Inside the Hollywood Closet--A Book of Quotes Boze Hadleigh, 2020-02-17 Join legendary Hollywood scribe Boze Hadleigh in this journey back in time as he examines what it was like to be gay in Hollywood during Tinseltown's heyday, as well as how things have changed and what the future of gay Hollywood looks like. Today. Hadleigh examines both the obvious and hidden costs of being queer in Hollywood from both the inside looking out, and the outside looking in. Hadleigh brings us quotes and statements from such stars as Rock Hudson, Truman Capote, Cary Grant, Neil Patrick Harris, kd Lang, Ellen DeGeneres, Jodie Foster, Queen Latifah, Little Naz, Oscar Wilde, Sammy Davis Jr., Ellen Page, Rosie O'Donnell, Ian McKellan, Bea Arthur, Butterfly McQueen, Chaz Bono, Elton John, Remi Malek, Wanda Sykes, among others.

Words Matter Sally McConnell-Ginet, 2020-08-27 Featuring current and historical concrete examples and minimising technical vocabulary, Words Matter is for all interested in examining ideas about language and its connections to social conflict and change. Accessible to general readers, the book will also be useful in linguistics, philosophy, anthropology, or other classes featuring language.

High School Students' Competing Social Worlds Richard Beach, Amanda Haertling Thein, Daryl L. Parks, 2020-07-24 This book examines how working-class high school students' identity construction is continually mediated by discourses and cultural practices operating in their classroom, school, family, sports, community, and workplace worlds. Specifically, it addresses how responding to cultural differences portrayed in multicultural literature can serve to challenge adolescents' allegiances to status quo discourses and cultural models, and how teachers not only can rouse students to clarify and change their value stances related to race, class, and gender, but also provide support for and validation of students' self-interrogation. Highlighting the influence of sociocultural forces, the book contributes to understanding the role of institutions in shaping adolescents' lives, and identifies needs that must be addressed to improve those institutions. Current theory and research on critical discourse analysis, cultural models theory, and identity construction is meshed with specific applications of that theory and research to case-study profiles and analysis of classroom discussions. The instructional strategies described enable pre-service and in-service teachers to develop their own literature curriculum and instructional methods.

Care of Older Persons Mala Kapur Shankardass,2024-10-23 This book explores the implications and significant ethical, social, economic and health challenges that an ageing world population presents. It provides valuable insights on concerns related to providing, organizing, planning and managing care for older persons in both formal and informal settings. As the number of older persons increases rapidly around the globe, caring for them is a very important aspect of all ageing and aged societies. While in most countries the care of older persons is provided informally by family members, the changing social scene, family structures and work and employment patterns are leading many nations to create provisions for formal care through institutions or paid services of caregivers. This book offers perspectives on formal and informal care from countries such as Japan, the Netherlands, the USA, India, South Africa and Poland, among others. The essays in this book underline a rights-based approach and focus on ethical, social, economic, health and legal aspects of care as they pertain to the universal phenomena of ageing as well as the specific demographic and epidemiological realities of the selected countries. They discuss concerns such as long-term care provisions, catering to the needs of people affected by dementia, providing residential care, taking the needs of family care providers into account, the growing requirement for paid care workers and channelizing training of both skilled and semi-skilled care providers to suit the needs of older people. This volume would be of interest to scholars and those working in the fields of sociology, health studies, age and ageing, psychology, social work, medical sciences, nursing and public policy. It will also be useful to NGO sector workers, administrators, as well as grassroots workers involved with the care of older persons.

Using Chinese Classics for Intercultural Communicative Competence Jinai Sun,Xuehua Xiang,Li Ye,2024-08-05 Using Chinese Classics for Intercultural Communicative Competence presents new strategies and tools for integrating Mandarin language teaching with fostering intercultural competencies through contemporary, global lenses on Chinese classic texts. Chinese classic texts are canonical works in Chinese culture published before 1911. They offer a window into deeply held cultural values which learners of the Chinese language would benefit from studying to facilitate meaningful intercultural dialogues. With chapters covering classic Chinese texts, such as Journey to the West, Dream of the Red Chamber, and The Romance of the Three Kingdoms, this book will demonstrate the value, importance, and feasibility of teaching Chinese classic works for ICC development in the Chinese world language classroom, and equip teachers with carefully planned, classroom-tested lesson models that demonstrate the innovative, integrative models advocated in this book. This book will be valuable for pre- and in-service Mandarin Chinese teachers across various institutional settings at different levels, looking for ready materials and professional development resources. The book can also be used as core material for teacher training programs.
