Jewish Views of the Afterlife Simcha Paull Raphael, 2009-06-15 This expanded second edition of the classic text on life after death in Judaism includes new material on practical applications of Jewish views of the afterlife, such as funeral, burial, and shiva, as well as an updated look at how views on death and dying have shifted in recent years. Synthesizing traditional Jewish sources with contemporary psychological thought, near-death experiences, and consciousness research, Jewish Views of the Afterlife offers a contemporary statement on ways of understanding the afterlife journey of the soul from a spiritual point-of-view. Both historical and contemporary, this book provides a rich resource for scholars and lay people, for teachers and students, and makes an important Jewish contribution to the growing contemporary psychology of death and dying.

The Psychology of Religion and Spirituality Timothy Sisemore, 2016-01-11 The Psychology of Religion and Spirituality: From the Inside Out, by Timothy Sisemore, provides an introduction to the field of the psychology of religion and spirituality utilizing a mixed method approach allowing persons of faith (and one who is an atheist) to give voice to their experience to supplement the quantitative research that has been done in the field. Convinced? C. J. Rysen, Dan Manternach, 2021-10-20 What is the complete essence of this book? The Cosmic Harmony of Science, Scripture, and Reason. Can it be indubitably proven that God absolutely exists? Can it really be shown how science actually confirms creation by God? Given that some say not even God can create something out of nothing, exactly how did God create everything in the universe? Just how can the Holy Bible be reliable and the divine Word of God when it is challenged with so much controversy? Can it be irrefutably verified that Jesus was for real, really rose from the dead, and is the Son of God? Did the Great Flood of Noah and his Ark really happen? How? Everybody wants to see proof. Atheists and skeptics often demand it. A total of twenty-one of the most often asked and difficult questions challenging Christianity are answered by coauthors C. J. Rysen, (author of the Christian apocalyptic thriller, a novel, In the Course of Three Hours (www.inthecourseofthreehours.com)), and Dan Manternach, a public speaker and leader in the Christian Group, Ministry to Men (www.ministrytomen.net). Both men have collaborated to provide irrefutable answers and explanations in a simple, easy-to-understand, straightforward way, providing new, unexpected, and intriguing perspectives to which you likely may

have never given any thought. Many of these will be surprising and often startling to anyone--whether skeptic, agnostic, or atheist. The book is also intended to be a reference source for the layperson, as well as those with formal theological or philosophical education. Although this book is intended to address these questions for the benefit of the nonbeliever, it also is intended to prepare the believer to help answer such questions and solidify their faith. If one is intellectually honest with oneself, the explanations in this book should be overwhelmingly compelling and absolutely convincing. If they are not, one must ask the question, Why?

Death and Religion in a Changing World Kathleen Garces-Foley, 2014-12-18 This comprehensive study of the intersection of death and religion offers a unique look at how religious people approach death in the twenty-first century. Previous scholarship has largely focused on traditional beliefs and paid little attention to how religious traditions evolve in relation to their changing social context. Employing a sociological approach, *Death and Religion in a Changing World* describes how people from a wide variety of faiths draw on and adapt traditional beliefs and practices as they deal with death in modern societies. The book includes coverage of newly emerging social and religious phenomena that are only just beginning to be analyzed by religion scholars, such as public shrines, the role of the media, spiritual bereavement groups, and the use of the Internet in death practices.

Dealing with Death Kathlyn Gay, 2017-10-06 Death is a sensitive subject for most people. Whether due to fear or superstition, many individuals avoid the topic of mortality. For teens, the subject is taboo as well. Most young adults believe that death won't affect them, so they'd rather not talk about it. But death is a natural course of life, and everyone—including teens—will encounter it at some time in their lives, some sooner than later, and some unexpectedly. In *Dealing with Death: The Ultimate Teen Guide*, Kathlyn Gay addresses this difficult subject, providing matter-of-fact discussions on a number of issues that help teens better understand the nature of mortality. This book looks at the personal, legal, and moral questions related to death, including How do you deal with the death of a loved one? What's it like to live with a terminal illness? What happens after you die? Featuring real stories and quotes from teens about their experiences, this book shows young adults a

variety of views on dying and grieving. This book will help readers deal with death—not only the reality that death is inevitable for all of us—but also the many ways people face death and bereavement. Dealing with Death serves as a valuable resource for all teens, whether they are dealing with tragedy or just looking for more information on a tough subject.

Life After Death Nancy Hoffman,2004 Since ancient times people have wondered what happens after we die. Virtually all civilizations -- both past and present -- embrace the idea of life after death. Notions of heaven, hell and purgatory are discussed as well as the idea of reincarnation, which suggests people live many different lives on earth. Varied accounts of both near death experiences and past lives memories are included, all lending support to the view that death is not really the end but another beginning.

Life After Death Alan Segal,2010-06-23 A magisterial work of social history, Life After Death illuminates the many different ways ancient civilizations grappled with the question of what exactly happens to us after we die. In a masterful exploration of how Western civilizations have defined the afterlife, Alan F. Segal weaves together biblical and literary scholarship, sociology, history, and philosophy. A renowned scholar, Segal examines the maps of the afterlife found in Western religious texts and reveals not only what various cultures believed but how their notions reflected their societies' realities and ideals, and why those beliefs changed over time. He maintains that the afterlife is the mirror in which a society arranges its concept of the self. The composition process for Judaism, Christianity, and Islam begins in grief and ends in the victory of the self over death. Arguing that in every religious tradition the afterlife represents the ultimate reward for the good, Segal combines historical and anthropological data with insights gleaned from religious and philosophical writings to explain the following mysteries: why the Egyptians insisted on an afterlife in heaven, while the body was embalmed in a tomb on earth; why the Babylonians viewed the dead as living in underground prisons; why the Hebrews remained silent about life

after death during the period of the First Temple, yet embraced it in the Second Temple period (534 B.C.E. -70 C.E.); and why Christianity placed the afterlife in the center of its belief system. He discusses the inner dialogues and arguments within Judaism and Christianity, showing the underlying dynamic behind them, as well as the ideas that mark the differences between the two religions. In a thoughtful examination of the influence of biblical views of heaven and martyrdom on Islamic beliefs, he offers a fascinating perspective on the current troubling rise of Islamic fundamentalism. In tracing the organic, historical relationships between sacred texts and communities of belief and comparing the visions of life after death that have emerged throughout history, Segal sheds a bright, revealing light on the intimate connections between notions of the afterlife, the societies that produced them, and the individual's search for the ultimate meaning of life on earth.

Dying Well Julia Neuberger, 1999 This text looks at the various ways in which different professions, cultures, religions and people of opposing philosophical standpoints view death.
