Why INEGI? The saga of a Mexican institution in search of the truth Instituto Nacional de Estadística y Geografía,2021-08-19 The book presents the National Institute of Statistics and Geography, what is and how it has developed over time, since it was founded in 1983. The Institute is today an eminently technical and at the same time autonomous body of the Mexican State.Beyond a chronology of events, this book raises two needs that have marked the Institute's evolution: the first, to properly measure the many components of reality, whether social, economic or natural; and the second, decisive for the public's trust and whose absence would invalidate the purposes of the previous need, to preserve the information from any consideration, other than strictly professional, in all stages of its production and dissemination.This work conveys INEGI's transcendence as an indispensable institution for the country to respond to the fundamental question, common to all human beings: to know and understand the reality of their environment.

General Principles of Law and International Due Process Charles T. Kotuby, Jr.,Luke A. Sobota,Center for International Legal Education (CILE) University of Pittsburgh School of Law,2017-02-15 Article 38 of the Statute of the International Court of Justice defines international law to include not only custom and convention between States but also the general principles of law recognized by civilized nations within their municipal legal systems. In 1953, Bin Cheng wrote his seminal book on general principles, identifying core legal principles common to various domestic legal systems across the globe. This monograph summarizes and analyzes the general principles of law and norms of international due process, with a particular focus on developments since Cheng's writing. The aim is to collect and distill these principles and norms in a single volume

as a practical resource for international law jurists, advocates, and scholars. The information contained in this book holds considerable importance given the growth of inter-state intercourse resulting in the increased use of general principles over the past 60 years.

Características: Derecho brinda a los estudiantes una visión general del Derecho desde concepción hasta sus diferentes ramas y, a partir del análisis de casos y problemas reales y concretos, los lleva a adquirir, por cuenta propia, una postura crítica y fundamentada del acontecer jurídico nacional e internacional. Este libro de texto busca que el estudiante se asuma como sujeto de derechos y obligaciones en su entorno social.Derecho se integra en cuatro unidades. La primera, Universo natural y universo social: elementos para la comprensión y justificación teórico-práctico del Derecho, aborda el estudio introductorio del campo del Derecho, teniendo como problema detonador la fundamentación axiológica de la norma jurídica. Fundamentação de Sentença e o Dever de Enfrentar os Argumentos das Partes Eduardo Kucker Zaffari,2023-04-12 O livro aborda a introdução legislativa que prescreve que será considerada não fundamentada, portando nula, a decisão judicial que não observar o caráter dialético do processo, deixando de analisar os argumentos capazes de infirmar a conclusão judicial. Verifica-se que este elemento estruturante da sentença é condição de possibilidade para a concretização do Princípio do Contraditório, sendo este um dos fundamentos norteadores da Constituição Federal de 1988 e pressuposto para a efetiva

realização de justiça num Estado Democrático de Direito. O art. 489, §1o, IV, do Código de Processo Civil, determina a necessidade de enfrentamento na fundamentação da decisão judicial, pelo juiz, de todos os argumentos deduzidos pelas partes capazes de infirmar sua conclusão. Apenas a observância do Princípio do Contraditório e zelo pelo julgador atenderão às dimensões da decisão judicial, consistindo em condição de possibilidade para um Estado de Direito que pretende se adjetivar como democrático. Os argumentos contrários à plena realização do preceito legal, introduzido pelo Código de Processo Civil de 2015, fundamentam-se em considerações metajurídicas que não correspondem à realidade e não atendem à realização dos fins de um Estado Democrático de Direito.
