North and South Elizabeth Gaskell, 2014-08-26 A novel of love and social strife in northern England during the industrial revolution—a masterpiece of Victorian literature. After a decade spent living with her aunt in London, nineteen-year-old Margaret Hale returns home to her beloved village of Helstone only to discover that her pastor father has had a crisis of faith and is moving the family to the North of England. In the industrial town of Milton, Margaret is horrified by the dirty air, the shocking poverty, and the pervasive mistreatment of the working class. John Thornton, a student of Margaret's father and the self-made owner of a local textile mill, finds Margaret haughty and naive, but is drawn to her beauty nevertheless. As tensions between workers and masters mount, a strike appears inevitable. Margaret's sympathies lie with the downtrodden laborers of Milton, but her heart increasingly yearns for Thornton, whose strength and depth of character will be revealed in a time of profound crisis. Both a timeless romance and a richly detailed social novel, *North and South* is a masterpiece of Victorian literature. This ebook has been professionally proofread to ensure accuracy and readability on all devices.

North and South Annotated Elizabeth Cleghorn Gaskell, 2020-07-08 *North and South* is a social novel by English writer Elizabeth Gaskell. With *Wives and Daughters* (1865) and *Cranford* (1853), it is one of her best-known novels and was adapted for television twice (1975 and 2004). The later version renewed interest in the novel and attracted a wider readership. Gaskell's first novel, *Mary Barton* (1848), focused on relations between employers and workers in Manchester from the perspective of the working poor; *North and South* uses a protagonist from southern England to present and comment on the perspectives of mill owners and workers in an industrialising city. The novel is set in the fictional industrial town of Milton in the north of England. Forced to leave her home in the tranquil, rural south, Margaret Hale settles with her parents in Milton. She witnesses the brutal world wrought by the Industrial Revolution, seeing employers and workers clashing in the first strikes.

North and South Elizabeth Cleghorn Gaskell, 2018-06-27 *North and South* is a novel by Elizabeth Gaskell, first published in book form in 1855 originally appeared as a twenty-two-part weekly serial from September 1854 through January 1855 in the magazine *Household Words*, edited by Charles Dickens. The title indicates a major theme of the book: the contrast between the way of life in the industrial north of England and the wealthier south, although it was only under

pressure from her publishers that Gaskell changed the title from its original, Margaret Hale.

North and South Elizabeth Cleghorn Gaskell, 2017-05-25 North and South is a social novel by English writer Elizabeth Gaskell. With *Wives and Daughters* (1865) and *Cranford* (1853), it is one of her best-known novels and was adapted for television twice (1975 and 2004). The later version renewed interest in the novel and attracted a wider readership. Gaskell's first novel, *Mary Barton* (1848), focused on relations between employers and workers in Manchester from the perspective of the working poor; *North and South* uses a protagonist from southern England to present and comment on the perspectives of mill owners and workers in an industrialising city.[1] The novel is set in the fictional industrial town of Milton in the north of England. Forced to leave her home in the tranquil, rural south, Margaret Hale settles with her parents in Milton. She witnesses the brutal world wrought by the Industrial Revolution, seeing employers and workers clashing in the first strikes. Sympathetic to the poor (whose courage and tenacity she admires and among whom she makes friends), she clashes with John Thornton: a nouveau riche cotton-mill owner who is contemptuous of his workers. The novel traces her growing understanding of the complexity of labour relations and their impact on well-meaning mill owners and her conflicted relationship with John Thornton. Gaskell based her depiction of Milton on Manchester, where she lived as the wife of a Unitarian minister. Plot: Nineteen-year-old Margaret Hale happily returns home from London to the idyllic southern village of Helstone after her cousin Edith marries Captain Lennox. She lived for almost 10 years in the city with Edith and wealthy Aunt Shaw to learn to be a young lady. Margaret has refused an offer of marriage from the captain's brother, Henry, an up-and-coming barrister. Her life is turned upside down when her father, the local pastor, leaves the Church of England and the rectory of Helstone as a matter of conscience; his intellectual honesty has made him a dissenter. At the suggestion of Mr. Bell, his old friend from Oxford, he settles with his wife and daughter in Milton-Northern (where Mr. Bell was born and owns property). The industrial town in Darkshire (a textile-producing region) manufactures cotton and is in the middle of the Industrial Revolution; masters and workers are clashing in the first organised strikes.[11] Margaret finds the bustling, smoky town of Milton harsh and strange, and she is upset by its poverty. Mr. Hale (in reduced financial circumstances) works as a tutor; one of his pupils is wealthy and influential manufacturer John Thornton, master of Marlborough Mills. From the outset, Margaret and Thornton are at odds with each other; she sees him as coarse and unfeeling, and he sees her as haughty. He is attracted to her beauty and self-assurance, and she begins to admire how he has risen from poverty. During the 18 months she spends in Milton Margaret gradually learns to appreciate the city and its hard-working people, especially Nicholas Higgins (a union representative) and his daughter Bessy, whom she befriends. Bessy is ill with byssinosis from inhaling cotton dust, which eventually kills her. Margaret's mother is becoming sicker, and a workers' strike is brewing..... Elizabeth Cleghorn Gaskell, (nee Stevenson; 29 September 1810 - 12 November 1865), often referred to as Mrs Gaskell, was an English novelist and short story writer. Her novels offer a detailed portrait of the lives of many strata of Victorian society, including

