Sasquatch Research Manual Red Grossinger,2011-06-27 This manual provides comprehensive and practical knowledge about procedures, protocols and techniques used to conduct Sasquatch field research. Sasquatch leaves activity signs behind while wandering through the PNW. Either by accident or on purpose, this manual will explain how to recognize these activity signs. The Sasquatch Research Manual describes research methods to arrive at the common sense decisions based on practical research procedures. This easy to read how to guide will not guaranty Sasquatch sighting, but it will make it easier and safer for you to get out there and know what you are doing.

The Grip Book Michael Uva,Sabrina Uva,1997 The Grip Book has been widely used by beginners and experienced key grips alike as both a learning tool as well as a handy reference for a number of years. It clearly details and illustrates all the equipment used by motion picture film technicians on stage as well as on location. This new edition has been thoroughly updated to include the latest models of all types of equipment and the authors have added important safety tips throughout the manual. This new book is also significantly expanded to include a special supplement detailing cranes, jibs, and arms which had previously been published in a separate limited edition. The result is a comprehensive, unequalled reference that no technician or production student will want to be without. Michael G. Uva is a well-respected Key Grip in Hollywood, with over 20 years' experience in film, TV movies, and commercials to his credit. He and his wife Sabrina are also owners of Uva's

Grip Truck Service. They now wish to share their knowledge, particularly in order to help those who want to find their first job in the film industry and learn the business.
