Arabic, Qurʾān, and Poetic License Shady Hekmat Nasser,2025-03-31 This book examines the similarities between the Qurʾān and ancient Arabic poetry, analyzed through the framework of Arabic grammar prior to their standardization and subsequent development into distinct genres. Of central relevance is the relationship between the Qurʾān and Arabic poetry, and how Muslim scholars defined this relationship based on a formulaic structural approach rather than a thematic and motif-oriented one. The book aims to reposition the so-called non-standard usages of Arabic vernaculars, non-canonical readings of the Qurʾān, and unusual grammatical structures in ancient poetry at the heart of the Arabic-Islamic tradition. The book deals with different theological, legal, and social controversies regarding the proper recitation of the Qurʾān and its individuation from poetry and other verbal arts. For the first time, this study offers a comprehensive categorization of unusual grammatical structures in both the Qurʾān and ancient Arabic poetry, which Arab grammarians classified as poetic license. The close affinity between the linguistic styles of the Qurʾān and ancient Arabic poetry suggests that the Qurʾān was a form of ancient Arabic poetry. To individuate the Qurʾān, Muslim scholars put in place various theological and legal restrictions for its proper recitation, the most important of which was tajwīd (Qurʾānic recitation). The book will interest students and scholars of Qurʾānic and Islamic studies, as well as those researching Arabic poetry and grammar.

The Arabic Literary Heritage Roger Allen,2005-10-17 Roger Allen here offers an account of the cultural tradition of literary texts in Arabic, from their unknown beginnings in the fifth century AD to the present day. Allen's organising principle is not that of traditional literary histories, but is rather based on an account of the major genres of Arabic literature. After introductory chapters on principles and contexts, there are chapters devoted to the Qur'an as literature, poetry, belletristic prose, drama and criticism. Within each chapter the emphasis is on the texts themselves, and those who created and commented on them, but Allen also demonstrates his awareness of recent Western theoretical and critical approaches. The volume as a whole, which contains extensive quotations in English translation, a chronology and a guide to further reading, makes a major non-Western literary tradition newly accessible to students and scholars of the West.

A Cultural History of the Arabic Language Sharron Gu,2013-10-11 This history of literary Arabic describes the evolution of Arabic poetry and prose in the context of music, ritual performance, the arts and architecture. The thousands-of-

years-old language is perhaps more highly developed and refined than any other on earth. This book focuses on what is unique about Arabic compared to other major languages of the world (Greek, Latin, Hebrew, English and Spanish) and how the distinct characteristics of Arabic took shape at various points in its history. The book provides a cultural background for understanding social and political institutions and religious beliefs--more influenced by the rhythms and depths of poetic language than other cultures--in the Middle East today.

ALEXANDER THE GREAT IN BACTRIA AND INDIA NARRATIVE Dan-Tudor IONESCU,2025-01-01 This book is not only the attempt at the reconstruction of the military expedition of the army of Alexander the Great in Bactria and India and an analysis of the historical sources, on which our modern image of Alexander's age is based, but also aims at reconstructing the imago mundi that the ancient Greeks and Macedonians had on the world they conquered. The birth and development of Alexander's myth are also treated in these pages.

Arabic, Islām, and the Allāh Lexicon John Andrew Morrow,2006 The Arabic language possesses a unique language feature, the Allah Lexicon, a rich and varied body of religious expressions invoking the Almighty. Despite the pervasive presence of Allah in the Arabic language, this linguistic phenomenon has been largely unexplored. This book investigates the impact of Islam on the Arabic language by examining key cultural concepts, the frequency of the word God in Arabic and other languages, and the philosophical and theological foundation of Allah expressions.