the very poor, and are of interest to social historians as well as lovers of literature. Her first novel, *Mary Barton*, was published in 1848. Gaskell's *The Life of Charlotte Brontë*, published in 1857, was the first biography of Brontë. Some of Gaskell's best known novels are *Cranford* (1851-53), *North and South* (1854-55), and *Wives and Daughters* (1865).....

North and South By Elizabeth Cleghorn Gaskell Illustrated Edition Elizabeth Cleghorn Gaskell, 2020-04-12 *North and South* is all about challenging authority, especially when authority tries to work against compassion and justice. Margaret Hale constantly steps beyond her boundaries as a woman in Victorian England. Her brother challenges authority by disobeying his commanding officer in the navy and causing a mutiny. The laborer Nicholas Higgins organizes workers' strikes and insists on the rights of workingmen. Anywhere you look in this book, you'll find someone fighting the power. And that was something that the stuffy Victorians were really not into. And because of this, they totally thought that *North and South* would be forgotten over time.

The North-south Divide Helen M. Jewell, 1994 The North-South divide in England is rooted in prehistory and attested

throughout recorded time in widely varied sources. This book traces its development from earliest times and provides a corrective to the popular notion that the divide only originated with the Industrial Revolution. A major theme of the study is the development of northern consciousness, and the presence of Scotland across the northern border is seen as an important factor in shaping northern English identity, as well as the attitudes of southern kings and governments to the north.

Beyond the North-South Culture Wars Allan Dale, 2014-04-30 Increasingly, Australia's agriculturalists are looking to the nation's north to escape the decline in southern Australia's water and soil resources. Booming mineral and gas development is also helping to drive the nation's economic success. At the same time, the south's conservation sector would like to see much of the north preserved as iconic wilderness. Both conservation and resource development interests alike are often at odds with the interests of the north's traditional owners, many of whom remain trapped in welfare dependency and poverty. Indeed, to the ire of north Australians, the past five decades of north Australian history have indeed been characterized by these national-scale conflicts being played out in regional and local communities. This book explores these conflicts as well as the many emerging opportunities facing the development of the north, suggesting that a strong cultural divide between northern and southern Australia exists; one that needs to be reconciled if the nation as a whole is to benefit from northern development. The author first explores where these historical conflicts could take us without a clear forward agenda. A story-based personal narrative from his long and diverse experience in the north gives life to these themes. Finally, the book then draws on these stories to help shape a cohesive agenda for the north's future.

