The Wisdom Category Ingo Swann,2018-09-02 THE REALITY OF INNATE HUMAN WISDOM-MAKING In this sensitive work, Ingo Swann once more opens up the continuing story of the fuller extent of human consciousness, which, by many accounts, is amazing and intriguing. These accounts are found in all cultures ranging from ancient to contemporary, and the sum of them more than suggests that humans plus their innate consciousness are designed for a much richer and astonishing existence than what most societal programs encourage or permit. The nexus, or connected group, of the discussions in this book turns on only two interactive questions: Is human consciousness designed for self-destruction? OR Is it designed to continuously sustain its own pro-survival into futurity? There are many categories within human consciousness that work to sustain pro-survival. But all of them can be affiliated with one central heading: WISDOM, without which our species could not have survived anything, even itself.

Taming Your Private Thoughts Jay Dennis, Marilyn Jeffcoat,2004-12-14 Using James 1:14-16 as a platform for showing the danger of wrong thinking progressing to sin, this book uses biblical models, historical figures, and real-life case studies to encourage and equip believers for the ongoing battle against sinful thinking and runaway thoughts.

Raising LGBTQ Allies Chris Tompkins,2021-05-14 “[A] powerful treatise on creating a more accepting world.” — Publishers Weekly, Starred Review Creating LGBTQ allies happens one child at a time. And it begins with each of us. Raising LGBTQ Allies sheds light on the deeper, multi-faceted layers of homophobia. It opens up a conversation with parents around the possibility they may have an LGBTQ child and shows how heteronormativity can be harmful if not addressed clearly and early. Although not every parent will have an LGBTQ child, their child will jump rope or play tag with a child who is LGBTQ. By showing readers the importance of having open and authentic conversations with children at a young age, Chris Tompkins walks parents through the many ways they can prevent new generations from adopting homophobic and transphobic beliefs, while helping them explore their own subconscious biases. Offering specific actions that parents, family members, and caregivers can take to help navigate conversations, address heteronormativity, and challenge societal beliefs, Raising LGBTQ Allies serves as a guide to help normalize being LGBTQ from a young age. Creating allies and a world where closets don’t exist happens one child at a time—and it begins with each of us and what we say, as much as what we choose not to say.
