Spanish Women Authors of Serial Crime Fiction Inmaculada Pertusa-Seva, Melissa A. Stewart, 2020-09-23 With its focus on recent detective series featuring female investigators, this collection analyzes the authors' treatment of current social, political and economic problems in Spain and beyond, in addition to exploring interrelations between gender, globalization, the environment and technology. The contributions here reveal the varied ways in which the use of a series allows for a deeper consideration of such issues, in addition to permitting the more extensive development of the protagonist investigator and her reactions to, and methods of, dealing with personal and professional challenges of the twenty-first century. In these stories, the authors employ strategies that break with long-standing conventions, developing crime fiction in unexpected ways, incorporating elements of science fiction, the supernatural, and the historical novel, as well as varied geographical settings (small towns, provincial cities, and rural communities) beyond the urban environment, all of which contributes to the reinvigoration of the genre.

Crime Scene Spain Renée W. Craig-Odders, Jacky Collins, 2014-01-10 This essay collection examines the changing cultural, political and physical landscape of Spain as represented in Spanish crime fiction of the last three decades. The first several essays focus on crime fiction set in Barcelona and look at, among other topics, the symbiotic relationship between the city and the detective in Francisco Gonzalez Ledesma's long-running Inspector Mendez series, Manuel Vazquez Montalban's treatments of the 1992 Summer Olympic Games, and place and identity in Alicia Gimenez-Bartlett's Petra Delicado series. Other essays examine regional and cultural illiteracy in Jorge Martinez Reverte's Galvez series and Spain's changing urban centers as represented in Andreu Martin's El blues de la semana mas negra.

Crime and Punishment in Latin America Ricardo D. Salvatore, Carlos Aguirre, Gilbert M. Joseph, 2001-09-20 Essays in collection argue that Latin American legal institutions were both mechanisms of social control and unique arenas for ordinary people to contest government policies and resist exploitation.

Resisting Invisibility Diana Aramburu, 2019-05-09 Engaging with pre-feminist and male-authored crime literature, *Resisting Invisibility* offers a comparative reading of women's bodies as represented in Spanish crime literature from the

mid-nineteenth century to the present. Utilizing the twin concepts of visibility and invisibility, the book establishes a genealogy of differing viewpoints regarding women's positions in these narratives, before and after the birth of the modern Spanish female detective. This examination of the politics of female visibility expands our understanding of the aesthetic regimes that have governed the female body from the early phases of the genre's evolution. While most scholars understand the feminization of the crime genre as a response to second-wave feminism, *Resisting Invisibility* demonstrates that even in the earliest representations of delinquent women, the politics surrounding the female body are problematized and are more complex than previously conceptualized. Drawing on gender and queer studies, *Resisting Invisibility* investigates the gendering of crime fiction, forcing us to reconsider the literary history of female visibility and prompting us to establish an alternative genealogy for Spanish crime literature.

Otherness in Hispanic Culture Teresa Fernandez Ulloa,2014-06-26 This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th, 20th and 21st centuries, and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America. The majority of the chapters are concerned with 'otherness' in its various dimensions; the alien Other - foreign, immigrant, ethnically different, disempowered, female or minor - as well as the Other of different sexual orientation and/or ideology. Following Octavio Paz, otherness is expressed as the attempt to find the lost object of desire, the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus, who in his wrath, tore off from him. Otherness compels human beings to search for the complement from which they were severed. Thus a male joins a female, his other half, the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection, formerly altered by divine will. As a result of this transformation, one can annul the distance that keeps us away from that which, not being our own, turns into a source of anguish. The clashing diversity of all things requires the human predisposition to accept that which is different. Such a predisposition is an expression of epistemological, ethical and political

aperture. The disposition to co-exist with the different is imagined in the de-anthropocentricization of the bonds with all living realms. And otherness is, in some way, the reflection of sameness (mismidad). The other is closely related to the self, because the vision of the other implies a reflection about the self; it implies, consciously or not, a relationship with the self. These topics are addressed in this book from an interdisciplinary perspective, encompassing arts, humanities and social sciences.
