

Nombres De Minerales En Español

L Reisser

Manual de mineralogía Cornelis Klein, Cornelius S. Hurlbut, 1997 En esta nueva edición (cuarta edición española correspondiente a la 21a edición americana del Manual de Mineralogía) se intenta conseguir un equilibrio entre conceptos y principios por una parte y el tratamiento más descriptivo y sistemático de la Mineralogía por otro. Este objetivo equilibrado requiere el tratamiento de muchos temas. No todos ellos pueden tratarse en un curso de un año y mucho menos en un curso semestral o trimestral. En esta edición, los capítulos 2 a 9 se refieren a los conceptos, principios y técnicas. Los capítulos 10 a 13 tratan de la Mineralogía sistemática y descriptiva. El capítulo 14 es una introducción a la Petrología y el capítulo 15 ofrece una introducción a las gemas más comunes.
