Summary of Power vs. Force by David R. Hawkins: The Hidden Determinants of Human Behavior thomas francis, 2024-03-08 *Power vs. Force* by David R. Hawkins is a seminal work that delves into the nuances of human consciousness, power dynamics, and the transformative potential inherent in understanding and leveraging the forces that shape human behavior and societal norms. The book is grounded in the premise that there are distinct levels of consciousness accessible to humans, and these levels can profoundly influence our interactions, perceptions, and the world at large. The book introduces a hierarchy of consciousness, proposing a scale that ranges from the lowest forms of consciousness, characterized by negative emotions and destructive behaviors, to the highest forms, marked by positive emotions, life-affirming behaviors, and enlightenment. At the core of Hawkins's argument is the distinction between power

and force. Power is described as a constructive, life-affirming force associated with love, peace, and a deep understanding of the interconnectedness of all beings. In contrast, force is seen as destructive, rooted in fear, and ultimately ineffective in achieving lasting change or fulfillment. Hawkins's research into the field of behavioral kinesiology provides the methodological backbone for his assertions.

Power Versus Force David R. Hawkins, 1994-11-01 Outlines the psychological discipline of applied kinesiology, exploring its implications for personal awareness, healing, success, spirituality, and social transformation.

"I consider myself a student of David Hawkins and return to his books and work time and time again. His wisdom deeply resonates with my lived experiences; he is often able to beautifully articulate what I cannot put into words." – Vex King *The Eye of the I* (which calibrates at 950) is more advanced than *Power vs. Force* (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. This is the second volume of a trilogy that began with *Power vs. Force* and came before the third volume entitled *I: Reality and Subjectivity*. The intrinsic power of the information in this classic will elevate the consciousness of the reader. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. *The Eye of the I* dissolves the barriers between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one's true identity. With a blend of metaphysics, meditation, and motivational wisdom, this book is your key to unlocking an elevated consciousness and achieving personal transformation.