Celebrity Humanitarianism and North-South Relations Lisa Ann Richey, 2015-08-20 Discussion over celebrity engagement is often limited to theoretical critique or normative name-calling, without much grounded research into what it is that celebrities are doing, the same or differently throughout the world. Crucially, little attention has been paid to the Global South, either as a place where celebrities intervene into existing politics and social processes, or as the generator of Southern celebrities engaged in 'do-gooding'. This book examines what the diverse roster of celebrity humanitarians are actually doing in and across North and South contexts. Celebrity humanitarianism is an effective lens for viewing the multiple and diverse relationships that constitute the links between North and South. New empirical findings on celebrity humanitarianism on the ground in Thailand, Malawi, Bangladesh, South Africa, China, Haiti, Congo, US, Denmark and Australia illustrate the impact of celebrity humanitarianism in the Global South and celebrityization, participation and democratization in the donor North. By investigating one of the most mediatized and distant representations of humanitarianism (the celebrity intervention) from a perspective of contextualization, the book underscores the importance of context in international development. This book will be of interest to students and researchers in the fields of development studies, celebrity studies, anthropology, political science, geography, and related disciplines. It is also of great relevance to development practitioners, humanitarian NGOs, and professionals in business (CSR, fair trade) who work in the increasingly

celebritized field.

Geographies of England Alan R. H. Baker, Mark Billinge, 2004-06-24 This is the pioneering exploration of the history of a fundamentally geographical concept - the North-South divide of England. Six essays treating different historical periods in time are integrated by two geographical questions and a concluding essay reviews the social construction of England.

North-South Trade, Employment and Inequality Adrian Wood, 1994-02-17 Drawing on three fields of economics (international, labour, and development), this study shows that expansion of North-South trade in manufactures has had a far greater impact on labour markets than earlier work suggested. In the South, unskilled workers have benefited most from this trade, but in the North, the gains have been concentrated on skilled labour, while unskilled workers have suffered falling wages and rising unemployment. This decline in the economic position of unskilled workers has increased inequality, and aggravated crime and other forms of social erosion, on both sides of the Atlantic. The failure of Northern governments to recognize that trade with the South has these adverse side-effects, and to take appropriate counter-measures, has fuelled the rise of protectionism - the worst possible response, which slows economic progress in both regions. The best solution for the longer term in the North is more investment in education, to raise the supply of skilled labour. However, the benefits of this investment will emerge slowly. During the next one or two decades, Professor Wood argues, other measures are also urgently needed to boost the demand for, and incomes of, unskilled workers.

The Language of Global Development Marcin Solarz, 2014-07-11 Terms such as Third World, developing countries and Global South are ubiquitous in the discipline of development studies, but they are often poorly defined, ideologically weighted and misleading. Taking an intellectual history approach, this book examines the most commonly used spatial terms in the language of development, tracing their origins, meanings, evolution and processes of popularisation and demonstrating how geographical, political and economic concepts were used or misused in creating these terms. The book looks at the origins and the changing nature of fundamental development divisions from prehistoric times to the present day and analyses the process of conceptualising the contemporary North-South divide, focusing especially on the start of spatial development terminology in the twentieth century. It uses detailed maps to assist the reader in visualising the geographical complexities of these spatial terms, and discusses more recently developed terms, such as emerging markets and BRIC, which are key to understanding the modern world. This book provides a valuable resource for students and researchers in development studies, international relations, geography, sociology and anthropology, as well as practitioners in the field of development.

Middle and Modern English Corpus Linguistics Manfred Markus, Yoko Iyeiri, Reinhard Heuberger, 2012 This book brings together a variety of approaches to English corpus linguistics and shows how corpus methodologies can contribute to the linking of diachronic and synchronic studies. The articles in this volume investigate historical changes in the English language as well as specific aspects of Middle and Modern English and, moreover, of English dialects. The contributions also discuss the development of English corpus linguistics generally and its potential in the future. Special focus is given to the continuity between Middle and Modern English – much in line with the linking in previous studies of Middle English and Old English under the generic term ‘medievalism’. This volume highlights the continual development of English from the medieval to modern period.
