**María Cristina Toledo Báez**

**El resumen automático y la evaluación de traducciones en el contexto de la traducción especializada** María Cristina Toledo Báez,2010 La obra aúna, de una parte, el resumen automático como nueva tecnología de la traducción y, de otra, la evaluación analítica y holística de traducciones. El objetivo principal es demostrar mediante estudios empíricos con traductores semiprofesionales que el resumen automático, en concreto el programa Term-Based Summariser (TBS), facilita la traducción en ambos sentidos (directa e inversa) de textos especializados (artículos de investigación del ámbito jurídico-tecnológico) en tres lenguas de trabajo (español, inglés y francés). Los resultados obtenidos se han comprobado, por un lado, con criterios cuantitativos, principalmente mediante la evaluación de traducciones con nuestras propias plantillas analíticas y holísticas, y, por otro lado, con criterios cualitativos empleando encuestas electrónicas como herramientas. En todos ellos, las traducciones realizadas con ayuda del programa TBS han obtenido mejores resultados que las traducciones llevadas a cabo sin dicho programa, lo cual corrobora que el resumen automático constituye una ayuda documental y terminológica significativa para los traductores.

Formarse como profesor (y de una enseñanza obligatoria!) es una cuestión que va más allá de formarse como experto en los contenidos científicos de una disciplina; y el considerar que ese más allá es irrelevante constituye otra de nuestras creencias encriptadas de lamentable consecuencia aplicativa. Este libro, ante lo que parece una indolente e indecisa puesta en marcha de el máster por las universidades, insiste en la defensa de una formación del profesorado de secundaria, con idénticas exigencias a las del grado, desde las ciencias didácticas de las disciplinas.

*El simbolismo de Juan Eduardo Zúñiga* Luis Beltrán Almería,2008 Juan Eduardo Zúñiga (Madrid, 1919) és un dels més grans prosistes moderns en llengua castellana. Les seves obres giren al voltant de dos eixos: el Madrid de la Guerra civil i de la postguerra i les literatures esclaves, amb una dedicació especial a la russa. S'han valorat sobretot els seus contes, però també ha conreat la novel·la curta, l'assaig i l'anècdota sàvia. El simbolisme que caracteriza l'obra de Zúñiga il·lumina també la d'altres grans escriptors i la de tot un corrent secret de la literatura moderna universal.
