Squadron Leader (DR) Pravin Bhatia

Creative Reading Squadron Leader (DR) Pravin Bhatia, 2017-04-28 We are slowly losing the art and the science of creative reading. We must learn how to use what we have read. In *Creative Reading*, author Dr. Pravin Bhatia offers a dialogue about creative reading and how to make reading inspired and intelligent. Bhatia shows how reading without reflecting is like eating without digesting and suggests we read too much and too randomly to be truly wise. That is why the multitude of books is making us ignorant. The truth is, most of us read poorly and without knowing why we are reading. With a focus on God and the scriptures, Bhatia maintains that reading should improve our lives. *Creative Reading* discusses the importance of creativity and intelligence. Creativity involves use of imagination and good ideas, which should be repeatedly employed to choose what we read. Bhatia shares how the books we read should serve our purpose. Reading must excite us to self-activity. It should help us to upgrade our minds and character.

The Worst Enemy of Science? Paul Feyerabend, 2000 This stimulating collection is devoted to the life and work of the most flamboyant of twentieth-century philosophers, Paul Feyerabend. Feyerabend's radical epistemological claims, and his stunning argument that there is no such thing as scientific method, were highly influential during his life and have only gained attention since his death in 1994. The essays that make up this volume, written by some of today's most respected philosophers of science, many of whom knew Feyerabend as students and colleagues, cover the diverse themes in his extensive body of work and present a personal account of this fascinating thinker.

I Am So Bored!, 2016-09-13 A little bear is bored and has no idea what to do with himself. He tries to find a friend to play with him, but no one is around or available yet. Dejected, the little bear lays down on the ground with nothing to do but to stare at the sky or the grass. How boring! Slowly, though, as he sits still, the world begins to come alive around him and his senses are awakened. The grass and the forest around him and the sky above him seem like a very different place and the bear finds himself full of curiosity. He sees things he hasn't seen before like the shapes in the clouds and feels things he hasn't felt before like the vibration of a bird's wings. *I Am So Bored!* is a book about imagination, slowing down the pace of

life, and the power of all five senses. Take a journey with the little bear as he realizes the beauty of life that exists in the world around him. The perfect story to help little ones wind down and to take a break from screen time. Remember: boredom can sometimes be the best way to have fun. Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

How I Gave Up My Low-Fat Diet and Lost 40 Pounds..and How You Can Too Dana Carpender,2003-07-01 *How I Gave Up My Low Fat Diet and Lost Forty Pounds!* is a breezy, chatty, non-technical, fun-to-read explanation of low carbohydrate dieting -- why it works, the surprising health benefits, and most importantly, how to do the diet. Or, rather, diets,since the book details three very different main approaches to controlling carbohydrates (including the Basic Low Carb Diet, similar to Atkins or Protein Power, and the Mini-Binge Diet, popularized as The Carbohydrate Addict's Diet), plus several variations, finally summing up the basic principles which tie them all together. The point is to give the reader the tools necessary to construct a new way of eating that will fit his or her body, psyche, and lifestyle, thus allowing them to stay slim, energetic, and healthy for life.
