I believe the power to make money is a gift from God . to be developed and used to the best of our ability for the good of mankind. Phoenix Rising Donald G. Lett,Donald G Lett Jr,2008-02 In an age when the supply of gasoline to feed this modern American society has become both more expensive and more scarce questions are being pondered. Inquires like, How can a modern society scale back its dependence on gasoline as a motive source?' Are there genuine alternative power sources?' Are they the answer to a growing crisis?' Recent announcements of hybrids like those from Honda, Toyota, and Ford have really brought attention to this issue. Hybrids that use both gasoline engines and electric motors. Really, though, alternative power sources have been around for as long as the automobile has been. The battle between and among the steam car, the electric and the gas car was fought out in the first couple of decades of the twentieth century. This book explores the ins and outs of that battle. A struggle from which the gasoline car emerged completely victorious. To such an extent that steam cars and

electric cars virtually disappeared from the scene for many decades. We will look over all three alternatives, exploring their advantages and disadvantages. We will also look over the obstacles to the steamers and the electrics. Barriers that still exist to a certain extent. Handicaps that caused their disappearance in the first place.

Favor in Business Saul Flores Jr.,2022-12-13 FAVOR IN BUSINESS In a world where success is predominately measured by how much money we have in the bank, the size of our financial portfolio, and how prestigious our lives are, there have been great American Entrepreneurs who have chosen to take the path less traveled – to be truly compassionate and giving. They risked judgement, ridicule, and their fortunes; but in doing so they realized they could never out give God. Author Saul Flores Jr. Brilliantly depicts in this book, Favor in Business, the incredible and encouraging stories of men and women who define what giving truly looks like, From William Colgate of the Colgate-Palmolive empire to Mary Kay of Mary Kay Cosmetics, 12 unique stories compiled from in-depth research and Biblical Scriptures grace the pages of the book to educate and bring awareness to what it means to be anointed to succeed in business. Favor in Business is uplifting, inspiring, and thought provoking. It gives new light on what it truly means to have faith and prosper because of it.

Capital City Thomas Kessner,2004-04-07 At the beginning of the nineteenth century, New York City was an undistinguished town, competing with Philadelphia and Boston to be America's dominant port city. Just two generations later, it had built itself into the country's powerhouse center of trade and finance, rivaled only by London as financial capital of the world. In Capital City, Thomas Kessner tells the story of this remarkable transformation. With the advantages of its famous harbor and the opening of the Erie Canal in 1825, New York became the chief commercial center for the growing nation. As the shipping industry prospered, capital accumulated, and a growing banking center emerged, New York went on to finance the Union cause during the Civil War, open the West to development, and consolidate the national railroad system. The city's energy and opportunity attracted ambitious men from all over the country whose names became synonymous with big business: Vanderbilt, Carnegie, Rockefeller, and Morgan. New York's banks set the interest rates for the nation, its stock exchange fixed the price of securities, its investors transformed American business from family-owned enterprises into modern corporations, and its growing political clout catapulted public figures, such as Samuel Tilden and Teddy Roosevelt, onto the national stage. Combining political and urban history with a colorful cast of characters, Capital City chronicles how Gotham's Gilded Age reshaped the metropolis and the nation as it molded our present-day economy.

The Strange Death of Liberal America Ralph Brauer, 2006-05-30 Ralph Brauer defines Liberal America as a place where government exists to keep the playing field level. The success of the American experiment, he argues, depends on how well we maintain this equity and its four cornerstones: economic justice, educational equity, voting rights, and media fairness. His book is both a political and intellectual history examining the various threats to these cornerstones, and a social and cultural chronicle. Touching on music, television, movies, and sports, Brauer's thesis is underscored by a historical discussion that begins with the New Deal and works its way to the present, ending with Global Warming and the Iraq War. Arguing that the patient is in intensive care, Brauer identifies three reasons for the decline of the level playing field: 1) a Republican counterrevolution dedicated to rolling back the values of the New Deal, 2) an inability of both parties to answer questions raised by decades of Civil Rights revolutions, and 3) the transformation of suburban America from a place of opportunity created by government programs to a battleground. These three ideas form the basis for the book's three sections. Part One follows the development of the Counterrevolutionary Coalition, beginning with the Southern Strategy and ending with a chapter on America's politicized media. Part Two focuses on questions that have been raised by people of color and by women, and treats the Democratic Party's failure to answer those questions as illustrated by events like the Nader-LaDuke campaign and the 1964 Atlantic City convention. Part Three details the impact of suburban America on the cornerstones.

The Rockefeller Collection of American Art at the Fine Arts Museums of San Francisco Fine Arts Museums of San Francisco, Marc Simpson, Patricia A. Junker, 1994 The American art collection assembled by Mr. and Mrs. John D. Rockefeller 3rd during the 1960s and 1970s constitutes one of the great private collections of historic American painting. This book examines the collection in depth, focusing on 140 works donated to The Fine Arts Museums of San Francisco in the years since 1979. The works reproduced include examples from America's foremost realist masters. Among them are portraits by John Singleton Copley and Charles Willson Peale; landscapes by Thomas Cole, Frederic E. Church, and Martin Johnson Heade; George Caleb Bingham's extraordinary *Boatmen on the Missouri*; one of Edward Hick's most ambitious treatments of *The Peaceable Kingdom*; watercolors, drawings, and an early Civil War oil by Winslow Homer; and works by Eastman Johnson, Thomas Anshutz, John Frederick Peto, Grant Wood, Charles Sheeler, and Andrew Wyeth. Each work is reproduced here in full color. The accompanying texts, comprised of extracts from contemporary accounts by artists, critics,

patrons, and sitters, are lively and illuminating guides to understanding each work's history and significance. A detailed history of ownership and public exhibition and a selected bibliography are also provided for each painting. In many cases, this is the first time these important materials have appeared in print. The fascinating introductory essay examines the context of the Rockefellers' collecting, the directions they considered in forming the collection, their increasing sense of responsibility toward it, and factors they considered in its disposition.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
