Vines Brynne Asher, 2017-02-23 In the Virginia countryside outside of Washington, DC, Addy Wentworth was on a mission to make a new life for herself. When the opportunity arose, she settled in horse and wine country. Experiencing more than her fair share of tragedy and loss, she had plans for her future, one where failure wasn't an option. And not just because people and cows were counting on her. She'd poured everything she had into her struggling vineyard, because once she's in, she's all in. After giving himself wholly to the job for ten years, Crew Vega was done. He'd fulfilled his commitment, done his duty, gone above and beyond to settle the score. And the score was high. All he had to do was train his replacements and he'd be out for good. He had a plan, one that didn't include getting involved with his new neighbor, a woman who not only kept cows for pets, but treasured her employees as family, and understood him better than anyone ever had before. But when he learned a high level CIA target being investigated for treason was keeping tabs on her? No, he never planned on that. And like everything Crew Vega did in life, when he goes in, he's all in. Warning: I'm a devout member of the mama club and don't want to get kicked out by angry mamas. If you aren't eighteen, turn around, go drink your milk and eat your veggies, it's good for your bones. And go to bed early, you're still growing, your body needs sleep. And don't text and drive. And be nice, sit with the kid who sits alone at lunch. And read a PG-13 book, it's good for your brain. And go tell your mama you love her. Chop-chop, run along now. I'll see you back when you're eligible to vote.

Gifts Brynne Asher, 2017-10-26 No one would say Keelie Lockhart isn't determined. Taking on the role of both mom and dad to her two young kids, she's managing life the best she can. Saddled with a century-old dilapidated farmhouse she can't afford, a bevy of goats, two dogs, and a geriatric donkey, the last thing she has time for is a man—even if that man is a knight whose shining armor comes in the form of worn-in jeans and work boots. Controlled, methodical, and focused—Asa Hollingsworth takes charge of everything in life. Working close to home after years away, he finally has the time to focus on his kids. Little does he know, a chance meeting with a petite, strawberry-blond stranded on the side of the road, would intertwine their lives in a way he'd never want to untangle. But when school bullies turn into something much worse, Asa starts to dig around. He never dreams the troubles lurking in the hallways of the local high school would shake his family to its core. With drug dealers lurking, bullets flying, and threats coming from every angle, Asa must do everything he can to protect the ones he loves. Because in the end, there's nothing more precious than the gift of life. Warning: Oh, I'm sorry, that's a fake ID. If you're not eighteen, consider yourself bounced and walk away from my books. I'll gladly welcome you back when you become a legit adult. That is, unless you're my parents or my children. If so, walk away and don't come back. You don't need to know what's in my head.

Paths Brynne Asher, 2017-04-23 Maya Augustine needed to disappear—her life depended on it. When her path led her to the middle-of-nowhere Virginia, she found the perfect place to hide. A woman on the run, Maya had no business befriending anyone, let alone allowing herself to become involved with a man ... especially after her last experience. Even so, she couldn't help but become obsessed with the bruised, battered, and beautiful killer who walked into her life. Grady Cain reached rock bottom. His past finally caught up with him, causing him to lose his edge at work and in life. Spiraling down a desperate path of remorse and guilt, Grady wasn't expecting his refuge to come in the form of a woman. Day in-day out, she was the only thing he'd allowed himself to think about. To focus on. To consume him. One was running. The other had nothing to run to. Until these troubled souls crossed paths... And two paths became one. Warning: This author is a mom who runs a PG-13 home. This book is not PG-13. She would literally keel over and die if anyone under the age of 18 read this book. If you're not of age, save this author from her untimely death, and go read about teenage wizards. They're awesome.

Vine Tips Gwen Kirtley Perkins,2005-09 This book is written for those who want to feel more at home in the natural world and recognize the necessity of knowing one's wild neighbor's names as well as their good and bad habits. Vines and vine-like plants are introduced by families with information on unique or unusual characteristics, folklore, uses and potential harmful effects, if any. Tips on identifying individual species are listed in the sections on leaves, flowers, and fruits, as well as the habitats in which they may be expected to be found growing. All esoteric scientific Botanese terms are translated into common everyday English words. Any confusion in interpreting my text may be readily dissipated upon viewing Joe Macgown's superb illustrations.
