Exploring the Next Frontier Matthew Wilhelm Kapell, 2016-02-19 The 1960s and early 70s saw the evolution of Frontier Myths even as scholars were renouncing the interpretive value of myths themselves. Works like Joe Haldeman's *The Forever War* exemplified that rejection using his experiences during the Vietnam War to illustrate the problematic consequences of simple mythic idealism. Simultaneously, Americans were playing with expanded and revised versions of familiar Frontier Myths, though in a contemporary context, through NASA's lunar missions, *Star Trek*, and Gerard K. O'Neill's *High Frontier*. This book examines the reasons behind the exclusion of Frontier Myths to the periphery of scholarly discourse, and endeavors to build a new model for understanding their enduring significance. This model connects NASA's failed attempts to recycle earlier myths, wholesale, to *Star Trek*'s revision of those myths and rejection of the idea of a frontier paradise, to O'Neill's desire to realize such a paradise in Earth's orbit. This new synthesis defies the negative connotations of Frontier Myths during the 1960s and 70s and attempts to resuscitate them for relevance in the modern academic context.

Four Books, One Latino Life Ignacio F. Rodeño Iturriaga,2021-02-19 Acclaimed by many as one of the most gifted essayists and stylists in American letters these last few decades, Richard Rodriguez has left an indelible imprint on the tradition of autobiographical writing of the nation. Rodeño's study of the four installments of Rodriguez's self-writing offers an insightful and perspicacious analysis of the evolution and the most controversial elements in this Chicano writer's production so far. Delving deeply into issues of racial and ethnic identity, sexual orientation, religious background, various types of hybridity, and different forms of socio-cultural adaptation, this book presents all kinds of incisive observations about the contested space(s) that "minority" self-writers are often pushed to occupy in the American tradition of the genre.
