Fieldwork Educator's Guide to Level I Fieldwork Debra Hanson,Elizabeth DeIuliis,2024-06-01 A new resource for occupational therapy academic fieldwork coordinators and fieldwork educators, Fieldwork Educator's Guide to Level I Fieldwork is a practical guide for faculty and clinicians to design and implement Level I fieldwork experiences for occupational therapy and occupational therapy assistant students. Fieldwork Educator's Guide to Level I Fieldwork was designed to address the challenges of integrating Level I fieldwork with classroom learning experiences. Expansive and

versatile, the book meets the recently expanded definition of Level I fieldwork according to the 2018 Accreditation Council for Occupational Therapy Education standards, including faculty-led experiences, standardized patients, simulation, and supervision by a fieldwork educator in a practice environment. Each unit of the text builds upon the previous unit. The first unit provides fundamental knowledge on experiential learning and includes an orientation to the purpose of Level I fieldwork in occupational therapy. Building on this foundation, the second unit equips the reader with resources to develop a Level I fieldwork learning plan suitable for their setting. The final units focus on situational scenarios that emerge during Level I fieldwork placements and provides a framework for assessing student learning during Level I fieldwork. While each chapter is designed to build upon one another, they also can be used as stand-alone resources depending on the needs of the reader. What is included in Fieldwork Educator's Guide to Level I Fieldwork: Up-to-date terminology Experiential learning frameworks and models in diverse contexts, including role emerging and simulation Strategies for addressing anxiety and student stress management and supporting students with disabilities Models to support clinical reasoning development during Level I fieldwork Mechanisms to foster student professional development and communication skills Be sure to also look into the successive textbook, Fieldwork Educator's Guide to Level II Fieldwork, which was designed in-tandem with this book to be a progressive resource that exclusively focuses on Level II fieldwork.

Hospital Medicine and Clinical Education, An Issue of Pediatric Clinics of North America Nancy Spector, Amy Starmer, 2019-06-23 Drs. Robert Wachter and Lee Goldman coined the term hospitalist in their New England Journal of Medicine article in 1996. Hospital Medicine is now the fastest growing medical specialty in the United States, due in part to the evolution of inpatient care. In this issue, the Guest Editor, Dr. Nancy Spector, and Consulting Editor Dr. Bonita Stanton, have assembled expert authors to examine the changing nature of inpatient care, including the major movements and trends that have influenced hospital-based practice, patient centered care, and education in this clinical learning environment. Articles are focused on the following: Quality of Care and Quality Improvement; Evidence-based Medicine; Patient Outcomes and Metrics; Inter-professional Teams; Handoffs; Patient Centeredness; Communication with Patients; Health Literacy; Bedside Rounds; Education in the Inpatient; Clinical Learning Environment and Workplace-based Assessment; Simulation in Medical Education; Feedback; Bedside Teaching and Learning; and Hospital Medicine: State of the Specialty, Looking Forward. The intended audience for this issue are frontline providers that provide care in community hospitals and faculty in academic medical centers. Pediatricians will come away with the information they need to improve patient outcomes with evidentiary support.

Advanced Clinical Practice at a Glance Barry Hill, Sadie Diamond Fox, 2022-11-15 Advanced Clinical Practice at a Glance The market-leading at a Glance series is popular among healthcare students and newly qualified practitioners for its concise, simple approach and excellent illustrations. Each bite-sized chapter is covered in a double-page spread with clear,

