*Venice* Margaret Plant, 2002-01-01 Margaret Plant presents a wide-ranging cultural history of the city from the fall of the Republic in 1797, until 1997, showing how it has changed and adapted and how perceptions of it have shaped its reality.

*Venice, an Archipelago of Art and Ecologies* Christina Hainzl, Cristina Baldacci, Adrian Praschl-Bichler, 2025-04-17 The archipelago of Venice is often at the centre of socio-ecological discussions due to its uniqueness and ambiguity. It is a world cultural heritage site and, at the same time, a fragile ecosystem, strongly threatened by the climate crisis and overtourism. This volume brings together scholars, artists, museum professionals and curators to show how Venice is a special observatory for addressing the challenges of the future and how the arts can contribute to an ecological transition and cultural regeneration.

*Bibliotheca Lindesiana ...* James Ludovic Lindsay Earl of Crawford, 1910

*The Glory of Venice* Jane Martineau, Andrew Robison, Royal Academy of Arts (Great Britain), National Gallery of Art (U.S.), 1994-01-01 This text examines the whole range of the arts in Venice during the 18th century. It includes paintings, pastels and gouaches, drawings, watercolours, prints, sculpture, furniture and other decorative arts together with essays considering major aspects of the art of the period.

**Antiquarian Literature in the Sixteenth Century** Joan Carbonell Manils, Gerard González Germain, 2024-07-01 During the sixteenth century, antiquarian studies (the study of the material past, comprising modern archaeology, epigraphy, and numismatics) rose in Europe in parallel to the technical development of the printing press. Some humanists continued to prefer the manuscript form to disseminate their findings – as numerous fair copies of sylloges and treatises attest –, but slowly the printed medium grew in popularity, with its obvious advantages but also its many challenges. As antiquarian printed works appeared, the relationship between manuscript and printed sources also became less linear: printed copies of earlier works were annotated to serve as a means of research, and printed works could be copied by hand – partially or even completely. This book explores how antiquarian literature (collections of inscriptions, treatises, letters...) developed throughout the sixteenth century, both in manuscript and in print; how both media interacted with each other, and how these printed antiquarian works were received, as attested by the manuscript annotations left by their early modern owners and

readers.
