New Horizons in Forensic Psychotherapy Brett Kahr,2018-03-26 *New Horizons in Forensic Psychotherapy: Exploring the Work of Estela V. Welldon*, edited by the author, contains many rich contributions by some of Welldon's most distinguished former students and proteges. The book consists of important chapters on the creative ways in which colleagues have utilised and expanded upon Welldon's work in the field of forensic psychotherapy in a variety of settings, including in hospitals, prisons, community mental health clinics, and, also, in private practice.

Freedom and Criminal Responsibility in American Legal Thought Thomas Andrew Green,2014-10-27 As the first full-length study of twentieth-century American legal academics wrestling with the problem of free will versus determinism in the context of criminal responsibility, this book deals with one of the most fundamental problems in criminal law. Thomas Andrew Green chronicles legal academic ideas from the Progressive Era critiques of free will-based (and generally retributive) theories of criminal responsibility to the midcentury acceptance of the idea of free will as necessary to a criminal law conceived of in practical moral-legal terms that need not accord with scientific fact to the late-in-century insistence on the compatibility of scientific determinism with moral and legal responsibility and with a modern version of the retributivism that the Progressives had attacked. Foregrounding scholars' language and ideas, Green invites readers to participate in reconstructing an aspect of the past that is central to attempts to work out bases for moral judgment, legal blame, and criminal punishment.

Criminals and their Scientists Peter Becker,Richard F. Wetzell,2006-01-09 This book presents research on the history of criminology from the late-eighteenth to the mid-twentieth century in Western Europe (Austria, Britain, France, Germany, Italy) and in Argentina, Australia, Japan, and the United States. Approaching the history of criminology as a history of science and practice, the essays examine the discourse on crime and criminals that surfaced as part of different discourses and practices, including the activities of the police and the courts, parliamentary debates, media reports, as well as the writings of moral statisticians, jurists, and medical doctors. In addition, the book seeks to elucidate the relationship between criminological discourse and politics, society, and culture by providing a comparative study of the worldwide reception of

Cesare Lombroso's criminal-anthropological ideas.

Erich Fromm and Critical Criminology Kevin Anderson,Richard Quinney,2000 Linking the writings of the great humanist psychologist Erich Fromm to criminology, this collection shows how viewing crime patterns and the criminal justice system from Fromm's humanist perspective opens a path to more effective and more humane ways of understanding and dealing with crime and criminals. Contributors to *Erich Fromm and Critical Criminology* draw on Fromm's writings on alienation, sadomasochism, and patriarchal/matriarchal values to assess the kinds of crimes being committed and the kinds of people committing them. They explore the spiritual and intellectual sources of Fromm's thought--including Jewish theology, Freudian psychoanalysis, Marxism, and Buddhism--and demonstrate how his socialist humanism points toward a society free of crime and violence. This volume also includes translations of two of Fromm's early articles on criminal justice, never before available in English, in which he develops a psychoanalytic Marxist critique of the role of criminal justice in a class society. At a time when American society seems bent, to an unprecedented degree, on imprisonment, executions, and other violent responses to the problem of crime, Fromm's humanist critique offers a unique vantage point from which to renew and develop a critical criminology.
