Transformative Applied Research in Computing, Engineering, Science and Technology Damayanthi

Dahanayake,Miruna Rabindrakumar,2025-04-29 This was the first international conference conducted by NSBM Green University in Sri Lanka under the theme, “Breaking boundaries: pioneering solutions for global challenges”. It focused on a diverse community of scholars, researchers and practitioners from around the globe to explore innovative approaches and breakthroughs in applied research across various disciplines, i.e., computing, engineering, science and technology. It dived into engaging discussions, presentations, and workshops covering a wide array of transformative topics, spanning from cutting-edge advancements in technology and science to impactful solutions addressing pressing societal challenges. It provided a pivotal opportunity for both seasoned experts and budding researchers to convene, fostering the exchange of vital information, cutting-edge research ideas or technology and innovative ideas, forge collaborations and shape the future of applied research.

The Challenge of Youth Employment in Sri Lanka Ramani Gunatilaka,Markus Mayer,Milan Vodopivec,2010-05-11 Sri Lanka has long been regarded as a model of a successful welfare state in a low-income setting, yet it has not succeeded in creating a sufficient number of good jobs for the increasing number of young people. Hence, young Sri Lankans perceive their country as an unjust and unequal society, in which mainstream institutions have failed to address inequalities in the distribution of resources, as well as of benefits deriving from economic growth. Against this background, 'The Challenge of Youth Employment in Sri Lanka' aims to identify ways to improve the opportunities available to new job market entrants by addressing existing inequalities and to help young people more fully realize their potentials. Drawing from original research and a review of existing studies, the authors use the 4Es conceptual framework to analyze four key aspects of labor markets employment creation, employability, entrepreneurship, and equal opportunity identifying main issues and results, current trends, and possible new approaches.

Making the Right Choice Asha L. Abeyasekera,2021-03-12 Making the Right Choice unravels the entangled relationship between marriage, morality, and the desire for modernity as it plays out in the context of middle-class status concerns and aspirations for upward social mobility within the Sinhala-Buddhist community in urban Sri Lanka. By focusing on individual life-histories spanning three generations, the book illuminates how narratives about a gendered self and narratives about

modernity are mutually constituted and intrinsically tied to notions of agency. The book uncovers how becoming modern in urban Sri Lanka, rather than causing inter-generational conflict, is a collective aspiration realized through the efforts of bringing up educated and independent women capable of making right choices. The consequence of this collective investment is a feminist conundrum: agency does not denote the right to choose, but the duty to make the right choice; hence agency is experienced not as a sense of freedom, but rather as a burden of responsibility.

Maritime Accidents and Environmental Pollution - The X-Press Pearl Disaster Meththika Vithanage,Ajith Priyal de Alwis,Deshai Botheju,2023-12-29 This book discusses in detail the facts and findings related to the X-Press Pearl container vessel accident that occurred in May 2021 off the coast of Colombo, Sri Lanka. The ship was carrying a large consignment of chemicals and diverse hazardous materials that caused a disastrous and vast environmental and social catastrophe in the region. Through many case studies, accumulated knowledge, and experiences, the authors discuss the accident response, risk mitigation, investigation, and damage assessment activities from the very onset of the accident. It helps researchers and regulators understand the facts of this unique marine chemical accident and to formulate necessary future regulations as well as to develop robust safety and sustainability management systems and safety cultures. Features: Written by authorities who led the team involved in accident response and damage assessment Focuses on identifying plausible root causes, pitfalls in accident response, and weaknesses in current regulatory and management protocols Delivers in-depth understanding of a unique marine chemical accident to help formulate necessary future policies and regulations related to such disasters Includes many case studies related to the accident illustrated with photos and figures that are true evidence of the disaster, the response, and the mitigation Explains and discusses key research findings in a streamlined manner understandable for a wide audience A valuable resource for readers in environmental management and policy creation, as well as for researchers, professionals, academics, and students involved in environmental science, chemical engineering, technical safety and sustainability management, maritime, polymer, and ocean sciences. Countries where maritime disasters are a concern will also find this book is an important guide for taking a responsible approach when handling similar situations in the future; not

least to avert such events from occurring.
