progressive evolution at all evolutionary scales in eukaryotic pathogens, HTLV-I and Strongyloides: the worm lurking beneath, and more. - Informs and updates on all the latest developments in the field of parasitology - Includes medical studies of parasites of major influence - Features reviews of more traditional areas, such as zoology, taxonomy and life history, which help shape current thinking and applications

**Primary health care and continuous quality improvement** Alison Laycock,Ross Bailie,Lynette

O'Donoghue,2025-06-01 For most people, the main point of access to the health system is through primary health care (PHC). The fundamental premise of primary health care is that all people, everywhere, have the right to receive the appropriate care in their community. Primary health care attends to the majority of a person's health needs throughout their lifetime, including physical, mental and social wellbeing. PHC is people-centred rather than disease-centred. It is a whole-of-society approach that includes health promotion, disease prevention, treatment, rehabilitation and palliative care. Primary

health care and continuous quality improvement: An evidence-based guide provides an accessible contemporary guide on implementing continuous quality improvement (CQI) in PHC settings. The authors draw together two decades of practical experience and established leadership in Aboriginal and Torres Strait Islander health in Australia to provide guidance for health services and their staff, policymakers, researchers, funders and support organisations in an international context. Primary health care and continuous quality improvement provides an in-depth understanding of how CQI can be used to strengthen health systems by: identifying core concepts underpinning CQI in PHC and how CQI can improve health care quality, health equity and population health; explaining how CQI data is used in a comprehensive approach to PHC to measure quality, and how data is generated and used for improving care; describing CQI tools and techniques used by PHC teams; offering guidance in interpreting data and addressing variation in care quality; providing case studies in maternal health, children's health, mental health and other areas, to describe the application of CQI to improve clinical care; guiding practitioners on how to collaborate and build data systems for CQI, and strengthen links between communities and PHC services. Continuous quality improvement is everybody's business, and Primary health care and continuous quality improvement explains the strategic use of CQI at different levels of the health system and across sectors to achieve and sustain large-scale health improvement.

**Menzies School of Health Research Annual Report 2014** ,2015-05-13

*Learning from 50 Years of Aboriginal Alcohol Programs* Peter d'Abbs,Nicole Hewlett,2023-08-31 This open access book deals with community-based attempts on the part of Aboriginal communities and groups in Australia to address harms arising from alcohol misuse. Alcohol-related harms are viewed as both a product of colonisation and dispossession and a contributor to ongoing social, economic and health-related disadvantage, both in Australia and in other countries with colonised Indigenous populations, such as Canada, the US and New Zealand. This book contributes to an evidence-base by bringing together a selection of existing Australian documents considered by the editors to have continuing relevance to all those concerned with dealing with alcohol-related harms among Aboriginal peoples, These are contextualised in original chapters that recount key events, ideas, and programs. The book is a practical resource for all people and groups concerned with addressing Aboriginal and Torres Strait Islander alcohol-related harms, both at the community level and at the level of policy-making and administration.
