**Japan's Green Monsters** Sean Rhoads, Brooke McCorkle, 2018-02-12 In 1954, a massive irradiated dinosaur emerged from Tokyo Bay and rained death and destruction on the Japanese capital. Since then Godzilla and other monsters, such as Mothra and Gamera, have gained cult status around the world. This book provides a new interpretation of these monsters, or kaiju-ū, and their respective movies. Analyzing Japanese history, society and film, the authors show the ways in which this monster cinema take on environmental and ecological issues--from nuclear power and industrial pollution to biodiversity and climate change.

The Weird World of Eerie Publications Mike Howlett, 2010-11-30 Eerie Publications' horror magazines brought blood and bad taste to America's newsstands from 1965 through 1975. Ultra-gory covers and bottom-of-the-barrel production values lent an air of danger to every issue, daring you to look at (and purchase) them. The Weird of World of Eerie Publications introduces the reader to Myron Fass, the gun-toting megalomaniac publisher who, with tyranny and glee, made a career of fishing pocketbook change from young readers with the most insidious sort of exploitation. You'll also meet Carl Burgos, who, as editor of Eerie Publications, ground his axe against the entire comics industry. Slumming comic art greats and unknown hacks were both employed by Eerie to plagiarize the more inspired work of pre-Code comic art of the 1950s. Somehow these lowbrow abominations influenced a generation of artists who proudly blame career choices (and mental problems) on Eerie Publications. One of them, Stephen R. Bissette (Swamp Thing, Taboo, Tyrant), provides the introduction for this volume. Here's the sordid background behind this mysterious comics publisher, featuring astonishingly red reproductions of many covers and the most spectacularly creepy art.

*Manga and Anime Go to Hollywood* Northrop Davis, 2015-12-17 The media industries in the United States and Japan are similar in much the same way animals on earth share a similar DNA, but while a horse and a kangaroo maybe 95% related on a biological level, they are also very different - this is the way it is with manga/anime in Japan and Hollywood animation/movies/TV. Although sharing some key common origins, they developed mostly separately but influenced each other significantly along the way. That confluence is now accelerating into new forms of hybridization that will drive much of future storytelling entertainment. Understanding these common and divergent DNA origins, the cross-influences and the independent traits is one of many reasons why this book is so important. Through original interviews with top creators in

these fields and illuminating case studies including adaptations of Japanese mangas and animes for Hollywood remakes, *Manga and Anime go to Hollywood* analyzes the specific dynamics of this confluence between Japanese manga/anime and American film, animation and television. In addition, it shows how to use this knowledge creatively to shape the future of global narrative storytelling, including through the educational system. It is a fascinating to any reader with an interest in the inter-related history of Japanese manga/anime and Hollywood since the Meiji period through WW2, what is happening on the cutting edge right now - and into the future.

**Hosted Horror on Television** Bruce Markusen, 2021-07-27 In October 1957, Screen Gems made numerous horror movies available to local television stations around the country as part of a package of films called Shock Theater. These movies became a huge sensation with TV viewers, as did the horror hosts who introduced the films and offered insight--often humorous--into the plots, the actors, and the directors. This history of hosted horror walks readers through the best TV horror films, beginning with the 1930s black-and-white classics from Universal Studios and ending with the grislier color films of the early 1970s. It also covers and explores the horror hosts who presented them, some of whom faded into obscurity while others became iconic within the genre.

**The Theatre of Genocide** Robert Skloot, 2008-01-09 In this pioneering volume, Robert Skloot brings together four plays—three of which are published here for the first time—that fearlessly explore the face of modern genocide. The scripts deal with the destruction of four targeted populations: Armenians in Lorne Shirinian's *Exile in the Cradle*, Cambodians in Catherine Filloux's *Silence of God*, Bosnian Muslims in Kitty Felde's *A Patch of Earth*, and Rwandan Tutsis in Erik Ehn's *Maria Kizito*. Taken together, these four plays erase the boundaries of theatrical realism to present stories that probe the actions of the perpetrators and the suffering of their victims. A major artistic contribution to the study of the history and effects of genocide, this collection carries on the important journey toward understanding the terror and trauma to which the modern world has so often been witness.
