**The Rise of the Radical Right in the Global South** Rosana Pinheiro-Machado, Tatiana Vargas-Maia, 2023-05-31 The Rise of the Radical Right in the Global South is the first academic study—adopting an interdisciplinary and international perspective—to offer a comprehensive and groundbreaking framework for understanding the emergence and consolidation of different radical-right movements in Global South countries in the twenty-first century. From deforestation and the anti-vaccine movement in Bolsonaro's Brazil to the massacre of religious minorities in Modi's India, the rise of the radical right in the Global South is in the news every day. Not long ago, some of these countries were globally celebrated as emerging economies that consolidated vibrant democracies. Nonetheless, they never overcame structural problems including economic inequality, social violence, cultural conservatism, and political authoritarianism. Featuring case studies from Brazil, India, the Philippines, and South Africa, and more generally from Africa and Latin America, this book analyses future scenarios and current alternatives to this political movement to the radical right. It proposes a shift of focus in examining such a trend, adopting a view from the Global South; conventional theoretical tools developed around the experience in Global North countries are not enough. The authors show that the radical right in the Global South should be analysed through specific lenses, considering national historical patterns of political and economic development and instability. They also warn that researching these countries may differ from contexts where democratic institutions are more reliable. This does not mean abandoning a transnational understanding of the radical right; rather, it calls for the opposite: the chapters examine how the radical right is invented, adapted, modified, and resisted in specific regions of the globe. This volume will be of interest to all those researching the radical right and the politics of development and the Global South.

**Neoliberalism and Resistance in South Africa** Shaukat Ansari, 2021-05-03 This book critically examines the persistence of market orthodoxy in post-apartheid South Africa and the civil society resistance such policies have generated over a twenty-five-year period. Each chapter unpacks the key political coalitions and economic dynamics, domestic as well as global, that have sustained neoliberalism in the country since the transition to liberal democracy in 1994. Chapter 1 analyzes the political economy of segregation and apartheid, as well as the factors that drove the democratic reform and the African National Congress' (ANC) subsequent abandonment of redistribution in favor of neoliberal policies. Further chapters explore the causes and consequences of South Africa's integration into the global financial markets, the limitations of the post-

apartheid social welfare program, the massive labour strikes and protests that have erupted throughout the country, and the role of the IMF and World Bank in policymaking. The final chapters also examine the political and economic barriers thwarting the emergence of a viable post-apartheid developmental state, the implications of monopoly capital and foreign investment for democracy and development, and the phenomenon of state capture during the Jacob Zuma Presidency.

**The Coming Revolution** Janet Smith, 2014-10-01 What do the Economic Freedom Fighters (EFF) stand for? How do they propose to nationalize mines, banks, and land? Is Julius Malema, the founder of the EFF, equipped to legislate or to lead? These tough questions are asked in *The Coming Revolution: Julius Malema and the Fight for Economic Freedom*. Malema is tackled on his tax woes and on the tenderpreneur label by Janet Smith, an executive editor of the Star. Smith asks Malema to explain, contextualize, and motivate his political agenda and the genesis of the new party. Hard-hitting and informative, *The Coming Revolution* disrupts the dominant South African political narrative.

**Populism in Global Perspective** Pierre Ostiguy, Francisco Panizza, Benjamin Moffitt, 2020-12-30 Pathbreaking theoretically and innovative in treatment, *Populism in Global Perspective* is a seminal addition to the literature on arguably the most controversial and fervently discussed topic in political science today. The book brings together established and rising stars in the field of populism studies, in an integrated set of theoretical and empirical studies centered on a discursive-performative notion of populism. Contributors argue that populist identification is relational and sociocultural, and demonstrate the importance of studying populism phenomenologically together with anti-populism. The truly global series of case studies of populism in the US, Western and Southern Europe, Latin America, South Africa, the Philippines, and Turkey achieves a deliberate balance of left and right instances of populism, including within regions, and of populism in government and opposition. Written in a style approachable to students and specialists alike, the volume provides a substantial foundation for current knowledge on the topic. *Populism in Global Perspective* is a must read for comparativists, political theorists, sociologists, area studies specialists, and all educated readers interested in populism worldwide.

**"We are Not Scared to Die:"** Tiffany Thames Copeland, 2021 Twenty-five years has elapsed since apartheid's end and South Africa is in a state of emergency. The Black majority are landless and without basic amenities. According to a World Bank report, inequality has increased since apartheid's end. The charismatic Economic Freedom Fighters (EFF) leader, Julius Malema says, the time for reconciliation is over, now is the time for justice, and he has captivated the minds of South African youth. The EFF was the only top political party to increase its voter base in the 2019 South African general elections, and its core voters were young people, restless for change. The EFF is a protest movement, representative of an international trend among the youth, who are using social media to protest. The EFF's pillars have emerged from a clarion call among the youth for their liberation. Malema says the EFF is the true inheritor of the ANC's radical agenda, as he vows to fight corruption in South Africa, striking fear in the hearts of the white monopoly capitalists and their conspirators. In addition, Malema's

agitational rhetoric is investigated in the first rhetorical study on his discourse, and the results are fascinating. At its core, this struggle among the generations, is for the future direction of South Africa. So, the South African youth are singing struggle songs and toyi-toying, wearing red berets, attentively listening to their command team, holding up their election manifesto called a gun, and are equipped now for the legislative battles for economic freedom in their lifetime--

*Modern State Development, Capacity, and Institutions* Derica Lambrechts, 2017-07-31 This book makes an important original conceptual and theoretical contribution to our understanding of modern state development, the role of the state, and the South African transition to democracy. Its focus on related concepts such as state capacity, political trust and tolerance adds to insights on the dynamics of political and democratic transitions. Furthermore, the selected focus areas as well as the comparative approach add new insights into the peculiarities of the South African transition, state development, state capacity and state institutions. Its focus on societal dynamics and state-society relations is a significant contribution.

**Populist Communication** Lone Sorensen, 2021-06-21 How can we make sense of the current age of global political disruption when populism leaves norms overturned and the future form of democracy unpredictable? Political representatives are no longer elected for their experience and expertise but out of a desire for an ephemeral sense of authenticity, a direct connection to citizens, and the certainty of the truths they tell. But when populists project these ideas and claim to represent the citizenry, what is reality and what is strategic performance for the media? This conceptually rich book explores the performative strategies of the populist politicians who disrupt the normative order with acts of 'truth-telling'. It disentangles their complex use of media—from their appeal to news values through spectacular disruptions to sophisticated social media commentary—in repertoires of mediated performances. Based on vigorous empirical research in both established and transitional democracies, it develops a theoretical framework of populist communication in the new media environment.

**Namibia Presidential and National Assembly Elections, 28 November 2014** Commonwealth Expert Team, Commonwealth Expert Team (Namibia : 2014), 2015 The report of the Commonwealth Expert Team for Namibia presidential and national assembly elections, held on 28 November 2014. The team was led by Artemisa Franco, former commissioner of the National Electoral Commission of Mozambique, and included Victor Shale, former Zimbabwe country director for the Electoral Institute for Sustainable Democracy in Africa. These elections were historic, not only for the country, but for the entire African continent, as they were the first elections to use entirely electronic voting. The team found that, despite a number of technical glitches, which caused significant delays in the overall voting process, the elections were competitive, met key democratic benchmarks and election day was generally well administered.
