Christianity and Comics Blair Davis, 2024-03-15 The Bible has inspired Western art and literature for centuries, so it is no surprise that Christian iconography, characters, and stories have also appeared in many comic books. Yet the sheer stylistic range of these comics is stunning. They include books from Christian publishers, as well as underground comix with religious themes and a vast array of DC, Marvel, and Dark Horse titles, from Hellboy to Preacher. Christianity and Comics presents an 80-year history of the various ways that the comics industry has drawn from biblical source material. It explores how some publishers specifically targeted Christian audiences with titles like Catholic Comics, books featuring heroic versions of Oral Roberts and Billy Graham, and special religious-themed editions of Archie. But it also considers how popular mainstream comics like Daredevil, The Sandman, Ghost Rider, and Batman are infused with Christian themes and imagery. Comics scholar Blair Davis pays special attention to how the medium's unique use of panels, word balloons, captions, and serialized storytelling have provided vehicles for telling familiar biblical tales in new ways. Spanning the Golden Age of comics to the present day, this book charts how comics have both reflected and influenced Americans' changing attitudes towards religion.

Heroes of the Comics Drew Friedman, 2014-09-10 Featuring over 80 full-color portraits of the pioneering legends of American comic books, including publishers, editors and artists from the industry's birth in the '30s, through the brilliant artists and writers of behind EC Comics in the '50s. All lovingly rendered and chosen by Drew Friedman, a cartooning legend in his own right. Featuring subjects popular and obscure, men and women, as well as several pioneering African-American artists. Each subject features a short essay by Friedman, who grew up knowing many of the subjects included (as the son of writer Bruce Jay Friedman), including Stan Lee, Harvey Kurtzman, Will Eisner, Mort Drucker, Al Jaffee, Jack Davis, Will Elder, and Bill Gaines. More names you might recognize: Barks, Crumb, Wood, Wolverton, Frazetta, Siegel & Shuster, Kirby, Cole, Ditko, Werthem... it's a Hall of Fame of comic book history from the man BoingBoing.com call "America's greatest living portrait artist!"

Graphic Encounters Dale Jacobs, 2013-08-29 With the recent explosion of activity and discussion surrounding comics, it seems timely to examine how we might think about the multiple ways in which comics are read and consumed. Graphic

Encounters moves beyond seeing the reading of comics as a debased or simplified word-based literacy. Dale Jacobs argues compellingly that we should consider comics as multimodal texts in which meaning is created through linguistic, visual, audio, gestural, and spatial realms in order to achieve effects and meanings that would not be possible in either a strictly print or strictly visual text. Jacobs advances two key ideas: one, that reading comics involves a complex, multimodal literacy and, two, that by studying how comics are used to sponsor multimodal literacy, we can engage more deeply with the ways students encounter and use these and other multimodal texts. Looking at the history of how comics have been used (by churches, schools, and libraries among others) will help us, as literacy teachers, best use that knowledge within our curricula, even as we act as sponsors ourselves.

Creating Comics as Journalism, Memoir and Nonfiction Randy Duncan, Michael Ray Taylor, David Stoddard, 2015-10-08
This book provides student journalists, artists, designers, creative writers and web producers with the tools and techniques they need to tell nonfiction stories visually and graphically. Weaving together history, theory, and practical advice, seasoned nonfiction comics professors and scholars Randy Duncan, Michael Ray Taylor and David Stoddard present a hands-on approach to teach readers from a range of backgrounds how to develop and create a graphic nonfiction story from start to finish. The book offers guidance on: -how to find stories and make use of appropriate facts and visuals; -nonfiction narrative techniques; -artist's tools and techniques; -print, digital, and multimedia production; -legal and ethical considerations. Interviews with well-known nonfiction comics creators and editors discuss best practices and offer readers inspiration to begin creating their own work, and exercises at the end of each chapter encourage students to hone their skills.
