## Cormac McCarthy

**No Country for Old Men** Cormac McCarthy, 2007-11-29 From the bestselling author of *The Passenger* and the Pulitzer Prize-winning novel *The Road* comes a profoundly disturbing and gorgeously rendered novel (*The Washington Post*) that returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. *No Country for Old Men* is a triumph.

**No Country for Old Men** Lynnea Chapman King, Rick Wallach, Jim Welsh, 2009-08-03 In 2005, Cormac McCarthy's novel, *No Country for Old Men*, was published to wide acclaim, and in 2007, Ethan and Joel Coen brought their adaptation of McCarthy's novel to the screen. The film earned praise from critics worldwide and was honored with four Academy Awards', including Best Picture, Best Director, and Best Adapted Screenplay. In *No Country for Old Men: From Novel to Film*, scholars offer varied approaches to both the novel and the award-winning film. Beginning with several essays dedicated entirely to the novel and its place within the McCarthy canon, the anthology offers subsequent essays focusing on the film, the adaptation process, and the Coen Brothers more broadly. The book also features an interview with the Coen brothers' long-time cinematographer Roger Deakins. This entertaining and enriching book for readers interested in the Coen Brothers' films and in McCarthy's fiction is an important contribution to both literature and film studies.

**No Country for Old Men** Paddy Lyons, 2008 The concepts of Ireland and 'Irishness' are in constant flux in the wake of an ever-increasing reappraisal of the notion of cultural and national specificity in a world assailed from all angles by the forces of globalisation and uniformity. Reimagining Ireland interrogates Ireland's past and present and suggests possibilities for the future by looking at Ireland's literature, culture and history and subjecting them to the most up-to-date critical appraisals associated with sociology, literary theory, historiography, political science and theology.

*McCarthy and the Coens: The Novel versus the Film No Country for Old Men: The Moral Framework of the Novel and the Film* Inese Vicaka, 2014-02-01 This book offers an original perspective on the narrative in the film and the novel *No Country for Old Men*, it also gives a good account on the issue of fidelity that plays an important role in the analysis of the relationship between the film adaptation and its source text, observing whether the Coens have not eradicated the novel's complex and allegorical essence. The narrative analysis in the book as well involves an observation of the narrator's point-of-view and its reliability. Besides, the book undeniably proves that the relation of narrative time and narrative space is vital in the comparison of the film adaptation and its source text. The contents of the book may serve as a valuable source for aspiring students and researchers in the area of literary and film studies.

**No Place for Home** Jay Ellis, 2013-11-05 This book was written to venture beyond interpretations of Cormac McCarthy's

characters as simple, antinomian, and non-psychological; and of his landscapes as unrelated to the violent arcs of often orphaned and always emotionally isolated and socially detached characters. As McCarthy usually eschews direct indications of psychology, his landscapes allow us to infer much about their motivations. The relationship of ambivalent nostalgia for domesticity to McCarthy's descriptions of space remains relatively unexamined at book length, and through less theoretical application than close reading. By including McCarthy's latest book, this study offer the only complete study of all nine novels. Within McCarthy studies, this book extends and complicates a growing interest in space and domesticity in his work. The author combines a high regard for McCarthy's stylistic prowess with a provocative reading of how his own psychological habits around gender issues and family relations power books that only appear to be stories of masculine heroics, expressions of misogynistic fear, or antinomian rejections of civilized life.

**Religion in Cormac McCarthy's Fiction** Manuel Broncano,2013-11-20 This book addresses the religious scope of Cormac McCarthy's fiction, one of the most controversial issues in studies of his work. Current criticism is divided between those who find a theological dimension in his works, and those who reject such an approach on the grounds that the nihilist discourse characteristic of his narrative is incompatible with any religious message. McCarthy's tendencies toward religious themes have become increasingly more acute, revealing that McCarthy has adopted the biblical language and rhetoric to compose an apocryphal narrative of the American Southwest while exploring the human innate tendency to evil in the line of Herman Melville and William Faulkner, both literary progenitors of the writer. Broncano argues that this apocryphal narrative is written against the background of the Bible, a peculiar Pentateuch in which *Blood Meridian* functions as the Book of Genesis, the Border Trilogy functions as the Gospels, and *No Country for Old Men* as the Book of Revelation, while *The Road* is the post-apocalyptic sequel. This book analyzes the novels included in what Broncano defines as the South-Western cycle (from *Blood Meridian* to *The Road*) in search of the religious foundations that support the narrative architecture of the texts.

Cormac McCarthy's "No Country for Old Men": Narrative Elements in Film and Novel Inese Romanova,2013-07-24 Master's Thesis from the year 2013 in the subject American Studies - Literature, grade: 10, , course: Literature Science, language: English, abstract: The present master thesis, 'Cormac McCarthy's No Country for Old Men - Narrative Elements in Film and Novel', focuses on the comparison of the narrative in the adapted film No Country for Old Men and the literary narrative in the source text by Cormac McCarthy bearing the same title. Its purpose is to demonstrate various distinctions and similarities of both texts and to prove that the film significantly differs in inventiveness and the style of rendering the story. The theoretical part explains the concepts of narrative, time and space, Bakhtin's chronotope, narrative perspective,

focalization and the western genre that are essential elements in the analysis of the relationship between the film and the literary fiction narratives. The results confirm the hypothesis of the thesis and demonstrate that the film narrative significantly differs in inventiveness and style the story is rendered, which also plays an important role in the fates of the characters in both stories.
