**Mary Ellen Ledbetter**

Mr. Chas and Lisa Sue Meet the Pandas Fran Lebowitz, 1995 While exploring their New York City apartment building, seven-year-old Mr. Chas and Lisa Sue discover two pandas.

**A Country of Strangers** David K. Shipler, 1998-09-01 A Country of Strangers is a magnificent exploration of the psychological landscape where blacks and whites meet. To tell the story in human rather than abstract terms, the Pulitzer Prize-winning writer David K. Shipler bypasses both extremists and celebrities and takes us among ordinary Americans as they encounter one another across racial lines. We learn how blacks and whites see each other, how they interpret each other's behavior, and how certain damaging images and assumptions seep into the actions of even the most unbiased. We penetrate into dimensions of stereotyping and discrimination that are usually invisible, and discover the unseen prejudices and privileges of white Americans, and what black Americans make of them. We explore the competing impulses of integration and separation: the reference points by which the races navigate as they venture out and then withdraw; the biculturalism that many blacks perfect as they move back and forth between the white and black worlds, and the homesickness some blacks feel for the comfort of all-black separateness. There are portrayals of interracial families and their multiracial children--expert guides through the clashes created by racial blending in America. We see how whites and blacks each carry the burden of our history. Black-white stereotypes are dissected: the physical bodies that we see, the mental qualities we imagine, the moral character we attribute to others and to ourselves, the violence we fear, the power we seek or are loath to relinquish. The book makes clear that we have the ability to shape our racial landscape--to reconstruct, even if not perfectly, the texture of our relationships. There is an assessment of the complexity confronting blacks and whites alike as they struggle to recognize and define the racial motivations that may or may not be present in a thought, a word, a deed. The book does not prescribe, but it documents the silences that prevail, the listening that doesn't happen, the conversations that don't take place. It looks at relations between minorities, including blacks and Jews, and blacks and Koreans. It explores the human dimensions of affirmative action, the intricate contacts and misunderstandings across racial lines among coworkers and neighbors. It is unstinting in its criticism of our society's failure to come to grips with bigotry; but it is also, happily, crowded with black people and white people who struggle in their daily lives to do just that. A remarkable book that will stimulate each of us to reexamine and better understand our own deepest attitudes in regard to race in America.

Michael Graves Ian Volner,2017-10-24 One of the most prominent and prolific designers and architects of the late twentieth century, Michael Graves is best known for his popular product designs, including the world-famous Alessi whistling-bird teakettle, and controversial buildings, such as the Portland Building in Oregon, Humana Building in Kentucky, and Dolphin and Swan Hotels at Walt Disney World, Florida. Graves was widely seen as the leading voice of postmodernist architecture, which reintroduced human scale, color, and, sometimes, playful forms into the stark white vocabulary of modernism. Following a devastating illness that paralyzed him from the chest down, Graves became a tireless designer and advocate of improved health-care products and facilities before his sudden death in 2015. Shortly before this, he began a series of interviews with journalist Ian Volner, which form the basis of this biography of a remarkable designer. Volner also conducted numerous interviews with Graves's family, patrons, colleagues, and friends. What emerges is a meticulously researched, anecdote-rich human story, as well as a primer on the American architecture scene of the past sixty years and a portrait of a man whose deep passion for his art brought pleasure to millions.

*Michael Graves* Michael Graves, Francisco Sasin, 2003 For nearly forty years, Michael Graves has produced architecture with a blend of classical rigor and abstract whimsy that has consistently garnered international recognition. This, the fourth chronological volume of Michael Graves' buildings and projects documents the latest period in a career of award-winning design. With more than 100 projects illustrated by over 300 color photographs and architectural drawings by Michael Graves & Associates, this volume demonstrates Graves' enduring status as a leading American architect. Michael Graves recombines traditional architectural elements to expand and transform the language of architecture. Valuing character over style, Graves' designs maintain a sense of experimentation while respecting scale, culture and history. Michael Graves considers himself a general practitioner rather than a specialist in any one building type or discipline. He has widely influenced architecture, interior design and industrial design, as well as the classroom through his nearly 40-year career at Princeton University. He and his associates design not only the architecture but also the interiors and furnishings of their projects. Graves' extensive line of products for Target has made highquality design both affordable and readily available. The contemporary, contextual designs of Michael Graves can be found worldwide, from multi-use urban developments, corporate headquarters and hotels to libraries, museums, academic buildings and private residences. Projects in this volume range from the Washington Monument Restoration, which transformed the restoration project into public art, to the United States Embassy Compound in Seoul, Korea; and from the LIFE Magazine Dream House, which provided a well designed and flexible prototype for the average house, to the Miramar Resort Hotel and El Gouna Golf Hotel and Club in El Gouna, Egypt.
