**Women in the American Political System** Dianne G. Bystrom, Barbara Burrell, 2018-12-01 This book examines how women candidates, voters, and office holders shape U.S. political processes and institutions, lending their perspectives to gradually evolve American life and values. This book provides an encyclopedic sourcebook on the evolution of women's involvement in American politics from the colonial era to the present, covering all of the individuals, organizations, cultural forces, political issues, and legal decisions that have collectively served to elevate the role of women at the ballot box, on the campaign trail, in Washington, and in state- and city-level political offices across the country. The in-depth essays document and examine the rising prominence of women as voters, candidates, public officials, and lawmakers, enabling readers to understand how U.S. political processes and institutions have been—and will continue to be—shaped by women and their perspectives on American life and values. The entries cover a range of women politicians and officials; female activists and media figures; relevant organizations and interest groups, such as Emily's List, League of Women Voters, and National Right to Life; key laws, court cases, and events, such as the Nineteenth Amendment, the Equal Rights Amendment, the Seneca Falls Convention, the passage of Title IX, and Roe v. Wade; and other topics, like media coverage of appearance, women's roles as campaign strategists/fundraisers, gender differences in policy priorities, and the gender gap in political ambitions. The text is supplemented by sidebars that highlight selected landmarks in women's political history in the United States, such as the 2012 election of Tammy Baldwin, the first openly gay U.S. senator.

*Brzezinski and Maddow on American Power* Christopher King, 2013-10-07 Literature Review from the year 2012 in the subject Politics - Region: USA, grade: 1,0, Indiana University (Department of Political Science), course: United States Foreign Policy, language: English, abstract: The future of America's position in the world is a hotly debated topic and this paper will review two books on American power and military capability. Zbigniew Brzezinski observes in "Strategic Vision" that a shift in world power occurs and so has to change the strategy of the USA. He assesses different liabilities and assets that need to be considered in dealing with these changes. Rachel Maddow however has a different emphasis in "Drift" and is concerned about the development of perpetual American war and the responsible but unchecked executive branch. In the following will be argued that while other nations may rise, the USA can still sustain its position of power, if it considers the research of

Brzezinski and Maddow to be of relevance. Reforms at home and readiness to transition into a world shared with nations that rise or come back to their old greatness will be needed to use America's power and resources in the future more wisely. America will continue to be a world power if it avoids mistakes it makes right now at home and embraces the new realities of the world.

**Crashing the Tea Party** Paul Street,Anthony R. Dimaggio,2015-12-03 The Tea Party has been the most high profile and controversial social movement in the US of recent times. But real analysis of the Tea Party remains slim - is it a genuine social movement or a topdown interest group created by the Republican Party and corporate funding? Crashing the Tea Party is based on first-hand observation of local Tea Party chapters, and undertakes a critical journalistic and scholarly examination from the national and local level. Paul Street and Anthony DiMaggio provide a carefully documented account which challenges conventional wisdoms. Crashing the Tea Party fills the gap in public understanding about this particular social movement, and how social movements in general relate today to the ideologies of left and right and the mass media.
