**Myth and Geology** Luigi Piccardi, W. Bruce Masse, 2007 This book is the first peer-reviewed collection of papers focusing on the potential of myth storylines to yield data and lessons that are of value to the geological sciences. Building on the nascent discipline of geomythology, scientists and scholars from a variety of disciplines have contributed to this volume. The geological hazards (such as earthquakes, tsunamis, volcanic eruptions and cosmic impacts) that have given rise to myths are considered, as are the sacred and cultural values associated with rocks, fossils, geological formations and landscapes. There are also discussions about the historical and literary perspectives of geomythology. Regional coverage includes Europe and the Mediterranean, Afghanistan, Cameroon, India, Australia, Japan, Pacific islands, South America and North America. Myth and Geology challenges the widespread notion that myths are fictitious or otherwise lacking in value for the physical sciences. -- BOOK JACKET.

Discourses We Live By: Narratives of Educational and Social Endeavour Hazel R. Wright, Marianne Høyen, 2020-07-03

What are the influences that govern how people view their worlds? What are the embedded values and practices that underpin the ways people think and act? *Discourses We Live By* approaches these questions through narrative research, in a process that uses words, images, activities or artefacts to ask people – either individually or collectively within social groupings – to examine, discuss, portray or otherwise make public their place in the world, their sense of belonging to (and identity within) the physical and cultural space they inhabit. This book is a rich and multifaceted collection of twenty-eight chapters that use varied lenses to examine the discourses that shape people's lives. The contributors are themselves from many backgrounds – different academic disciplines within the humanities and social sciences, diverse professional practices and a range of countries and cultures. They represent a broad spectrum of age, status and outlook, and variously apply their research methods – but share a common interest in people, their lives, thoughts and actions. Gathering such eclectic experiences as those of student-teachers in Kenya, a released prisoner in Denmark, academics in Colombia, a group of migrants learning English, and gambling addiction support-workers in Italy, alongside more mainstream educational themes, the book presents a fascinating array of insights. *Discourses We Live By* will be essential reading for adult educators and practitioners, those involved with educational and professional practice, narrative researchers, and many sociologists. It will

appeal to all who want to know how narratives shape the way we live and the way we talk about our lives.

**The Human Place in Nature** John Schooneveldt, 2025-04-02 This book explores a new approach to understanding the evolution of mind and consciousness by examining the perceptual abilities of animals and the way they experience their world. It offers a science-based bottom-up approach to our own conscious worldview by seeing it through the eyes of others. Emphasis is on the role of context in evolution and the way animals internalize and engage with the contextual properties of their world that are meaningful for them. The core argument is that a context, which is subjective and comprised of the perceptual capacities, offers new insights into the evolution of mind. Rather than seeing biological evolution in terms of the emergence of mindless forms and cultural evolution as the emergence of disembodied minds, the book seeks to integrate these two perspectives through the rigorous mapping of contexts. Key Features Reveals an understanding of animal minds Formulates a hypothesis for the evolution of consciousness Includes a discussion of the origin of technological innovation Provides a rationale for the ecology of mind Proposes a theory of the evolution of language Outlines the science of experience and how it influences choice Explains the role of context and choice with respect especially to human ecology

**God Doesn't Live Here Anymore** Michael Wood Daly, 2023-01-16 The church in Canada is in trouble. Media reports suggest that nine thousand churches are likely to close over the next ten years. The United Church of Canada reports closing a congregation a week. The Anglican Church of Canada anticipates closing its last congregation by 2040, and the Roman Catholic Church, Canada's largest religious denomination, reports having closed one-fifth of the tradition's 2,500 congregations. *God Doesn't Live Here Anymore* traces the story of the church in Canada from its far off historical roots in biblical times, rise to dominance in medieval Europe, role in the colonization of Canada, strained relations with Canada's First Nations, twentieth-century prominence, and the church's dramatic decline and loss of influence entering the twenty-first century. Wood Daly pulls no punches in calling the church to accept responsibility for its own decline, while maintaining hope that resurrection is still possible. The church, as Canadians may know it, might disappear, but for Christians death has never been the end of the story.

**Leadership, Myth, & Metaphor** Daniel Cherry, Jeff Spiegel, 2006-01-13 Use the creative energy of metaphor to clarify and make your leadership vision a reality! How do you see yourself as an educator? How would you describe yourself as a leader? Have you ever considered using metaphors to reframe your leadership practice, vision, and mission? Often, leaders stumble when asked to articulate their values, ethics, and purpose. This book illustrates the significance of leadership archetypes and metaphoric reframing in understanding and facilitating organizational change. *Leadership, Myth, & Metaphor* reports on the findings of a professional development study funded by the Gates Foundation of more than 250 superintendents and principals, celebrating educators' unique individual core values while acknowledging their shared intrinsic beliefs, including: A commitment to a cause beyond oneself A devotion to an ethic of care A desire to improve the condition of society A wish to make a significant impression on student and adult lives A conviction to inspire others to seek their full potential Awareness of yourself on a personal and professional level leads to a deeper consideration of your mission as a leader and of your purpose in life.

**The Myths We Live By** Mary Midgley, 2005-09-14 Mary Midgley argues in her powerful new book that far from being the opposite of science, myth is a central part of it. In brilliant prose, she claims that myths are neither lies nor mere stories but a network of powerful symbols that suggest particular ways of interpreting the world.

**Michael Jackson's Radical Aesthetic** Willa Stillwater, 2025-12-29 This two-volume work encourages students, fans, and scholars to take an expansive view of Michael Jackson's art. Focusing on his films, which it approaches as exquisite works of art as well as a theoretical framework for interpreting his other work, it demonstrates the depth and scope of his art

and its far-reaching cultural significance. Specifically, it demonstrates how Jackson engaged in a sophisticated process of telling, untelling, and retelling entrenched cultural narratives that perpetuate prejudice, and how he modified affective responses to racial signifiers and other marks of difference. In this way, Jackson confronted prejudice more profoundly than any other American artist in recent memory. This work also takes a detailed look at the allegations of child sexual abuse. These were so shattering for Jackson both personally and creatively that his life and career divide into two parts – a division reflected in the two-volume structure of this work. Volume One focuses on Jackson's early films followed by analysis of the allegations, including historical factors that may have influenced how the police, press, and public reacted. Volume Two then focuses on the art Jackson created in response, including some of the most poignant, political, and significant work of his career. Volume Two also looks at evolving perceptions of Jackson's face and persona, approaching them as revolutionary yet deeply troubling works of art – works that became even more unsettling as Jackson wrestled with the intense emotions unleashed by the abuse allegations. It posits that popular perceptions of Jackson's face and persona were illusions that performed critically important cultural functions, and that Jackson himself – the man behind the illusion – was a trickster artist. It concludes that Jackson was the most important American artist of our time, and that his face was his masterpiece. However, it only arrives at these conclusions after careful analysis of his films. It's through his films that Jackson articulates his aesthetic. Therefore, it's his films that make his face legible.
