Trade Policy Review - Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsui . World Tourism Organizatio,2017-03-28 Each Trade Policy Review consists of three parts: a report by the government under review, a report written independently by the WTO Secretariat, and the concluding remarks by the chair of the Trade Policy Review Body. A highlights section provides an overview of key trade facts. 15 to 20 new review titles are published each year. The reviews consist of detailed chapters examining the trade policies and practices of the member and describing trade policy-making institutions and the macroeconomic situation; these chapters are preceded by the Secretariat's Summary Observations, which summarize the report and presents the Secretariat's perspective on the member's trade policies. The Secretariat report and the member's policy statement are published after the review meeting, along with the minutes of the meeting and the text of the Chairperson's Concluding Remarks.

Influence of parental attitude towards education on academic performance of day secondary school students in Uasin Gishu county, Kenya Mallion Kwamboka,2019-06-17 Research Paper (undergraduate) from the year 2014 in the subject Pedagogy - School System, Educational and School Politics, , language: English, abstract: Parental attitude towards education is consistently found to be positively associated with a student's academic performance. However, there has been little investigation about mechanisms that explain this association. The objective of the study was to establish the relationship between parental attitude towards education and academic performance of day secondary students. The specific research objectives were: to establish the relationship between parents' attitude towards educational involvement and academic performance of day secondary school students; to examine the relationship between parents' attitude towards absenteeism and academic performance of day secondary school students; to establish the relationship between parents' attitude towards provision of basic educational needs and academic performance of day secondary students in Uasin Gishu. The theoretical framework of this study was derived from functionalist and learning theories. The Data for this study was collected from primary and secondary sources. The research instruments were questionnaires for students and parents, interview schedules for parents and teachers and parent-child relationship scale for students. The study population comprised of 1804 students, 80 parents representatives and 51 teachers. A correlation research design was adopted based on a sample drawn from five secondary schools in the study area. Purposive sampling was used to select a sample 18 teachers and 36 parents while stratified random sampling was used in the selection of 180 students. Spearman Brown Prophecy coefficient formula was used to test the internal consistency of questionnaires and interview schedules after piloting had been done. Parent-child relationship scale reliability was established by use of Cronbach's alpha coefficients. The reliability coefficients of 0.70 at

0.05 level of significance were obtained. Data collected was analyzed using descriptive and inferential statistical analysis. Inferential statistics. Descriptive statistics such as frequency, means and percentages were used in analyzing data. The findings of the study show that parental attitude towards education affects academic performance of day secondary school students in Uasin Gishu. The study concluded and recommended that school administrators and policy makers find ways of enhancing parental involvement towards education.

Price Parity Clauses on Internet Platform Markets Holger Löhr, 2016-07-12 Master's Thesis from the year 2014 in the subject Economics - Other, grade: 1,7, University of Marburg (Wirtschaftspolitik), course: Masterarbeit, language: English, abstract: Recent years have witnessed a remarkable increase in internet platform markets which have become the preferred venue of interaction amongst a growing number of buyers and sellers. The ability of the internet to enable sellers reach a greater number of consumers shows that there is a high potential for growth of the internet market, with effects on competition. Following a 2013 report by the German Antitrust Authority "Bundeskartellamt" on "Vertical Restraints on the Internet Economy", it is clear that the internet significantly reduces transaction costs and thus increases competition to the benefit of consumers. The increase in competition among sellers, producers and retailers has led to an adoption of different forms of vertical restrictions on internet platforms which have come under the scrutiny of antitrust authorities. This thesis aims to analyze vertical restraints on internet platform markets based on the investigation of Amazon.com, Inc. by the "Bundeskartellamt" for its use of a price parity clause. This clause was introduced in Germany and in the United Kingdom in 2010 in the contract between Amazon and sellers using its platform and prohibited them from setting lower prices on other platforms, including their own websites, than the prices they set on Amazon.

Product and Process Design Principles Warren D. Seider, Daniel R. Lewin, J. D. Seader, Soemantri Widagdo, Rafiqul Gani, Ka Ming Ng, 2016-05-23 The fourth edition enhanced eBook update of Product and Process Design Principles contains many new resources and supplements including new videos, quiz questions with answer-specific feedback, and real-world case studies to support student comprehension. Product and Process Design Principles covers material for process design courses in the chemical engineering curriculum—demonstrating how process design and product design are interlinked and

their importance for modern applications. Presenting a systematic approach, this fully-updated new edition describes modern strategies for the design of chemical products and processes. The text presents two parallel tracks—product design and process design—which enables instructors to easily show how product designs lead to new chemical processes and, alternatively, teach product design as separate course. Divided into five parts, the fourth edition begins with a broad introduction to product design followed by a comprehensive introduction to process synthesis and analysis. Succeeding chapters cover the products and processes of design synthesis, design analysis, and design reports. The final part of the book presents ten case studies which look at product and process designs such as for Vitamin C tablets, conductive ink for printed electronics, and home hemodialysis devices. Effective pedagogical tools are thoroughly and consistently implemented throughout the text.
