The Sun Is Also a Star Nicola Yoon, 2024-04-02 The #1 New York Times bestseller and National Book Award finalist from the bestselling author of *Everything, Everything*, will have you falling in love with Natasha and Daniel as they fall in love with each other! Natasha: I'm a girl who believes in science and facts. Not fate. Not destiny. Or dreams that will never come true. I'm definitely not the kind of girl who meets a cute boy on a crowded New York City street and falls in love with him. Not when my family is twelve hours away from being deported to Jamaica. Falling in love with him won't be my story. Daniel: I've always been the good son, the good student, living up to my parents' high expectations. Never the poet. Or the dreamer. But when I see her, I forget about all that. Something about Natasha makes me think that fate has something much more extraordinary in store—for both of us. The Universe: Every moment in our lives has brought us to this single moment. A million futures lie before us. Which one will come true? *** Beautifully crafted. --People A book that is very much about the many factors that affect falling in love, as much as it is about the very act itself. . . . Fans of Yoon's first novel, *Everything, Everything*, will find much to love—if not, more—in what is easily an even stronger follow up. —Entertainment Weekly Transcends the limits of YA as a human story about falling in love and seeking out our futures. —POPSUGAR.com

Nature of Science for Social Justice Hagop A. Yacoubian,Lena Hansson,2020-09-08 This edited volume brings closer two contemporary science education research areas: Nature of Science (NOS) and Social Justice (SJ). It starts a dialogue on the characteristics of NOS for SJ with the purpose of advancing the existing discussion and creating new avenues for research. Using a variety of approaches and perspectives, the authors of the different chapters engage in a dialogue on the construct of NOS for SJ, its characteristics, as well as ways of addressing it in science classrooms. Issues addressed are related to why a school science aiming at SJ should address NOS; what NOS-related content, skills and attitudes form the basis when aiming at SJ; and how school science can address NOS for SJ. Through a set of theoretical and empirical chapters, the authors suggest answers, but they also pose new questions on what NOS for SJ can mean, and what issues need to be taken into consideration in future research and practice.
