Accelerated Language Learning (ALL) with the Lit Six (grades 6-8) Nancy Akhavan, 2023-07-13 “It’s a new day! We’ve learned language acquisition in school isn’t linear and rote, but rather, dynamic, meaningful, and collaborative. Multilingual learners thrive through the production of oral and written language.” —Dr. Nancy Akhavan Are you ready to teach multilingual learners with instruction that reflects current English Language Development (ELD) standards? Language acquisition expert Dr. Nancy Akhavan provides a flexible resource that delivers what students need most—experiences that teach language skills through intellectually engaging texts, tasks, and lively communication with peers. This dynamic curriculum offers five units based on a writing performance task that aligns to commonly taught genres and key reading skills. The research-backed instructional framework maximizes students’ participation through a series of listening, speaking, and writing activities. Book Review 1: Nancy Akhavan has brought together a set of carefully designed lessons that address the specific language-acquisition needs of English Language Learners. Each 30 minute lesson is designed to help multilingual learners acquire English through content, which supports lesson planning and delivery. Dr. Akhavan’s work ensures success by demystifying the process of teaching and learning. Cinnamon Scheufele Executive Director, Curriculum and Instruction Lindsay Unified School District, Lindsay, CA Book Review 2: As a teacher educator, this curriculum is exactly what I wished I had to give my early career teachers - who needed structure, scaffolding, and support in fine-tuning their instruction. The unit design - with the foundations, pave the way, lead the way, and assess - serve as the foundation upon which each lesson rests. The lessons are laser focused to standards and learning outcomes, and the assessment perfectly aligns. I enthusiastically support this curriculum, which has the potential to promote significant changes in the literacy trajectories for students and districts. Teens Choosing to Read Gay Ivey, Peter Johnston, 2023 In a sea of troubling reporting about education, teaching, reading, and the wellbeing of teens, Ivey and Johnston bring some good news that shows what happens when we stop underestimating young people. This accessible book offers an engaging account of a 4-year study of adolescents who went from reluctant to enthusiastic readers. These youth reported that reading not only helped them manage their stress, but also helped them negotiate happier, more meaningful lives. This amazing transformation occurred when their teachers simply allowed them to select their own books, invited them to read, with no strings attached, and provided time for them to do so. These students,

nearly all of whom reported a previously negative relationship with reading, began to read voraciously inside and outside of school; performed better on state tests; and transformed their personal, relational, emotional, and moral lives in the process. This illuminating book leads readers on a tour of adolescents' reading lives in their own words, offering a long-overdue analysis of students' deep engagement with literature. The text also includes research to inform arguments about what students should and should not read and the consequences of limiting students' access to the books that interest them through censorship. Book Features: Links young adults' reading engagement with socio-emotional and intellectual development. Provides nuanced descriptions of teaching practices that facilitate student agency in learning. Features student voices that have been absent in debates about what is appropriate for young people to read and under what circumstances. Connects student perspectives on reading, with positive outcomes of reading, to research from other disciplines. Illuminates the breadth and depth of the responsibilities of teaching English language arts.
