Beauty Is Our Business W.H.J. Feijen,A.J.M. van Gasteren,David Gries,J. Misra,2012-12-06 More than anything else, this book is a tribute to Edsger W. Dijkstra, on the occasion of his sixtieth birthday, by just a few of those fortunate enough to be influenced by him and his work and to be called his friend or relation, his master, colleague, or pupil. This book contains fifty-four technical contributions in different areas of endeavor, although many of them deal with an area of particular concern to Dijkstra: programming. Each contribution is relatively short and could be digested in one sitting. Together, they form a nice cross section of the discipline of programming at the beginning of the nineties. While many know of Dijkstra's technical contributions, they may not be aware of his ultimate goal, the mastery of complexity in mathematics and computing science. He has forcefully argued that beauty and elegance are essential to this mastery. The title of this book, chosen to reflect his ultimate goal, comes from a sentence in an article of his on some beautiful arguments using mathematical induction: ... when we recognize the battle against chaos, mess, and unmastered complexity as one of computing science's major callings, we must admit that 'Beauty Is Our Business'.

America in Quotations Bahman Dehgan,2015-08-31 "America is a land of wonders, in which everything is in constant motion and every change seems an improvement.... No natural boundary seems to be set to the efforts of man; and in his eyes what is not yet done is only what he has not yet attempted to do"—Alexis de Tocqueville, Democracy in America (1835). "Americans will pay a big price for an invention that will help them save time they don't know what to do with"—Anonymous. This collection of quotations—both serious and humorous—about America is divided into 19 main topics: The Nation, The American People, Places, Nature, Mind, The Individual, Human Relations, Social Life, Culture and Media, Literature and Language, Religion and Belief, Past and Future, History, War and the Military, International Relations, Politics and Government, Law and Order, Business and Economy, and Food. Each main topic is divided into subtopics; for example,

“Culture and Media” has these: Architecture, Art, Charlie Chaplin, Dance, Fashion, Intellectuals, Marilyn Monroe, Movies, Music, Elvis Presley, and Television. The author attributes each quote to its speaker, author or composer, and wherever possible, provides the date of the quote and the name of the work in which it was published. In the case of uncertainty about the exact date of a quote, the author provides the birth and death dates of the person to whom the quote is attributed. Also included are a keyword and subject index and a speaker index.
