Manufacturing Facilities Design and Material Handling Fred E. Meyers, Matthew P. Stephens, 2005 This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved, such as computer simulation. A how-to, systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.

Transporte de mercancías peligrosas Francisco Carmona Pastor, 2002 El transporte de mercancías peligrosas es una actividad socioeconómica tradicionalmente teñida de particularismo propio, con una veloz tecnificación y avance que hace que, la persona experta en esta materia, deba evolucionar al mismo tiempo y que tanto el transportista como el usuario, precisen conocer y poder aplicar sus técnicas. Al profano no le es sencillo entrar en el complejo y tecnificado mundo del Transporte de Mercancías Peligrosas, máxime en área tan complicada como son los Explosivos. Muchas veces, un enfoque inicial erróneo y la propia aridez del tema, aparte de su propia fascinación, ponen de manifiesto hasta qué punto son importantes y vigentes los problemas de esta realidad del transporte que, en consecuencia, deben reducirse para el logro de una buena gestión. El cuerpo de doctrina y la sistematización de la experiencia que encierra la obra, tienden a que la tarea de conducir y aglutinar las acciones de las personas encargadas de los Fletamentos y Transportes, Consejeros de Seguridad, Gerentes, Directores Comerciales y Directores de Marketing, vayan hacia unos objetivos comunes mediante la interacción en las operaciones.
