

The Knights Of Bushido

Edward Frederick Langley Russell Baron Russell of Liverpool

The Knights of Bushido Edward Frederick Langley Russell, 2016-07-19 The war crimes trials at Nuremberg and Tokyo meted out the Allies' official justice; Lord Russell of Liverpool's sensational bestselling books on Germany's and Japan's war crimes decided the public's opinion. *The Knights of Bushido*, Russell's account of Japanese brutality in the Pacific in World War II, carefully compiles evidence given at the trials themselves. Russell describes how the noble founding principles of the Empire of Japan were perverted by the military into a systematic campaign of torture, murder, starvation, rape, and destruction. Notorious incidents like the Nanking Massacre and the Bataan Death March emerge as merely part of a pattern. With a new introduction for this edition, *The Knights of Bushido* details the horrors perpetrated by a military caught up in an ideological fervor. Often expecting death, the Japanese flouted the Geneva Convention (which they refused to ratify). They murdered aircrews, bayoneted prisoners, carried out arbitrary decapitations, and practiced medical vivisection. Undoubtedly formidable soldiers, the Japanese were terrible conquerors. Their conduct in the Pacific is a harrowing example of the doctrine of mutual destruction carried to the extreme, and begs the question of what is acceptable—and unacceptable—in total war. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

The Knights of Bushido Edward Frederick Langley Russell Baron Russell of Liverpool, 2005 This is the classic, standard account of Japanese war crimes; a best seller in its time, but out of print for many years. Between 1931 and 1945 Japanese troops rampaged through one defeated country after another, executing civilians, despoiling cities, massacring prisoners and cruelly exploiting prisoners of war and native populations. This sweeping indictment of atrocities committed by the forces of the Rising Sun is a detailed and carefully documented study and one that throws light onto one of the most disturbing episodes of World War II.
