The Oxford Handbook of Music and Advertising James Andrew Deaville, Siu-Lan Tan, Ron Rodman, 2021 This Handbook explains how music contributes to the advertising that the public encounters on a daily basis. The Routledge Research Companion to Popular Music and Gender Stan Hawkins, 2017-03-16 Why is gender inseparable from pop songs? What can gender representations in musical performances mean? Why are there strong links between gender, sexuality and popular music? The sound of the voice, the mix, the arrangement, the lyrics and images, all link our impressions of gender to music. Numerous scholars writing about gender in popular music to date are concerned with the music industry's impact on fans, and how tastes and preferences become associated with gender. This is the first collection of its kind to develop and present new theories and methods in the analysis of popular music and gender. The contributors are drawn from a range of disciplines including musicology, sociology, anthropology, gender studies, philosophy, and media studies, providing new reference points for studies in this interdisciplinary field. Stan Hawkins's introduction sets out to situate a variety of debates that prompts ways of thinking and working, where the focus falls primarily on gender roles. Amongst the innovative approaches taken up in this collection are: queer performativity, gender theory, gay and lesbian agency, the female pop celebrity, masculinities, transculturalism, queering, transgenderism and androgyny. This Research Companion is required reading for scholars and teachers of popular music, whatever their disciplinary background.

The Rebirth of Suspense Rick Warner, 2024-09-17 Typically, films are suspenseful when they keep us on the edge of our seats, when glimpses of a turning doorknob, a ticking clock, or a looming silhouette quicken our pulses. Exemplified by Alfred Hitchcock's masterworks and the countless thrillers they influenced, such films captivate viewers with propulsive plots that spur emotional investment in the fates of protagonists. Suspense might therefore seem to be a curious concept to associate with art films featuring muted characters, serene landscapes, and unrushed rhythms, in which plot is secondary to mood and tone. This ambitious and wide-ranging book offers a redefinition of suspense by considering its unlikely incarnations in the

contemporary films that have been called “slow cinema.” Rick Warner shows how slowness builds suspense through atmospheric immersion, narrative sparseness, and the withholding of information, causing viewers to oscillate among boredom, curiosity, and dread. He focuses on works in which suspense arises where the boundaries between art cinema and popular genres—such as horror, thriller, science fiction, and gothic melodrama—become indefinite, including Chantal Akerman’s *La captive*, Apichatpong Weerasethakul’s *Memoria*, Jonathan Glazer’s *Under the Skin*, Kelly Reichardt’s *Night Moves*, Lucrecia Martel’s *Zama*, Kiyoshi Kurosawa’s *Creepy*, and David Lynch’s *Twin Peaks: The Return*. Warner investigates the pivotal role of sound in generating suspense and traces how the experience of suspense has changed in the era of digital streaming. *The Rebirth of Suspense* develops a fresh theory, history, typology, and analysis of suspense that casts new light on the workings of films across global cinema.

The anthology shows the various patterns of use an inflection in a range of scores - orchestral, popular, rock and electronic - and how these relate to non-musical sound. Lively and accessible, *Terror Tracks* is an important contribution to study of Horror cinema.
