Educazione in età adulta Paolo Federighi, 2018 This volume shows the outcome of a series of meetings and seminars which, on several levels, contributed to the construction of the International Conference La ricerca sull'Educazione in età Adulta nelle università italiane held at the University of Florence on the 23rd and 24th November 2017. The different contributions have tried to answer the question on the origin and development of adult education in Italy within academic contexts. What does it mean to work in this research field? The interviewed directors have reflected on a number of research approaches and have reconstructed the variety of theories, models and authors which outlined the development of this discipline in Italy over the last fifty years. Among the covered topics are: increasing the educational quality of the workplace, understanding the education incorporated in the workplace, studying the aims of education in formal and informal contexts. This has led to a new and original theme, which had however not been touched by the Italian academic literature, namely the question of inequalities and relative poverty, two important phenomena for understanding the development of future societies.

Nella rete del body shaming Paola Borgna, Maria Adelaide Gallina, Renato Grimaldi, Cristina Ispas, Tania Parisi, 2025-05-21 Una persona sovrappeso dovrebbe evitare di postare le sue foto sui social in costume da bagno; Se qualcuno riceve un meme su un suo difetto fisico, non se la deve prendere, è soltanto un meme. Ancora: Offendere un compagno/a via Internet per come si veste è sicuramente meno grave che farlo di persona. Queste sono alcune delle

affermazioni utilizzate nell'indagine empirica presentata nel volume, condotta su un esteso campione di adolescenti in Italia e in Romania per rilevare la loro propensione al body shaming online. I comportamenti di prevaricazione messi in atto attraverso insulti, prese in giro o umiliazioni – nel mondo fisico e nel mondo virtuale – sono oggetto nel testo di analisi sociologiche, pedagogiche, psicologiche, semiotiche, mediologiche, e di riflessioni di insegnanti e funzionari del sistema scolastico.

Teoria e storia dell'educazione Lombardo Radice (Giuseppe), 1913

A History of Physics: Phenomena, Ideas and Mechanisms Raffaele Pisano, 2024-09-19 The book gathers several contributions by historians of physics, philosophers of science and scientists as new essays in the history of physics ranging across the entire field, related in most instances to the works of Salvo D'Agostino (1921-2020), one of the field's most prominent scholars since the second half of the past century. A phenomenon is an observable measurable fact, including data modelling, assumptions/laws. A mechanical phenomenon is associated to equilibrium/motion. Are all mechanisms mechanisms of a phenomenon? Scholars with different backgrounds discuss mechanism/phenomena from an historical point of view. The book is also devoted to understanding of causations of disequilibrium (shock, gravitational, attraction/repulsion, inertia, entropy, etc.), including changes/interaction in the framework of irregular cases of modern physics as well. The book is an accessible avenue to understanding phenomena, ideas and mechanisms by leading authorities who offer much-needed historical insights into the field and on the relationship Physics-Mathematics. It provides an absorbing and revealing read for historians, philosophers and scientists alike.