easy-to-follow diagrams, supported by succinct explanatory text. Covering a wide range of topics, books in the at a Glance series are ideal as introductory texts for teaching, learning and revision, and are useful throughout university and beyond. Everything you need to know about Advanced Clinical Practice ... at a Glance! Advanced Clinical Practice at a Glance is an inclusive multi-professional resource that provides essential guidance for healthcare students on a myriad of topics related to advanced clinical practice. This book focuses on NMC and HCPC regulatory body requirements and is also aligned to nationally recognised advanced practitioner training curricula such as the Faculty Intensive Care Medicine (FICM), the Royal College of Emergency Medicine (RCEM) and the Royal College of Nursing (RCN). Made for the practicing clinician, Advanced Clinical Practice at a Glance is the perfect size for busy healthcare professionals. The snapshot figures and key points make the information highly accessible. Each chapter is written in a format that enables the reader to review and comprehend chapters individually. This valuable text includes: Guidance on undergraduate and postgraduate education programmes to allow students to prepare for more advanced level roles How to achieve transformation in advanced clinical practice via key functions like programme accreditation and recognition of education and training equivalence A directory of practitioners to recognise those working at an advanced level of practice across specialties Containing essential practical and theoretical guidance, Advanced Clinical Practice at a Glance is a must-have modern resource for all healthcare students looking to get involved in the field, plus professionals working in disciplines that intersect with advanced clinical care. Essential NMRCGP CSA Preparation and Practice Cases Rhona Knight, 2018-05-08 The Clinical Skills Assessment (CSA) of the new Membership of the Royal College of General Practice (nMRCGP) examinations can be a daunting test: candidates face assessment on an unknown situation by a 'patient' and assessor, however, help is at hand. This book has been written by a CSA examiner in concert with GP training programme members to help candidates approach the exam feeling prepared, calm and in control. It includes advice on preparation, consultation skills, how the assessment is marked, and 12 practice CSA cases, along with advice on how candidates can create cases with which to practise and assess each other. Clear, practical, and based on sound knowledge and proven techniques, this book will be essential reading for nMRCGP CSA candidates. 'Rhona is a passionate and compassionate educator with a strong sense of natural justice, and also a long-standing MRCGP examiner. She has developed an approach to understanding and preparing for the Clinical Skills

Assessment (CSA) that is already tried, tested and proven. An approach that will enhance the candidate's ability as a GP at the same time as preparing them for the CSA.' - Simon Gregory in his Foreword

Guide to Education and Training for Primary Care Yvonne Carter, Neil Jackson, 2002 For patients, good quality primary healthcare is of fundamental importance. In order to provide quality care education and training is paramount to professionals in primary care. Yvonne Carter and Neil Jackson have brought together a group of well-known practitioners to help them give an up to date and comprehensive overview of education and training in primary care. Readers will find much here which will help them chart the way forward in their own practice teams in ways which should lead to good results for patients and that enhanced professionalism in practitioners so crucial to their satisfaction and morals. - From the foreword by Sir Donald Irvine With the advent of PCGs/PCTs and a huge government programme of primary care development comes a great need to understand the education and training system, and its relation to other systems in the NHS, ie. service provision and research and development - a 'three systems approach'. The book encourages and facilitates strategic thinking and planning in relation to education and training at various levels including organisation, team and individual healthcare professional. The Guide to Education and Training in Primary Care contains up to date information on educational concepts and practice for the benefit of all healthcare professionals in primary care and the wider NHS. The book covers a range of issues paramount to education and training including clinical governance, quality and audit, research methods, clinical effectiveness and evidence-based primary care. A chapter devoted to learning from patients and coverage of the interface between primary and secondary care make this book a unique and valuable resource for all in primary care. About the Editors: Professor Yvonne Carter is Professor of General Practice and Primary Care and Head of Department at Barts and the London, Queen Mary's School of Medicine and Dentistry, University of London. She is editor of many books and is committed to increasing the research capacity in primary care and is particularly interested in the accreditation of research practices and the development of primary care research networks. Dr Neil Jackson is Dean of Postgraduate General Practice London Deanery, University of London. He is currently advising the Governments of Georgia and Uzbekistan to develop systems of Primary Care, a network of GP trainers and Family medicine Training programme in collaboration with the Department for International Development and Imperial College, London.

A Framework for Geodesign Carl Steinitz,2012 A Framework for Geodesign: Changing Geography by Design, published by Esri Press, details the procedures that pioneer landscape architect and planner Carl Steinitz developed for the implementation of geodesign in the planning process. Geodesign is a methodology that provides a design framework and supporting technology to leverage geographic information, resulting in designs that more closely follow natural systems. Describing A Framework for Geodesign, author Steinitz says, This book should be seen as a discussion with examples, intended to illustrate the issues and choices involved in the organization and management of large and complex geodesign studies and projects. Steinitz' framework is shaped by a set of six key questions he developed while analyzing and refining the geodesign process: How should the study area be described?; How does the study area function?; Is the current study area working well?; How might the study area be altered?; What difference might the changes cause?; How should the study area be changed?
