Not All Black Girls Know How to Eat Stephanie Covington Armstrong, 2009-08 Stephanie Covington Armstrong does not fit the stereotype of a woman with an eating disorder. She grew up poor and hungry in the inner city. Foster care, sexual abuse, and overwhelming insecurity defined her early years. But the biggest difference is her race: Stephanie is black. In this moving first-person narrative, Armstrong describes her struggle as a black woman with a disorder consistently portrayed as a white woman's problem. Trying to escape her selfhatred and her food obsession by never slowing down, Stephanie becomes trapped in a downward spiral. Finally, she can no longer deny that she will die if she doesn't get help, overcome her shame, and conquer her addiction to using food as a weapon against herself. Misplaced: How To Survive Being A Gay, Lesbian or Bisexual Teen Misplaced Master, 2013-05-15 Being a bisexual, gay or lesbian teen can be hell if you just sit back and pretend to be normal. I don't mean that you have to come out of the closet and flaunt it to be happy, just that whether you choose to come out or not you can still successfully make a play for people you want to be with as long as you use tact and common sense. I hope to have you learn from my successes and failures, as well as those of my readers. Whatever you do, DO NOT GIVE UP! Never think about surrendering your life for anything or because of anyone. This book is all about how me and my friends managed to link up with others like us, or those we hoped were like us, and how you can use these timeless and modern examples to do the same or avoid some of the problems that we encountered along the way. It can apply to people of all ages, but is primarily for teenagers who are thirteen to eighteen years of age.

The Soft City Terry Williams, 2022-04-13 There is no rawer human experience than sex, and in a city as diverse as New York, sexual experiences come in many forms. In the pre-Giuliani days, temptation flooded Times Square on theater marquees and neon signs. Behind unmarked doors downtown, more adventurous experiences awaited for those in the know. In *The Soft City*, the ethnographer Terry Williams, with the help of accomplices and informants, ventures deep into the underground world of sex in New York. The book explores different aspects of the “perverse space” of the city: porn theaters, sex shops, peep shows, restroom cruising, sadomasochism clubs, swingers’ events, and many more. Featuring field notes

taken between 1975 and the present, *The Soft City* documents the ways that New Yorkers on the social periphery have thought about and pursued sex, whether for recreation or to make a living. It also presents an unconventional account of New York City's many transformations, showing how the soft city—its people and their unique character—evolved in response to official and social pressures. Featuring Williams's unmistakable portraits of the demimonde as well as the accounts of other ethnographers challenging themselves to dive into the city's hidden crannies, *The Soft City* is as irreproducible as it is provocative.

How to Read the Prophets: Isaiah (i. -xxxix.). 3d ed Buchanan Blake, 1892

“That’s how we do it...we treat them all the same” Fiona Cowdell, 2014-09-01 The prevalence of dementia is increasing rapidly as the population ages and there is a steady rise in people with dementia being admitted to acute hospitals. Media coverage of the care received by people with dementia in acute hospitals is almost wholly negative. The purpose of this book is to provide a detailed description of what the experience, both positive and negative, is really like from the perspectives of patients, lay carers, and health and social care staff, and to propose a model for improving care. The book comprises four elements. A literature review sets person-focused research in the context of dementia research as a whole. Research illuminates the experiences of acute hospital care for people with dementia through ethnographic description and narratives. To improve practice, a development model that engages staff on a cognitive and emotional level based on the philosophies of confluent education and situated learning is explained. Finally, the strands are drawn together to demonstrate that people with dementia, even those at an advanced stage and with superimposed physical illness, can be engaged in research that is both ethical and meaningful. Improvements in practice are possible and they need to be underpinned by a belief in the personhood of staff as well as that of patients. Areas for further research and practice development in this vital subject are identified.

Daughters of the Occupation Shelly Sanders, 2022-05-03 Inspired by true events in World War II Latvia, an emotionally charged novel of sacrifice, trauma, resilience, and survival, as witnessed by three generations of women. On one extraordinary day in 1940, Miriam Talan's comfortable life is shattered. While she gives birth to her second child, a son she and her husband, Max, name Monya, the Soviets invade the Baltic state of Latvia and occupy the capital city of Riga, her home. Because the Talans are Jewish, the Soviets confiscate Max's business and the family's house and bank accounts, leaving them with nothing. Then, the Nazis arrive. They kill Max and begin to round up Jews. Fearing for her newborn son and her young daughter, Ilana, Miriam asks her loyal housekeeper to hide them and conceal their Jewish roots to keep them

safe until the savagery ends. Three decades later, in Chicago, 24-year-old Sarah Byrne is mourning the untimely death of her mother, Ilana. Sarah's estranged grandmother, Miriam, attends the funeral, opening the door to shocking family secrets. Sarah probes Miriam for information about the past, but it is only when Miriam is in the hospital, delirious with fever, that she begs Sarah to find the son she left behind in Latvia. Traveling to the Soviet satellite state, Sarah begins her search with the help of Roger, a charismatic Russian-speaking professor. But as they come closer to the truth, she realizes her quest may have disastrous consequences. A magnificent, emotionally powerful story of family and the lingering devastation of war, *The Daughters of the Occupation* explores how trauma is passed down in families and illuminates the strength and grace that can be shared by generations.

Everybody's Pepys Samuel Pepys,1926 Samuel Pepys' FRS, MP, JP, (pron.: /pi?ps/;[1] 23 February 1633? 26 May 1703) was an English naval administrator and Member of Parliament who is now most famous for the diary he kept for a decade while still a relatively young man. Although Pepys had no maritime experience, he rose by patronage, hard work and his talent for administration, to be the Chief Secretary to the Admiralty under both King Charles II and subsequently King James II. His influence and reforms at the Admiralty were important in the early professionalisation of the Royal Navy.[2] The detailed private diary Pepys kept from 1660 until 1669 was first published in the 19th century, and is one of the most important primary sources for the English Restoration period. It provides a combination of personal revelation and eyewitness accounts of great events, such as the Great Plague of London, the Second Dutch War and the Great Fire of London.--Wikipedia.
