The Wounded Hero Tamara Neal,2006 This book is an investigation of non-fatal injury and bloodspill in Homer's Iliad and demonstrates the crucial significance of these motifs in the epic. They are shown to be fundamental to defining heroic status and a powerful means for developing the narrative and thematic structures of the poem. The study offers a nuanced definition of the nature of mortality and immortality and shows how the motifs of injury and bloodspill explicate the plot of the poem and its ethical values. This work is the first to examine these motifs in a systematic and comprehensive investigation. Focusing exclusively on the Iliad, the book sheds new light on ideals of heroic conduct.

*Medieval Welsh Medical Texts* Diana Luft,2020-06-01 Introduction giving full explanation of the nature of the corpus and the historical context. This will allow readers to understand the nature of the texts, and to make inferences about how the medical texts which follow might have been used. Notes giving sources and analogues for the recipes in other contemporary

European languages (Latin, Middle English, Anglo-Norman). These will allow readers to understand the common theories underlying the recipes and to make judgements about the place of this material within the larger European medical tradition of the time. Comprehensive glossaries. These will allow readers to find any recipe based on the ingredients used in it, or the condition treated, allowing them to compare with recipes in other sources themselves, from other time periods, or investigate the corpus of the way different ingredients were used. Comprehensive plant-name glossary giving evidence for the interpretation of the plant names in the corpus from a series of previously unstudied pre-modern plant-name glossaries. This will allow readers to evaluate the evidence for the interpretation of the plant names and hopefully spur on further research on this neglected topic.
