

Beyond The God Sea

Michael Phillips

Beyond the God Sea Elora Morgan, 2020-07-17 No man may touch Zaria. Not even her own father. Envy of the other girls, Zaria was born for the sea. Nobody questions her fate as the chosen braenese to marry Keroe, God of the Sea -- least of all her. And even if she did, she has no choice. When Zaria's wedding day finally arrives, she'll become the only islander of her generation permitted to cross into the God Sea. There's nothing more she could possibly want. Until a curious boy washes up on her palm-fringed paradise and Zaria defies sacred law to hide the unconscious stranger. There are only two possibilities with his strange (and strangely handsome) face: he's either a village anomaly or the Sea God himself, in disguise. The alluring boy-creature couldn't have come from anywhere else, because there is no other land in all the ocean. But when the scoundrel awakens, he has the gall to ambush Zaria. As three pageants leading up to her wedding turn unexpectedly deadly, and the enigma of its true purpose looms, Zaria is torn between her long-desired fate as Sea Queen and the infuriating boy who tells her that everything her people know is a lie. ***** Please be advised: In this dystopian series the protagonist grows in a manner similar to characters such as Sansa Stark. She begins as sheltered/ and does not become a strategist until Book II when the story darkens and matures. There is no spice/adult content until Book III. Book I is Mid-Range YA. Book II is Dark/Mature YA better suited to older teen readers. Book III is New Adult and contains mature content. **Winner of Independent Book Review's The Best Books We Read This Year (2021)**

Beyond the Impasse Ronald L. Farmer, 1997 Contemporary biblical scholarship has reached an impasse. The various programs for bridging the gap between the ancient texts and their contemporary theological and ethical appropriation are often unsatisfactory at best and at worst even suspect in their results. We need an effective way to cross the bridge ... or a new bridge. Ronald Farmer suggests that a process hermeneutic holds promise of moving biblical interpretation beyond the current impasse. This is the first comprehensive introduction to a process hermeneutic. It is not, however, merely theoretical discussion, but moves from the side of biblical scholarship to develop a solid methodology for bridging the gap between text and life. Farmer applies his process hermeneutic to a difficult text Revelation 4-5 - and demonstrates this promising method in a piece of solid, responsible, and instructive interpretation.

The Beyond Trilogy Michael Phillips, 2018-07-01 All three novels in the devotional author's Christian fantasy saga inspired by the works of George MacDonald and C.S. Lewis. *The Garden at the Edge of Beyond* When a middle-aged man embarks on an enlightening and dreamlike theological journey, he awakens to a new reality—with a profound new outlook on life. *Heaven and Beyond* When a tragedy ends a man's mortal life, his journey through eternity begins. Traveling across the realms of heaven and earth, his notions of each are turned upside down. *Hell and Beyond* A prominent atheist dies unexpectedly and goes to hell. Or so it appears . . . but nothing is what it seems in this engrossing allegorical novel about the afterlife.

Beyond 2012: Catastrophe or Awakening? Geoff Stray, 2009-05-21 An illustrated, encyclopedic overview of the prophecies, calendars, and theories that indicate the year 2012 is a threshold of great change for humanity • Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 • Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar's Great Cycle will come to an end. Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed. What is certain, however, is that a rare galactic alignment will occur, one so unique that it is found at the core of many wisdom traditions from around the globe. Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982. Far from confining his research to the Maya, who provide the most prominent predictions indicating this date will herald significant changes for humanity, he has studied the prophetic traditions of other cultures—including the Tibetan, Chinese, Jewish, Ethiopian, and tribal cultures from around the globe—to show the kind of convergence of cosmic purposes happening along a number of parallel tracks. This book offers an extensive study of many modern theories, including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles. Sifting

through all the scientific research and speculation that the year 2012 has inspired, Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date.

BEYOND GODS AND SCRIPTURES Joseph Mani,2018-05-07 Religion has been the biggest divisive force in history. This book examines the irrational and harmful beliefs of religious people, which lead to religion becoming a destructive force. Religion can be and has been a force for good too. What are the aspects of religion that make it meaningful? Does God exist? The book details the scientific and philosophical arguments adduced for God's existence and how valid they are. In the last section, we look at five luminaries of science who either had close encounters with religious establishments or had strong views on religion and God. We look at the lives of Copernicus, Galileo, Newton, Einstein and Hawking, not so much as scientists, but as human beings with their own kinks and idiosyncrasies. The author brings to this book his extensive knowledge of physics, philosophy, religion and the behavioural sciences.

The World Beyond John Doughty,1883

The Cosmic Spirit Roland Faber,2021-03-04 Are we more than stardust? Is the appearance of the fragile Earth in the vast universe more than an accident? Are we not children of a Spirit that pervades the dust, rejuvenates life, and embraces the ever-evolving universe? Is there a cosmic Spirit that wants us to awaken to a consciousness of universal meaning, sacred purpose, and mutual friendship with all beings? This book answers these questions with a spirituality of the numinous in our relation to the elements of the Earth in the matrix of the multiverse by taking you on a journey through nine paths and nineteen meditations of awakening. Not bound by any religion, but in deep appreciation of the religious and spiritual heritage of human encounters with the divine depth of existence in our selves and in nature, they invite you to become sojourners by engaging the most profound embodiments of the intangible Spirit by which it facilitates its own materialization in the cosmos and our spiritualization of the cosmos. Use—says this Spirit—the stardust that you are to become a spirit-faring species in an eternal journey of the cosmos to realize its ultimate motive of existence—the attraction of love!
