Challenges to Civil Rights Guarantees in India A.G. Noorani, South Asia Human Rights Documentation Centre, 2011-10-13

The civil rights of Indian citizens are guaranteed both in the Indian Constitution and through the State's international commitments. Despite these guarantees, the civil rights framework encounters numerous challenges from the State—problematic counter-terrorism laws, continuation of the death penalty, misuse of arrest and preventive detention powers, lack of implementation, and impunity. Through nine incisive essays on both traditional and emerging issues, this volume examines the prevailing imbalance between individual rights and State power. Many laws designed to protect the State do little more than protect State power at the expense of her citizens, directly flouting the Constitution, international law, and democratic principles. The authors critically analyse most of these laws, examining their justifications, background debates, and evolution, along with how they violate constitutional and international law. Taking into account relevant and contemporary comparative case law and developments in international law, this book makes a strong case for bold legal reforms and suggests various measures for improvement.

Confronting Capital Punishment in Asia Roger Hood, Surya Deva, 2013-11-07 With the strengthening focus worldwide on human rights, there has been a rapid increase in recent years in the number of countries that have completely abolished the death penalty. This is in recognition that it is a violation of the right to life and the right to be free from cruel, inhuman and degrading punishment. There has, simultaneously, been pressure on countries that still retain capital punishment to ensure that they at least apply the United Nations minimum human rights safeguards established to protect the rights of those facing the death penalty. This book shows that the majority of Asian countries have been particularly resistant to the abolitionist movement and tardy in accepting their responsibility to uphold the safeguards. The essays contained in this volume provide an in-depth analysis of changes in the scope and application of the death penalty in Asia with a focus on China, India, Japan, and Singapore. They explain the extent to which these nations still fail to accept capital punishment as a human rights issue, identify impediments to reform, and explore the prospects that Asian countries will eventually embrace the goal of worldwide abolition of capital punishment.

Moral Pluralism and the Complexity of Punishment Nicolas Nayfeld,2023-05-05 This book advances a new interpretation of Hart's penal philosophy. Positioning itself in opposition to current interpretations, the book argues that Hart does not defend a mixed theory of punishment, nor a rule utilitarian theory of punishment, nor a liberal form of utilitarianism, nor a goal/constraint approach. Rather, it is argued, his penal philosophy is based on his moral pluralism, which comprises two aspects: value pluralism and pluralism with respect to forms of moral reason. It is held that this means, on the one hand, that criminal law has an irreducible complexity due to the compromises it makes to accommodate competing values, and on the other hand, that there need not be one single justification of punishment. This original interpretation is not based only on Hart's key volume on the subject Punishment and Responsibility, but on a careful reading of his complete works. The book will be a valuable resource for academics and researchers interested in Hart's philosophy, the philosophy of law and criminal law.
