Cologne Commentary on Space Law Stephan Hobe, Bernhard Schmidt-Tedd, Kai-Uwe Schrogl, 2017-03-28 The 'Cologne Commentary on Space Law' is a three-volume annotation on the written norms of space law as enunciated through the Treaties of the United Nations and its General Assembly Resolutions. Volume I focuses on the 1967 Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies, popularly known as the 'Outer Space Treaty'. A broad international authorship of twenty experts addresses the historical overview and provides a provision by-provision interpretation of the Outer Space Treaty. This Volume also includes insights into the subsequent State practice, present-day applicability and future perspectives of the Treaty. The other four UN Treaties, the 1968 Rescue Agreement, the 1972 Liability Convention, the 1975 Registration Convention and the 1979 Moon Agreement, are addressed in Volume II, which was published in 2013. Volume III (published in 2015) delves into the eight most relevant United Nations General Assembly Resolutions/Principles on space activities. On the occasion of the 50th anniversary of the Outer Space Treaty, Volume I of the 'Cologne Commentary on Space Law' has been translated into Russian.

The U.S.-Taiwan-China Relationship in International Law and Policy Lung-chu Chen, 2016-03-16 The U.S.-Taiwan-China Relationship in International Law and Policy describes the central issues animating the dynamic U.S.-Taiwan-China relationship and the salient international and domestic legal issues shaping U.S. policy in the Asia Pacific region. In this book, Lung-chu Chen gives particular attention Taiwan's status under international law and the role of the U.S. Taiwan Relations Act (TRA) in the formulation and execution of U.S. policy toward Taiwan. The book endorses the central purpose of the Taiwan Relations Act--achieving a peaceful resolution to the Taiwan question--while offering policy alternatives that will empower Taiwan to participate more actively in the international arena.

International Fisheries Law Bjørn Kunoy, Tomas Heidar, Constantinos Yiallourides, 2024-10-14 Offering a practical exploration of persistent and new challenges relating to contemporary international fisheries law, this book examines emerging and unresolved issues in international fisheries law. Covering a wide range of international legal aspects related to fisheries governance, it offers practical perspectives that go beyond the existing debates in this field. An expert team of

contributors offers a comprehensive study of current challenges in fisheries governance, institutional law frameworks, procedural aspects and trade and enforcement issues. The book enriches fisheries law scholarship, outlining the capacity of international law to address challenges in international fisheries law and policy, highlighting the critical importance of fisheries to many states, coastal communities and economies globally. The book's chapters have been meticulously selected, focusing on policy and practical considerations. The result is a comprehensive edited collection covering the main persistent challenges in international fisheries law, making it an essential reading for all those interested in the conservation, integrated management and sustainable use of living resources globally.

The OIC, the UN, and Counter-Terrorism Law-Making Katja Samuel, 2014-07-18 The increasingly transnational nature of terrorist activities compels the international community to strengthen the legal framework in which counter-terrorism activities should occur at every level, including that of intergovernmental organizations. This unique, timely, and carefully researched monograph examines one such important yet generally under-researched and poorly understood intergovernmental organization, the Organization of Islamic Cooperation ('OIC', formerly the Organization of the Islamic Conference). In particular, it analyses in depth its institutional counter-terrorism law-making practice, and the relationship between resultant OIC law and comparable UN norms in furtherance of UN Global Counter-Terrorism Strategy goals. Furthermore, it explores two common (mis)assumptions regarding the OIC, namely whether its internal institutional weaknesses mean that its law-making practice is inconsequential at the intergovernmental level; and whether its self-declared Islamic objectives and nature are irrelevant to its institutional practice or are instead reflected within OIC law. Where significant normative tensions are discerned between OIC law and UN law, the monograph explores not only whether these may be explicable, at least in part, by the OIC's Islamic nature, and objectives, but also whether their corresponding institutional legal orders are conflicting or cooperative in nature, and the resultant implications of these findings for international counter-terrorism law- and policy-making. This monograph is expected to appeal especially to national and intergovernmental counter-terrorism practitioners and policy-makers, as well as to scholars concerned with the interaction between international and Islamic law norms. From the Foreword by Professor Ben Saul, The University of Sydney Dr Samuels book must be commended as an original and insightful contribution to international legal scholarship on the OIC, Islamic law, international law, and counter-terrorism. It fills significant gaps in legal knowledge about the vast investment of international and regional effort that has gone into the global counter-terrorism enterprise over many decades, and which accelerated markedly after 9/11. The scope of the book is ambitious, its subject matter is complex, and its sources are many and diverse. Dr Samuel has deployed an appropriate theoretical and empirical methodology, harnessed an intricate knowledge of the field, and brought a balanced judgement to bear, to bring these issues to life.

Military Assistance on Request and the Use of Force Erika De Wet, 2020-03-26 In countries such as Syria, Iraq, South

Sudan, and Yemen, internationally recognized governments embroiled in protracted armed conflicts, and with very little control over their territory, have requested direct military assistance from other states. These requests are often accepted by the other states, despite the circumvention of the United Nations Security Council and extensive violation of international humanitarian law and human rights. In this book, Erika De Wet examines the authority entitled to extend a request for (or consent to) direct military assistance, as well as the type of situations during which such assistance may be requested, notably whether it may be requested during a civil war. Ultimately, De Wet addresses the question of if and to what extent the proliferation of military assistance on the request of a recognized government is changing the rules in international law applying to the use of force.

The 50th Law 50 Cent,Robert Greene,2010-07-09 FROM THE NEW YORK TIMES BESTSELLING AUTHOR OF THE 48 LAWS OF POWER 'The hip-hop entrepreneur book' Independent 'My favourite book' Tinchy Stryder 'a rich mine of ideas and information' Scotland on Sunday The ultimate hustle is to move freely between the street and corporate worlds, to find your flow and never stay locked in the same position. This is a manifesto for how to operate in the twenty-first century, where everything has been turned on its head. Building on the runaway success of Robert Greene's The 48 Laws of Power (almost five million copies sold), the 'modern Machiavelli' teams up with rapper 50 Cent to show how the power game of success can be played to your advantage. Drawing on the lore of gangsters, hustlers, and hip-hop artists, as well as 50 Cent's business and artistic dealings, the authors present the 'Laws of 50', revealing how to become a master strategist and supreme realist. Success comes from seeking an advantage in each and every encounter, and The 50th Law offers indispensable advice on how to win in business - and in life.
